Visiting Railroad Depots.

In Middletown it is very costomary for the girls and boys to congregate at the depot in the evening on the arrival of railroad trains. This habit has offended one of the preachers of that. borough so much that he delivered a sermon on Sunday inveighing against it: He looked upon it as a practice well calculated to ruin their morals. There vulgar and obscene language is used, and characters whose very touch is polluting mingle and intermingle with the crowd. In passing and repassing along the streets leading to the depot droves of young persons from ter to sixteen years may be seen wending their way toward the railroad in the evening, especially on Saturday evening. Parents should keep an is not much to admire in the matter of taste on eye on this practice it they want to save their sons and daughters from destruction. Association has a moulding influence upon character face of the coin. The eagle side is much better | especially upon character that is in process of formation.

Susquehanna Scenery.

The grandeur of the scenery which is to be witnessed along the Susquehanna did not escape the observation of "Grace Greenwood," who re cently took a trip from Washington to Elmira she says: "I know of few pleasanter routes of neyed from Washington to Elmira, by the Balroads. So much of it passes along the green and beautiful banks of the Susonehanna, and the eye is charmed and fatigued beguiled by the most lovely and restful pictures of mountain and river and mendow and wood. Perhaps a short rehearsal of the enterprise, not having used tobacco in any shape; 35 were may best show whether any blame attaches to any party or otherwise. During the Session of the Pennsylvania Legislature of 1868-9, An act was passed authorizing the organization of the Montrose Railway Company, and naming a board of Commissioners to open books for the Subscription to the capital stock, etc.

Late in the summer of 1869, the Commission ers named in the act, or a quorum of them, met in the borough of Montrose, and opened books for the subscription to the capital stock, after receiving some subscriptions they adjourned from time to time, until stock was subscribed to an amount of about \$100,000. During the in terrening time, the commissioners had cursory examination or surveys made, of these routes from Montrose to the Lehigh Valley Road, and they also employed two gentlemen to go over routes, and obtain the several for the right of way, for constructing the said

. The act of Assembly above referred to, limited the capital stock of the Company to the sum a reduction of the stock to the sum of five the hundred thousand dollars, and the time for constructing the road to be extended to five years thereafter, which being granted, the board of commissioners called a general meeting of the stock subscribers, to be held at Springville, in April, 1871, for the purpose of electing a Presi dent and Board of Directors, and thus organiz

subscribers, with great unanimity, elected a Clifford—Goo. Hull.

President and Board of Directors, and commit The Middletown Mercury says: On Thursday | ted the enterprise into their hands.

of last week near Harvey Roe's saw mill, a The commissioners then passed over to the board of Directors, the subscription books, and

The board of Directors, when organized, at the expression) is a formation of about the size port. It was then found, the line which must of the crown of a fashionable straw hat, and of be adopted, would cross many properties, the the shape of an old-fashioned waterfall. This owners of which had declined to release, and a ligament, very short and two or three inches ditions made, that the company would not with in diameter. The upper part of the deformity due regard to economy accept, hence the disaps covered with hair of considerable length, the pointment in the cost of the right of way. The board of directors at their first meeting, apcolor. The child has no forehead whatever, its pointed committees, to adjust their claims to head sloping directly back from the eyes. Those right of way, and the subject has been indefat who have seen it say that the sight is repulsive ligably pressed by them, during the whol time since. The views of property owners ey, the physician in attendance, to attempt the along the entire line, have been in the main ex orbitant and exacting, and such as the board could not justly entertain, though there have been some very liberal settlements made volun tarily by land owners along the line.

The proposition made by the Lchigh Valley first child, and for the sake of humanity we Railroad Company, to this Company, was this That if this company would procure the right of way, and grade a line of road bed, bridges, and culverts, and pay for the same, they (the Lehigh Valley R. R. Co.,) would lay therson the ties and proper superstructure, and receive in pay therefor the common stock of the company.

The position of the Lehigh Valley Company as expressed, through Judge Packer, is just this That the Lebigh Valley Company, will not consent to have a debt remaining on the road for its construction upon which it may be possi ble their stock shall be endangered, or they b placed in a position, whereby it would become necessary to purchase the road at a public sale, to save their own stock, and thereby take from the smaller stock-holders their ownership in the road, which is surely very commendable on his part to protect the small stock-holders. Now in all this matter. I am unable to see wherei or assist therein, or who shall permit or suffer the board of directors have made mistakes, or wherein the L. V. R. R. Co, have exhibited an particular degree of sharpness or unfairness. letting the contract for construction, that add for the first offence in a sum not less than ten dollars, nor more than twenty dollars, and for the second and every subsequent offence, in a sum not less than twenty nor exceeding fifty dollars." And again: "Any policeman or conductors in their deliberations, and no secret method of the board, this subject has been a prominent one in their deliberations, and no secret This narrow gage enterprise, has been, so t

speak, a pioneer, and has been watched by er any such misdemeanor, or upon the complaint gineers, and railroad men, all over the State and were I to tell you the number of inquirie name and abode to such policeman, constable or I have received, as Secretary of this Company, and answers I have written to them, you would say I was yarning, and when I have told them the cost of grading, etc., I have scarcely been believed by any, and the unanimous judgment of all such men has been, that very great economy has been observed by the directors, in the whole of this enterprise. Now that it is known, that success is sure

and early attainable, I think it unfair that any censure should be east upon men, who have for Saratoga, where every human ill, except chronic kext of Susquehanna county, Pa., and took for a great length of time, devoted their labors for the first part of my journey a small branch of the public good, without one cent of remunera-the Lehigh Valley road, called the Montrose tion for their time or expenses, other than that of the general good, attainable by all alike

Respectfully Yours, Charles L. Brown Montrose, July 28th, 1873.

The Markets.

Financial.

NEW YORK, Saturday, July 26. The Money market prosented no new feature. There was a surplus of money seeking investment. The rate for call loans was 5@6 per cent, the higher rates being asked and obtained without difficulty on miscellaneous stocks. Time loans on short dates, 30 or 90 days, were placed at 7@8 per cent., according to the credit of bor-rowers and the collaterals offered. The banks rowers and the collaterals offered. The banks are discounting nearly all of the commercial paper made, and very little comes upon the market. For this the nominal rates on the street are 6@7 per cent., but that classed as good ranges between 8 and 10 per cent., according to gredit. Gold was unsetted, but closed without change. It opeded at 115%, the maximum rate for the day, but fell to 115%, the minimum, and closed finally without change, at 115%. Sterling exchange, 126 3-8@127%.

JOHN GAVITT. The Paint-Killiam manufactured by Perri Davis & Son has won for liself a reputation unsurpassed in medical preparations. The uncertainty of the demand for the Paint-Killer is a novel, interesting, and surprising-feature in the history of this medicine. The Paint-Killer is novel, interesting, and surprising-feature in the history of this medicine. The Paint-Killer is novel, and the paint of the union, and every quantities, not only to general agents in every State and Territory of the Union, and every Province in British America, but to Buense Ayres, Brazil, Uraguay, Peru, Chill, and other South American States, to the Sandwich Islands; to Cuba and other West India Islands; to England and Continential Europe; to Mozani-TO THE PUBLIC.

South American States, to the Sandwich Islico Cuba and other West India Islands; to England and Continential Europe; to Mozanibique, Madagascar, Zanzibar, and, other Airnean lands; to Australia, and Calcutta, Rangoou and other places in India. It has also been sent to China, and we doubt if there is any foreign port or any inland city in Africa or Asla, which is frequented by American and European missionaries, travelers or traders, into which the Pain-Killer has not been introduced.

The extent of its unefulness is another great feature of this remarkable medicine. It is not only the best thing ever known, as everybody will confess, for bruises, cuts, burns, &c., but for dysentary or cholera, or any sort of bown to complaint, it a remedy unsurpassed for efficency and rapidity of action. In the great cities of British India and the West India Islands and other hot climates, it has become the standard Medicine for all such complaints, awell as dyspepsia, liver complaint, and other kindred disorders. For coughs and colds, canker, asthma and rheumatic difficulties, it has been reved by the most abundant and convincion
