Pruning Dwarf Pear Trees.

Dwarf trees are generally very prolific, and the fruit, if well cultivated and perfectly ripened—what an Epicurean dainty!

Do you know which shoots must be pruned? Those that grew from buds started from buds the last season. How much must the limbs or shoots be shortened as a general rule? Three-fourths of the length; in many cases two or three buds is enough, and again in some instances one-third or even one-half of the whole length may be left.

The uppermost bud will usually lead the shoot, the lower ones will produce side shoots or spurs, and these will be the bearing shoots, The leading bud then should be a strong one and in order to preserve the pyramidical form of the tree, this leading bud should be situated on the outside of the limb, not toward the stem, and the cut should invariably be on the opposite side of the bud.

If the tree is crowded with shoots, only the outside of its form can be treated this way and the shoots in the interior must all out close to the old wood, namely so as to leave one bud at the base, this bud will very frequently form a fruit spur and bear.

Pruning dwarf pears may be done any time from the late fall till the time of leafing. They receive ocenlation very kindly but refuse sprouting if they have been pruned the same season.

What dwarfs dwarf trees? The fact that they are grafted upon a tree much smaller than the pear tree naturally.—They can also be grafted upon our quince, which may account for the extraordinary large dwarfs which we sometimes see.—This it seems a law in vegetation, that the size of the tree from a bud united with a stock or root of an another kind, is controlled by the natural and usual size of the tree, with which it has formed a union. Road Sand.

The sand obtained from turnpikes, or roads macadamized with any sort of granite, hard blue stones, very hard to pulverize has a peculiar value. The grinding of such rocks or stones under the iron-rimmed wheels of wagons, the wear of horse shoes, and the mixture of this ground rock with the manure scattered along the roads—produces a compound which is found to be highly acceptible to trees and plants. The granite rock, we know, is rich in potash and silica; but it is not these elements alone which give this road sand its peculiar value. By the process of grinding and triturating inert substances, such as oyster shells, charcoal, and quicksilver, we develop medicinal and other virtues which these substances do not possess in their crude form. And so it is supposed to be with road sand. By the constant grinding and triturating of the iron bound wheels and horse shoes, the comminuated granite becomes prepared for the use of plants; and when this road sand is mixed well with the compost heap and saturated with liquid manure, it is found to help the efficacy of the compost in a remarkable manner.—Under the influence of the road sand of this kind alone, it, is said that when applied to lawns, white clover is sure to spring up in the greatest abundance and luxuriance where it had never been seen before.—*Gardner's Monthly.*

Breed Walking Horses.

Whether for traveling or for farm purposes a fast walk is the best gait for a horse, and with such an idea the *Rural World* gives the following advice for the production of fast walking horses.

Breeders should pay attention to this matter. In selecting a stallion to breed from, by all means select one that can walk fast.

A slow walking stallion will be likely to get slow walking colts; while the stallion that has a long, rapid spirited stride, will be likely to beget colts of a similar action. Then there is a great deal in breeding to a horse with spirit and ambition. These cold-blooded horses will beget cold-blooded colts. The nearer you can approach the thorough bred, even for obtaining a fast walker, the better. There is game there, and spirit and endurance and stamina and style. There are the neat, bony heads and prominent eyes, the small ears, the capacious nostrils the lungs and chest the well developed muscles, the bones as dense as ivory.—Even for walkers, then, get the nearest to thorough bred if possible and the same for trotters, and of course, the same for runners. You have then horses fit for any company, and for any purpose— to haul the plough, or buggy, or carriage, or to carry you upon their backs. Breed large, fine mares, to thorough bred horses and you will get colts that you will not be ashamed to have your friends see.

Killing Trees With Salt.

Dr. Kedzie, of the Michigan Agricultural College, speaking of how salt is taken up in the circulation of trees relates a case of its fatal effects that came under his own observation: On the College grounds formely grew a fine, vigorous specimen of the common sassafras (*Sassafras Officinale.*) apparently in perfect health. A quantity of strong brine was inadvertently thrown beneath this tree, forming a stagnant pool in its immediate vicinity. In a very short time the tree began to manifest signs of decreasing vitality. The salt absorbed unchanged in such immense quantities that, entering the circulation, it effloresced upon the surface of the leaf, in white crystalline deposits, after which the tree grew rapidly feebler and died.

SMYTH'S

REVOLVING CARRIAGE GATE.

[PATENTED, OCTOBER 31, 1871.]

Is claimed by our best Judges, to meet the necessity so long felt, of a Convenient, Practical, Durable Gate, so indorsed by the highest authority in America. Is entirely different from and has many advantages over any other Gate ever invented. Is Cheap and easily constructed and for convenience cannot fail to please all. Can be opened and closed without the operator changing his position, lifting or pulling a pound, and if desired can be easily arranged to be opened and closed without dismounting. It occupies no more ground when opened than two posts without gate, this making it very desirable over any other Gate to farmers and those living in Villages and Towns. Is in order every day in the year, no snow to shovel in winter. It cannot sag or get out of repair.

For further particulars address the undersigned, who will as far as possible visit the several Counties in Pennsylvania and adjoining States, for the purpose of exhibiting and introducing the same.

Farmers and enterprising men generally, will do well to give this special attention, as this Gate certainly will go into general use.

SARSAPARILLIAN RESOLVENT

HAS MADE THE MOST ASTONISHING CURES. SO QUICK, SO RAPID ARE THE CHANGES THE BODY UNDERGOES, UNDER THE INFLUENCE OF THIS TRULY WONDERFUL MEDICINE, THAT

Every Day an Increase in Flesh and Weight is Seen and Felt.

THE GREAT BLOOD PURIFIER.

Every drop of the SARSAPARILLIAN RESOLVENT communicates through the Blood, Sweat, Urine, and other fluids and tissues of the system, the vigor of life, for it repairs the waste of the body with new and sound material. Scrofula, Syphilis, Consumption, Glandular disease, Ulcers in the Throat, Mouth, Tumors, Nodes in the Glands and other parts of the system, Sore Eyes, Strumous Discharge from the Ears, and the worst forms of Skin diseases, Eruptions, Fever Sores, Scald Head, Ring Worms, Salt Rheum, Erysipelas, Acne, Black Spots, Worms in the Flesh, Tumors, Cancers in the Womb, and all weakening and painful discharges, Night Sweats, Loss of Sperm, and all wastes of the life principle, are within the curative range of this wonderful Medicine, and in a few days' use will prove to any person using it for either of these forms of disease its power to cure.

If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood—and this the SARSAPARILLIAN will and does effect.

Not only does the SARSAPARILLIAN RESOLVENT excel all known remedial agents in the cure of Chronic, Scrofulous, Constitutional, and Skin diseases; but it is the only positive cure for

Kidney & Bladder Complaints,

Urinary, and Womb diseases, Gravel, Diabetes, Dropsy Stoppage of Water, Incontinence of Urine, Bright's Disease, Albuminuria, and in all cases where there are bricklust deposits, or the water is thick, cloudy, mixed with substances like the white of an egg, or threads like white silk, or there is a morbid, dark, bilious appearance, and when there is a pricking, burning sensation when passing, or pain in the Small of the Back and along the Loins. Price, $1.00.

WORMS.—The only known and sure Remedy for Worms—Pin, Tape, &c.

Tumor of 12 Years' Growth Cured by Radway's Resolvent.

DR. RADWAY:—I have had Ovarian Tumor in the ovaries and bowels, for the last nine years, and there was no help for it. I tried every thing that was recommended, but got no relief, so I saw your Resolvent, and thought I would try it; I took it as directed, because I had suffered for years, and I got a bottle of your Resolvent, and one box of Radway's Pills, and two bottles of your Ready Relief, and then it was a sign of home to be seen at last, and I feel better, smarter, and happier than I have for twelve years. The tumor was in the left side of the bowels, over the groin. I write this in fear for the benefit of others. You can use which of you choose.

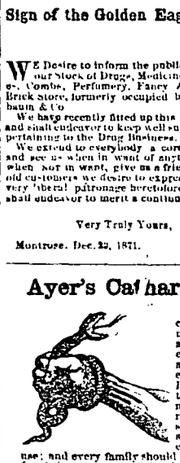
Ayer's Cathartic Pills,



For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice** or **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the ill-caused action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels himself out of sorts, will find a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. *Nothing* can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre; and a grateful perfume.

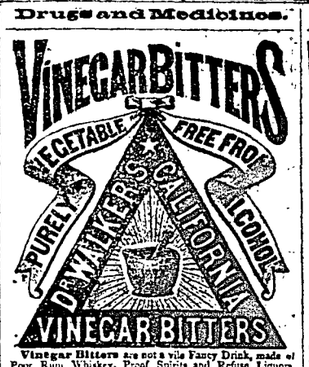
VINEGAR BITTERS



Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by minera' poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion. Headache, Pain in the Shoulders, Coughs, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the springs of Dyspepsia. In these complaints a fair trial will prove a better guarantee of its merits than a lengthy advertisement.
