Notes About Town.

This is the last week of court. It has been dull session.

Remember the Tremaine Brother's concert at the Court House this evening. Bishop Howe of this diocesce will visit St.

It would be well for some of our people remember never to kick a man when he is

down unless you are sure he can't get up. A certain man in our borough says he has watch which has gained enough to pay for itself in six months. That is only about the common curb-stone broker's percentage.

Rev. W. J. Judd, late paster of the M. E. Church, was in town last week packing his goods to remove to Norwich, N. Y., where he has been located by the Conference.

We nope the boys and girls will not forget the birds these snowy times. Throw them crombs and seeds and how thankfally they will repay you in sougs. Farmers also are interestri for the destruction of birds will overrun them with vermin and insects.

Is particularly charges that the jury were 'clay in the hands of the pol ter" so tar as their werdict of Imposing one half of the costs upon the proscentor was concerned as there "was no evidence" to warrant that. The Court must be considered a basswood conso grassly mislead the jury and not set them of that dreary country. The sea along this a him compliment to the most be considered as of counsellor Little, who, like the Serpent in the Garden, "beguited them" or else it assumes either a dishonest, perjured court and jury or putty one. Where is the Other. We learn that Daniel Adams, a resident of Liberty township, in this county, is eighty-three years of age and also was born in the county and in the township, of which the one he now resides in, formed a part. How many similar cases of this kind can we boast of in the coun-
