

E. B. HAWLEY & CO., Editors.

Wednesday, Oct. 15th, 1873.

County.

The returns come in from the County very slowly. The vote is very tight; Montrose on State ticket 129. Majority for Jones 80. Last year Jones' majority was 169. In Bridgewater, majority for Hawley is 65. Last year it was 45. Auburn, majority for Jones 20. Last year it was 103. Dimock gave Hawley 23 majority. It was a tie last year. Springville gave Jones 52 majority. Last year he received 108. Clifford gave Jones 80 majority. It was 88 last year. Silver Lake gave Hawley 30 majority, a loss for Hawley of 29 over last year. Liberty gave Hawley 5 majority, the same as last year. New Milford Township gave Jones 8 majority. He had 31 last year. Great Bend township gave Jones 54 majority. He had 69 last year. Harford, Jones' residence, is reported to have given him 61 majority. It gave him 35 majority last year. Brookline gave Jones 41 majority. Last year it gave him 65. From present appearances Jones' majority in the county will fall below 400. The State ticket is Republican by some 700 majority. There are reports which are credited here that Wyoming has given 700 or 800 Democratic majority on Representatives. If Wyoming gives a majority of 500 against Jones it is now conceded that he is defeated. We have held our paper open one day to get the full returns, but they come in so slow we have concluded to go to press. We are satisfied with what we know of the result.

The State.

A few words will suffice to tell the tale so far as the State is concerned. R. W. Mackey is elected State Treasurer, and the people's money will remain in the same uncertain hands that clutch it at present. For Judge of the Supreme Court, Isaac G. Gordon, the Republican candidate, is chosen by a large majority. This closes the State book for the present.

Question 1st.

Mr. Editor:—I noticed in the last Republican following prophecy: A sufficient refutation of the Democrat's editor's seventh-hour stunner against his rival candidate for the Legislature is the fact that where Mr. Jones is best known there he is best liked, and we have yet to see the first Harford Republican who is not enthusiastic in his support. On the other hand, Hawley is much disliked, even by his own party, in Montrose, and we understand that quite a number of Democrats here will not vote for him.

Question 2d.

Last fall Montrose gave H. M. Jones a majority of 159, on Tuesday last he received a majority of 30, leaving an unpopular balance in favor of Hawley of 129. Bridgewater gave a majority of 45 against Jones last year. Tuesday it gave a majority of 65, against him leaving an unpopular gain for Hawley there of 20. Hawley seems to go out of Montrose and Bridgewater with an unpopular majority in his favor of 35, making a popular majority against Jones of 164. I think Homer as a prophet in his own town is a failure.

Question 3d.

The Nathan Murder. New York, October 9.—A telegram from Birmingham to the Times states that Captain Irving and Mr. Densbury of the New York detective police, passed through that place last night at ten o'clock, having in custody John T. Irving, the man who pretends to know all about the Nathan murder. They will arrive in New York about eight o'clock this morning, and the prisoner will be taken just once to police headquarters, where he will be locked up to await the action of the authorities, and meantime no communication with him will be allowed. When Captain Irving left New York to go for the prisoner he scouted the story told by him, as published, as utterly false and ridiculous. He now says the prisoner has made statements to him which have caused him to change his opinion relative to the importance of Irving's relations. Portions of his statements are still considered unmitigated falsehoods, but others are plausible, and some are of the highest importance. Whatever may be the result of the return of Irving, it is certain that his arraignment in New York will cause a decided sensation.

Question 4th.

One of the detectives who brought Irving from San Francisco says that the story told in the papers is entirely different from what he has published, and he (the detective) is of the opinion that

THE AMERICAN SUBMERGED PUMP.

A Robber Shot.

The farm below Wilkes Barre, known as the Lazarus farm, had been plundered recently of vegetables to a large extent, and last night a son of Thomas Lazarus, Frank Espy and a hired man, concluded to watch the crops. About 10 o'clock they discovered a man in the cabbage lot, and one of them had a bag filled with heads of cabbage, carrying them off. Espy called to him to stop, and the thief replied that he would shoot him if he followed him.

It appears that Espy's party had a shot gun and pistol, and the thief had also a shot gun. Before Espy got within reach of the thief, he was fired at, but the shot missed and they fled. The thief in some way got hold of Espy's pistol and fired one shot at him without effect. Then he struck Espy over the shoulder with a brick, and broke the stock. He then was in the act of striking Espy with the gun barrel, when Espy fired at him with his gun and killed him instantly, the whole charge of shot striking him in one eye tearing his head terribly.

Espy surrendered himself, up to the authorities, and was sent to jail. This morning an inquest was held and the killing adjudged to be self defence. Mr. Espy was then discharged. The public fully justified the finding of the Jury.

The name of the killed was Alexander Law and resided in Plymouth. He leaves four orphan children. The man with Law gave his name as James Small, and claims to be a stranger—was invited to take a boat ride with Law, and the result is known.—Lucerne Union.

NATURAL DECA—PROTECT THE SYSTEM.

The human body is a machine, and therefore cannot endure forever; but like a watch or a steam engine, it may be kept in order, and its parts may be properly regulated and kept in order. If no pains are taken to keep it in order, the great object of every human being, to live long and enjoy life, will be frustrated. It is the duty of every man to protect his system, and to keep it in order. This can be done by following the principles of natural decay, and by avoiding all the causes of disease.

Dr. J. C. Ayer's Sarsaparilla is a powerful medicine, and is the best for all the diseases of the system. It is sold by all the leading druggists.
