WISHART'S PINE TREE

Tar Cordial,

NATURE'S GREAT REMEDY

POR THE Throat and Lungs.

It is gratifying to us to inform the public that Dr. L. Q. C. Wishart's Pine Tree Tar Cordial for Throat and Lung Diseases, has gained an enviable reputation from the Atlantic to the Pacific coast, and from thence to some of the first families of Europe, not through the press alone, but by persons actually benefitted and cured at his office. While he publishes test, so say our reporters, he is unable to supply the demand.— It gams and holds its reputation—

First. Not by stopping cough, but by loosening and assisting nature to throw off the unhealthy matter collected about the throat and bronchial tubes, which cones irritation.

Second. It removes the cause of irritation (which produces cough) of the mucus membran and bronchial tubes, assists the lungs to act and throw off the unhealthy secretions, and purifies the blood. Third. It is tree from squills, lobelia, ipecac and opium, of which most throat and lung re-nedies are composed, which allay cough only, and disorganize the stomech. It has a soothing effect on the stomech, acts on the liver and kid-

eaching to every part of the system, and in its avegorating and parifying effects it less gained reputation which it must in ld above all others a the market. NOTICE.
