proportion of this increase is due to the great-fires, in Chicago and Boston, and therefore is not chargeable to the ordinary casualties of business. It is true the Chicago fire occurred in October, 1871, but its effect was not fully manifested till arry, or the pristine glory of "Penn's Farm" the beginning of the following year, and the beginning of the following year, and the beginning of the following year, and the losses caused thereby came under the losses caused thereby came under the returns of loss.

This is observed.

The results between the volumes of smoke, intervals between the volumes of smoke, interva
