Miscellaneous.

Curiosities of Science. CLEOPATRA'S NEEDLE.

It is a solid tapering obelisk of red granite, cut from top to bottom with deep sharply, defined, symbolic characters which nobody understands. Lying about five feet below the level of the ground, its mate was discovered about thirty years. Both were brought over one hundred miles from the ancient city of On, the great university of ancient Egypt, where Moses was educated. How such masses were transported such a distance—all the way a desert of sand, loose and veilding were transported such a distance—all the way a desert of sand, loose and yeilding—cannot be explained; yet Pharonto eugineers accomplished the feat without marring the blocks. The horizontal one was presented by Nahomed Alf to the English government. After some months of effort British artisans failed to raise it out of its present bed, so a vessel detailed for conveying the curiosity to London re-

for conveying the curiosity to London re urned without a cargo. EATING LOCUSTS. Immense quantities are collected in Barbary for food. They are boiled and dried upon the roofs of houses. A favorite preparation is to roust them. They are also eaten airve without hesitation by the common people, when in haste for refreshment. Those who have examined the subject, for the purpose of determining whether they were nuwholesome have ing whether they were unwholesome, have concluded locuts are just as untritious as any other kind of ailment. The gastric inice melts them down quickly, and the digestion is not impared. As the proof Agricultural Notes.

Of the pudding is in the eating, in the wisdom of an old proverb, grass-hoppers might be utililized also. The Jews, in many parts of Asia, are said to declare

WISHART'S PINE TREE Tar Cordial,

NATURE'S GREAT REMEDY

Throat and Lungs.

It is gratifying to us to inform the public tha Dr. L. Q. C. Wishard's Pine. Tree Tar Cordial, for Throat and Lung Diseases, has gained an envisible reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons actually benefitted and cured at his office. While he publishes tess, so say our reporters, he is unable to supply the demand.—It gains and holds its reputation.—

Pirst. Not by stopping cough, but by loosening and assisting usuare to throw off the unhealthy matter collected about the throat and broundial tubes, which causes irritation.

Second. It removes the cause of irritation (which produces cough) of the nucus membrane and broughial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood.

Third. It is tree from souills, lobella, incene.

the blood.

Third. It is free from squills, lobelia, ipecae, Third. It is free from squills, lobella, ipecae, and opium, of which most throat and lung re, medies are composed, which allay cough only, and disorganize the stomech. It has a southing effect on the stomach, acts on the liver and kidneys, and lymphatic and nervous regions, thus reaching to every part of the system, and in its invigorating and purifying effects it has gained a reputation which it, must hold above all others in the market.

NOTICE.
