From Silver Lake.

Friday, the twenty-first of February, the day to hold Township election, the morning dawned with a strong south wind, accompanie came to a full stop, whether on account of the storm or the excitement of election, we can't say. However, teams could pass to and from Brackn y during the day, to convey republicans to and from election. License and Republicans were the order of the day, with their pet at their head, who is capable of doing any dirty work they may have. Lo! and behold, there were twelve found in Silver Lake that voted license. Saturday morning was clear and cold, and the neighborn could go to and return from Binghamton the same day, but our mail is missing,

where, we are not prepared to say.

A Glonious Recond—Twelve years ago a few modest lines in a New York Journal Invited public attention to a new Vogetable Restorative, and solicited a trial of its merits as a remedy for indigestion, billousness, sever and ague, debility, nervous disorders, rheumatism, and all complsings requiring, invigorating and regulating treptment. In this splict, unpretentions way; Planistion Bitura was introduced to the world. It was a success from the beginning. All that was claimed for it as a tonic, a corrective and antedote to malarious fever, was found to be strictly true. Within five years the annual sales of this article amounted to over Ons Million of bottles. A few years more and the demand had swelled to five million. The annual consumption of the bitters has now year shelt the almost incredible aggregate of six millions of butters, and for every bottle sold a copy of the Illustrated Medical Annual, published by the proprietors, at a cost of \$150,000, is given away.
