

EX-GUERRILLA MOSBY is the first republican politician to announce himself as unequivocally in favor of Grant for a third term.

SUSAN B. ANTHONY was convicted in the U. S. District Court at Canandaigua, N. Y., on Wednesday last week, of illegal voting and was sentenced on the following day to pay a fine of \$100 and the costs of prosecution.

THE PORTLAND (Maine) Argus, discussing the farmers' organization, says: "The movement which is sweeping through the Western States as never a movement did before, will ere long reach New England and Maine."

MOSBY, the editor of the Montrose Republican, has united, and determined to run Grant for a third time, as President. Mosby is to do the guerrilla warfare in getting him nominated, and the Republican will do the cleaning up after his temperance "speeches" with affidavits.

OUR EXCHANGES bring us some interesting facts relative to the wheat yield, from which it appears that the wheat crop of the United States last year yielded nearly two hundred and fifty millions of bushels, a considerable increase over 1871, when the yield was not quite two hundred and thirty-one millions.

HON. BROCKNE HALE, member of Congress from the Fifth district of Maine, and son-in-law of Senator Chandler, of Michigan, was President of the late Radical Convention of the former State, and on taking the chair, declared in a sharp, indignant manner, that he was "tired and sick of the carpet-bag governments."

OUR READERS have probably often wondered in what strange way the Modocs came by their queer names. Hooker Jim Sheeknasty Frank, Bogus Charley, Captain Jack, have anything but an Indian sound.

THE PHILADELPHIA Board of Health has issued a pamphlet showing what may be done by individuals in warding off cholera. It especially enjoins upon householders the absolute necessity of keeping their dwellings clean and well ventilated from top to bottom.

THE BOSTON Pilot has given its opinion of the proposed convention of Irishmen to meet in Cleveland next month for the purpose of forming an "Irish Union," in terms that cannot be misunderstood.

THE PORTLAND (Maine) Argus, discussing the farmers' organization, says: "The movement which is sweeping through the Western States as never a movement did before, will ere long reach New England and Maine."

WESTERN EXCHANGES continue to report the doings of the patrons of husbandry or farmers' granges in their several localities. The Indianapolis Journal (republican) complains that the granges now organizing in Indiana—and there are a good many of them—are invariably headed by democrats.

CONSULTATION REVISION. PHILADELPHIA, June 18.—Wishing to obtain the views of ex-Governor Andrew G. Curtin relative to the provisions of the new constitution, now being considered by the convention in session here, and his opinion as to the efficiency of the remedies it provides for the monstrous evils that have marked the elections for several years past, I called on the ex-governor and held a prolonged conversation with him.

OUR READERS have probably often wondered in what strange way the Modocs came by their queer names. Hooker Jim Sheeknasty Frank, Bogus Charley, Captain Jack, have anything but an Indian sound. An article by a writer in the Savannah News gives the explanation.

When James Buchanan was President of the United States he occasionally, but not very often—for he had old-fashioned ideas of duty—paid a visit to his modest home at Wheatland, and who will forget it that he has ever enjoyed his genial hospitality? It was the abode of intelligence, moderation, and kindness not only to the parlor visitor, but (what was very impressive) to the poor turnpike wayfarer, who knew when their benefactor was at home, and were sure of his charity.

REFORMS IN THE LEGISLATIVE AND EXECUTIVE DEPARTMENTS. The number of members in both houses of the legislature will be considerably enlarged. The senate will consist of fifty members and the house of one hundred and fifty-two, on the basis of population.

ABOUT PATENTS. The patent law of 1870 authorizes an inventor to file in the secret archives of the patent office a caveat on the payment of a fee of ten dollars, and this entitles the inventor to notice of any competing applicant, which may be filed within one year.

MAJOR EVANCOUR DENOUNCED. NEW YORK, June 14.—The Apollo Hall General Committee made a report to Mayor Hylan, on the 14th inst., in relation to the alleged election of Mayor Evanscour, under a spurious cry of reform, which was held on the 10th inst.
