THE DEMOCRAT.

E. B. HAWLEY & CO., Editors.

_____ Wednesday, March 25, 1874.

Gold closed in New York, on Saturday night last, at \$1.112.

The most destructive fi e that ever occurred in the city of Indianapolis, broke out on Sunday evening last, sweeping off large blocks of new and old buildings for some distance around. The loss was estimated at \$300,000 or \$400,000.

the horses in New York. It is entirely different from the epizooty. First the eyes begin to swell and then close, discharging a watery substance. Then swellings and abscesses form on the body, on the hirs and shoulders. The horse refuses food and pines away. By some the malady is pronounced a cold. It is "catching."

THE official returns from New Hampshire show a vote aggregately increased by 4.021 : a Democrat increase of 3.557, a

censuring the mis-representative of the Democracy of this county and says we have done it "without cause or reason." Isn't this "whitewash" a little too thin for neighbor Day to use with success? In view of the platform of principles put forth in their convention, upon which R. R. Little plauted himself when he demanded the candidacy as their representative, was it our duty to endorse, by silence or otherwise, the grossest violation of their most vital trust?

Was it "without cause or reason" that we were instrumental, as one of the committee on Resolutions, at our late State convention, held at Wilkes Barre, in mprinciples of Democracy, in our Demo cratic mis-representatives in Congress who allowed their garments to be tarred with the ignominious radical "Salary Steal ?" Would it have been right for the members of that convention to have allowed them to have wiped off the cor-

time to come upon us. Therefore, it is import-ant that remedial agents should be at hand to be used on emergency, when we are made to feel the exeruciating agony of pain, or the depressing influences of disease. Such a remedial exists in Perry/Davis' 'Pain-Killer,' the fame of which has extended over all the carth. Amid the ex-ternal ices of the Polar regions, or beneath the intolerable and burning suns of the tropics, its virtue are known and appreciated. And by re-soffering humanity has found relief from many of its ills. The effect of the Pain Killer upon the patient, when taken internally in cases of Cough, Cold, Bowel Complaint, Cholera, Dys-entery, and other altections of the system, has been truly wonderful, and has won for it a name among medical preparations that can never be forgotten. Its success in removing put, as an external remedy, in cases of Burns, Brulses, Sores and Sprains, Cuts, Stings of Ia-sects, etc. and other rauses of suffering has se-carced torit the most proninent position among the michtens of the day.
