SINKING FUND. There is a popular demand too, that the sinking faud, containing bonds that represent the proceeds of the sale of public works, and which are applicable alone to the payment of the public debt, shall be kept eacred for the purpose to which it is dedicated, and that the safeguards of arsham which is dedicated and that the safeguards of this fund shall be made so strong as to protect it from every encroachment, however ingeniously planned or powerfully supported. To this demand the constitational convention will doubtless reto say, that no legislation impairing the security of this fund, or changing its character, can ever receive my santien.

In view of the prospects that the legislature will after this session, be divested of its power to legislate for special ob jects, a popular apprehensions is prevail-ing that interested parties will push their hemes at this juncture, and make extraordinary efforts to control legislation. I deem it my duty to impress upon the legislature the necessity of examining with more than ordinary care every measure submitted for their consideration.

BOARD OF PUBLIC CHARITIES.

Too much praise cannot be accorded to the honorable and humane gentlemen ities, for their valuable services, gratui-tionsly bestowed, in supervising the manifold and important public trusts the state has confided to their care. I take great pleasure in inviting the attention of the egislature to the suggestions and work of this excellent board, and shall nuite in any plan that will help these gentlemen to accomplish their beneficent designs. We have great cause for thankfulness my fellow citizens, when we contemplate the happy and prosperous condition of our country. Recuperating rapidly from the ravagee and waste of our great civil
