WHISKY RING WIT.

Verganora L EERIS VET. Query-Will the learned and logical editor at the Montrose Demonstration good enough to explain how the "whisky ring" happen to be at the same time in favor of the Local Uption law and engaged in raising money to proture its repeal ? Buch statements are too ridiculous to hartmatrocreted. Another Query-Is the editor of the Demorrat in favor of, or opposed to, the repeal of that haw ?

Any one who has ever read any of the Wirions of the editor of the Montrose Court, however reputable, when it is deem-Republican does not need to be told, that the above queries emanated from his pen testimony. Attorneys are permitted by He never stiempty to meet a question openly and fairly, and advocate or defend it. but when cornered he always tries to inished his readers by just such labored efforts at wit. It is clear to be seen by judged guilty of contempt, and imprisonfhe references made in these "queries" that the editor has either read or heard beat and insult witnesses, in all cases, to Fonie one read the DEMOCRAT as to what it said upon both of these points. Hence permitting them to do so, as though a one of two facts must govern him. Either he is unable in his childlike simplicity to We insist that attorneys, especially proseauderstand plain English or else he is endeavoring to cover an arrow by an attempt at wit. We will take the charitable view of it, and conclude that his infant mind is honestly in pursuit of knowledge. Hence we will upon this condition answer the queries of our contemporary.

We say to our readers both Republican and Democratic, that when we speak of the "whisky ring" we have no reference whatever to the masses of either party, but we mean the pot-house politicians who deal in politics the same asour "Curb-Flone leeches" do in money, to feather their own nests by sucking the very life Hood from the people, and still rotain accir confidence by the basest hypocrisy in proclamations and legislation. We shall only find fault with the masses for allowing their prejudices to prevent them asks: "Why should attorneys enjoy the from lopping off these cloven feet when they appear.

It has become quite spparent that our judges and lawyers are very sensitive to newspaper strictures and criticiam and

that they are ready, whenever opportunity offers, to punish editorial offenders against our libel laws to the fullest extent authorized by these unjust and unwise enactments. But, while they thus evince such a high regard for the character of persons criticized by the newsdealers,
