## Various Items.

Max and wife are generally called one. Some people, though, reckon them as two. But ten is the proper calculation of some persons-the wife one, and the husband a ciplier. THE "freeze up station" on the Montrose Railway is now erected about four miles from Montrose, at which point the track will be laid this week.

A CHILDREN'S class in Musical Gympastics will be formed in the second story of B. C. Sayre's Hardware Store, on Dec. 21st, at 10 o'clock, A. M. Payments in advance.

Tun Fall Term of the Graded School closed on Friday last. Under the direction of Prof. Berlin, our school stands among the first in this section. An increase of students from various parts of the county, and even adjoining coun tas, shows that his efficient management and therough instruction, is being appreciated. Our school is a success, if other enterprises do fail. IT is important that those who wish to join the evening class in Musical Gymnastics for gentiemen and ladics, should do so as early as convenient. The class is to be held every WEA pesday evening. Doors open at eight o'clocklusiness men, and all whose habits are sedentary, are especially invited. Payments in advance. C. M. GERE has sold his News Room to C. G. ## Greasing the Griddle.

As the buck wheat batter season is in full flow the following is given as a receipt for greasing the griddle: Take a turnip, cut it in half, rub the griddle with the inner side, and you will tiad the cakes to come off nice and smoothly, and you will be rid of the disagreeable odor of burning fat.

## Poulal Decision.

Hasbands, jealous of their wives will be interested-and wives too, for that matter-in knowing that the acting Postmaster General has decided that letters can only be delivered to the erson to whom they are addressed. In the case before the department, a husband demandel letters written to his wife, but .was refuscil

### Proper Plan.

We note that a bran-new plan of managing the welding present business has been introed out West, which we rather like. Instead of anybody giving the bride spoons, napkin rings little mugs, cradles and sich, the welding man off in church, and a fee of twenty-five cents is paid at the church door by each person wish attends to see the show and then the money is given to the brid . The above is respectfully suumited.

# Going it on the Grey.

A facile fashion writer in one of our citics, says that the number of our prematurely grey voing women on the streets dressed in the her the of fashion, and style, attracts attention. ## Nazareth Note.

It will be-remembered that some time last summer considerable excitement was created in the vicinity of Nazareth, by a school teacher named Wm. Moser, running away with a fourteen year old daughter of Mrs. Frankenfield. Diligent search was made, at the time, for the clopers but no trace of them could be discoverci Recently it has been ascertained that they are married and quietly settled down in Brookivn, where Moser is engaged as a clerk in a dry goods store.

for the establishment of the soldiers' orphan department and during the surrent year the number has been about the same. The monthh admissions reach from thirty-five to forty. The yearly expense of the State in keeping up the orphan school system amounts to from \$450,000 to \$500,000, which sum will probably be greatly reduced within the next two or torce wars; and in the course of five or six years the number of orphans will have become so small as to render the department created for their benefit unnecessary.

Pencilled Promises,

It is a popular fallacy that promissory note written or signed in pencil with not stand good in law, and a case has just licen dismiss the of the New York courts, grounded on that when the declaign being given that a note in a ched is legally at blading as if in Ink. "Story on promissory notes." declares that a "promisoury note must he in writing, citing in ink or peacil; that is to say the signature of the promiser must be so; the body of the note may be printed." This is couclusive, but the courts, in a great many cases, and without a dissenting judgment, have confirmed this rule. A note

my of fishion that young girls with continues to exist the said auditors shall apbe appointed by said contractors, and a two thirds vote shall be final and conslusive, as each and every town will most likely desire to have a voice in the matter until a finul decision. It is certain that each and every party would be as likely to get satisfaction. As the supervisor are compelled to draw up specifications, they would be quite as apt to see that the work was lone according to the specifications, as the auditors, from the fact that they could not shirk the responsibility upon some one else, providing the work was not well done, yet the auditors can retain their power to remove either or all of the supervisors, if they fail to do their duty. The

main thoroughfares throughout the county, are so well established that the supervisors and auditors should have some discretionary powers

The number of soldiers' orphans under the in building cross roads within the town, from-care of the State has undergone no diminution the fact that it is getting to be factionable to change or lay out cross roads, to enhance the value of real estate to the detriment of those roads that require a large amount of labor, for causes being filled by others old enough to claim the comfort and benefit of the community at a luission. In the years 1839, 1869, 1870 and large. In order to have good roads, the people 1571, between 3,600 and 3,700 orphans were ed- must not have more than they can keep in good BRIDGEWATER.
