It is proposed by the Vestry to provide for the support of the rectorship of St. Paul's (Episcopal) Church upon the subscription plan, instead of exclusive pew rent as heretofore. The new rector gives us a very favorable experience of this plan in his late parish at Columbia. The Vestry desire an expression of the congregation upon this matter, before taking action upon it, and that each should be prepared to give his decision on Sunday evening next, at which time the rector will give an opportunity. For ourselves we now are and have always been in favor of this plan. We certainly believe that every one interested in the prosperity of the Church, should be cosmopolitan enough to subscribe the same amount for its support upon this i.lan, that he or she would for a fixed and exclusive scat. This would place the Vesury upon as safe a, basis as heretofore, and we be

DUBING the epidemic of intermittents in the West this season, the whole immense stock of Ayer's Ague Care became exhausted, and the producing powers of his Laboratory was found inadequate to meet the demand. Many who knew its extraordinary virtues for the cure of CHILLS AND FEVER, paid exorbitant prices for it to those who were fortunate enough to have a supply on hand. Some of our neighbors paid ten dollars for a bottle, while the regular price is but one and assure us it was on the whole the cheapest remedy they could buy, even at that figure. They praise it for two qualities; first, that it cures, and last that it leaves the health unimpaired.—*Lova Skandard.* w1 rell.
