MCTHODIST EPISCOPAL ... Hev. A. D. ALEKANDER.

ANY ONE who sincerely wishes us a happy New Year, can do his part to make it so by subscribing for the Democrat and paying in advance, or getting our receipt on account which will furnish us the means to make our creditors happy, also. If everybody would do this what happy time it would be, wouldn't it? It would go farther, in a large family, than wishes.

Targe are quite a number of persons who have spoken to and written to us, who are anx- of trouble; perplexity and litigation would be ious to form a club for the purpose of taking avoided. Knowledge will prove to be power the Tribune. They claim that the postmaster and other parties who have heretofore been foremost in getting up clubs refuse to do so now .-We are certainly sorry that any one in this sec-tion is supporting a cause that will admit of discassion only on one side. We certainly are suspicious of any person's honesty of views who dares not allow his followers to read only such statements as his own party organs may see fit to give him. The ideas of our postmaster and the Grant and Wilson Club of Montrose, must have changed since they were circulating and clubbing " Pomeroy's Democrat." We care not what may be the political course of the Tribune in the future, if there are any who wish to read it we are willing to say that we will send in a club for it if the names are left at our office. We like A Good Grammar. freedom of the press, and also freedom of the people to read whatever paper they may choose. stand that we chink there is no danger from any other source.

Insufficient Clothing.

The cold weather should suggest to parents the necessity of seeing that their children are properly clothed. It is a mistaken idea to supas that it makes children hardy to expose them to cold without sufficient: clothing. If a acaithy man requires an extra amount of clothing, how much more necessary it is that young . Lildren should be provided with extra garment when exposed to such weather as we are now experiencing. The practice of exposing young caldren to cold has in many instancea laid the foundation of dangerous diseases. Parents can not be too careful in this respect.

School States.

Among other reforms now being agitated is which meets our approval-a war upon speeching states. Some of the objections urged a, dost their use are that they are noisy, hart tal to the eyes, and assist in forming a bad chiregraphy, which it takes years of pen practice to overcome. Ther place is to be filled by an ten as needful. The total abolition of slates O. N. Wonden, Secretary, will be a joyful move for teachers as well as puand been set on edge by the horrid sound.

Wearing Flaunci.

The majority of people are not aware of the beneficial results of wearing flamel next to the beneficial results of wearing flamel next to the body both in warm and cold weather. Flamed is not so uncomfortably in warm weather as prejudiced people believe. Frequently colds, and constant backing coughs, soon leave on and opting flamel garments. There is no need of great bulk about the waist, which condemns the weight of flamed with those who prefer wasp waist to be directly presented to the people of Sasting Company. opting flamed garments. There is no need of great bulk about the waist, which condemns the we'vring of flamed with those who prefer wasp waists to heal h, for in that ease the flamed can waists to heal h, for in that ease the flamed can be used to be directly presented to the people of Sustainan a country at the b llot abox, carnestly uree upon the friends of humanity, to take imeffects of sudden changes of weather felt by those who wear flannel garments, and mother should endeavor to secure such for their little people, in preference to all those showy outside remaings which fashion commands.

ous article, headed " Dimock Correspondence," and over the initials X. T. Y., which, from its enor, a stranger would at once conclude, that B. Lacer. it was written by a resident of the place. But on the contrary it was fabricated and written by a stranger, for no man, woman, or child, who lee, esq., P. Hinds, Rev. A. The design of wel Smith. the article was injury and mischief, without Just cause, and an act that no unprejudiced resi. Isaac VanAuken. dent would acknowledge himself base enough to commit. The Metho sis's have no organized society here, nor no idea or talk of building a house of worship the coming year, for there are not a bulf-dozen Metho dists in a radius of two miles.

Oh, X. T. Y., why didn't we know something about the prosperity of the neighborhood, hefore you came here to meddle and disturb the quiet of our place. I plainly see the motive you have in falsitying and misrepresenting the Rosencranis. facts in your article, to which I refer, and which I have already corrected. It is that by your gross misrepresentations of the prosperity of , ie place, &c., you may gain mure credence to your assertion that " He has done all he could to rule the hopes of parents, and blight, the prespects of young men." This was the nim and object of the article, which we brand as a malicious lie, such as no citizen in this commucity would be guilty of writing. X. T. Y., my J. Read Your Policy.

No sounder advice than the above can be given to those about to obtain or already in posses sion of a policy of insurance upon their proper. L. Lewis. tv. It is a singular fact that so many men enter into contracts with insurance companies not understanding the terms beyond the fact that the above list be corrected by the President of

they pay a certain sum for a stated amount of this meeting, the County Committee, or the insurance. Not more than one man in ten ever reads his policy, especially the conditions under which it is issued, and when a loca occurs he is astounded to discover points therein that reduce or invalidate his claim. Thereafter " all is vanity" with him, the company is a bloodsucker, and all insurance is a fraud. It is probable that three fourths of the sults instituted in the settlement of insurance losses, arise from the ignorance or carelessness of the insured, and not from any fault or dishonesty on the part of the

This ignorance is wrong, and entirely nanecessary. The policy is the contract, and in it the terms and conditions are plainly set forth: it is all simple and easily understood, and no reputable company will attempt to evade their own provisions. A few minutes spent in reading the policy would show a man exactly what e receives for his money. Doubtful points co'd be much more easily settled than after his property is destroyed; and an astonishing amount to those who follow our advice to "read your policy.'

Since newspaper postage has been reduced to one cent for every two ounces, or fractional part thereof, it is said that a great many papers which are placed in the office never reach their destination. Persons wrap up two or three papers, frequently weighing four or six ounces attach a cent stamp and deposit the package in the post office, and that is just as far as it ever gets. The government agrees to carry two ounces of newspapers-not four ounces-tor on
