once agreeable, healthy, and effectual for

hair. It soon restores faded or gray hair to its original color, with the plots and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restoro the hair where the follicles are do-stroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimu-lated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorons. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so un-cleanly and offensive. Free from thoso deleterious substances which make some preparations dangerous and inju-rious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does nothing else can be found so desirable. Containing ense can be found so destructe. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemista, LOWELL, MASS.
