The Royal Insurance Company.

The annual meeting of the shareholders of the Itoyat Insurance Company was next in Liverpool, England, on the 2d ult. The Chairman of the Company, C. Turner, Esq., M. P., presided on the occasion. The annual report showed that the receipts of fire premiums for the year had amounted to £697,261 12s 11d, (\$3,486,805) and the losses by fire, including Chicago losses to £384,060 3s 5d, (\$1,920,200.) After providing for unexpired liabilities, etc., the net profit ing for unexpired liabilities, etc., the net profit for the year amounted to £63,851 15s 7d. (£744, 265.) The business of the year showed an increase of £185,425 in fire premiums alone, (£927, 125.) A very large proportion of this vast increase of business in one year, has been produced in the United States, where the Company is rapidly extending its business and growing daily in popular favor. The fire reserve fund of the Royal now amounts to £488,466 (£2,445,330)—This places the Company amongst the most secure and solvent fire companies of the world—The total assets of the company are now £2,290,923 0s 8d. (£11,454,615) to meet its life and fire liabilities. The chairman in his speech, moving the adoption of the report, referred to the progress of the company in America in complimentary terms, and expressed his belief that the people of the United States were patronizing that company, and others from Great Britain, because they had been found prompt in settling all claims arising from loss by fire—even in such extensive losses as those of Chicago.—The entire position of, that company places it in the front rank of insurance organizations; and while the business of the year, 1871, must be highly gratifying to the United States agents of the company, we have no doubt they will stilf further increase, their business during the current year, and appear in even a still more favorable position in the next annual report.—Insyrance Times.

Insurance Notice.

Insurance Notice.

The undersigned, out of no ill-feeling to anyone, published an official statement some weeks ago, of the impairments of the capital of several insurance companies, represented by some tour agencies in this county, one of which was the Andes, of Cincinnat. At the instigation of the agents, or some other person, the President, J. B. Bennett, words a letter to the editor of the Republican, denying the statement, which was published in that paper. We now find the following statement published in the New York Times, Sept. 21st, 1872, which makes the Andes Insurance Company 4299,163 27 worse off than nothing. According so this statement parties in this county, and elsewhere, holding policies in this company are not insured. Mr. Bennett is also President of the Amazon and Triumph—companies also doing business in this State. I would recommend all parties who desire safe insurance to apply for policies in old, reliable companies represented at this agency.

The North America Insurance Company, of Philadelphia, incorporated 1794, Franklin, of Philadelphia.

Pennsylvania Fire Insurance Company, of Philadelphia.

State of Pennsylvania, of Philadelphia.

Philadelphia.
State of Pennsylvania, of Philadelphia.
The old Hartford Fire Insurance Company, of Hartford, Ct.
Home, of New York.
The above companies lost over \$5,000,000 in the Chicago fire, which was promptly paid, and the companies are in as good condition as they were previously to the fire. It costs no more to insure in good companies than it does in doubtful ones, Adl parties applying to this agency will get reliable insurance. will get reliable in BILLINGS STROUD, Agent.

Ayer's Sarsaparilla

Is widely known

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities, or diseases that have lurked in the system for years, soon yield to this powerful antidoto, and disappear. Hence its wonderful cures, many of which are publicly known, of Scrofulia, and all scrofulous diseases, Ulcers, Eruptions, and eruptive disorders of the skin, Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Eryspelled, Kingworm, and internal Ulcerations of the Uterus, Stomach, and Liver. It also cures other complaints, to which it would not seem especially adapted, such as Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility, and Leucorrhora, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs,

strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

Ayer's Hair Vigor, For restoring to Gray Hair its

A dressing which is at once agreeable, healthy, and effectual for

gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and stroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injusome preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
