Notes About Town.

Harvey Tyler got pretty high one day last week. He sided up the bell to the Academy.
Montrose now boasts of a first-class artist, in the person of Mr. G. W. Doolittle, photograph-er.

Medical Matters.

The Agency of Billings Street was interested in the Sisquahanna Depot Five to the amount of \$20,000, but the loss is divided among sixteen companies.

Never Burn Kindly written letters.

Never burn kindly written letters the more utterance of those afar, yet dear, whose faces you may never look upon again. Remember how many a little notion in heaven they will procure.

By reference to our advertising columns.

By reference to our advertising columns it will be seen that excursion tickets on the D. & W. R. R. to Saratoga, Putnam, and Wilkes bar are for sale at the Express office. Also reduced rates for shipping butter.

By reference to our advertising columns.

By reference to our advertising columns it will be seen that James E. Carmalt Esq. was about to remove to "Lake Side Farm," in Cochemont township, but would "sleep in Montrose." To explain we would add that he is occupying rooms in his office building for his accommodation during court weeks where he intends to be found a week previous to each term. By this we conclude he does not intend to resign his law practice.

We understand the Council have resolved.

We understand the Council have resolved to plant twelve lamp posts in the borough. This is all good, but we are not so much interested in this as we are in having a cistern at some point near the M. E. Church, because we keep a good lantern for the purpose of lighting our way. The fire department is no protection to property on Depot street as there are no reservoirs. Proper measures should be taken for this protection.

Messrs. Jell and Melhus are meeting.

Messrs. Jell and Melhus are meeting with the greatest success in the sale of the "Princo" organ. We have long been acquainted with that instrument and compared it with all others and our preference is greatly in its favor. Its advantages are its durability, sweetness of tone and last but not least, in these hard times, it is very low in price.

The third regular meeting of the Union Temperance Association.

The third regular meeting of the Union Temperance Association will be held in the Methodist Episcopal Church, on Sabbath evening, June 14, 1874. R. B. Little, esq., will preside; speakers, Rev. J. E. Chesbira, L. F. Pitt, esq., Rev. J. G. Miller and W. L. Thompson. The chairs of the different churches will unite in the singing. Divine services to commence at 10 minutes to 8 o'clock.

We have not "danned" our subscribers.

We have not "danned" our subscribers on any who are indebted to us for a long time because we were willing to ease—along in these hard times so long as we could keep the wheels moving. We have just ordered a new cylinder press, for our office, and we must ask you to come to our assistance in paying for it. We hope every one who is in arrears for subscription, job work or advertising will hasten to respond to this request and that too, at once. We intend to give you a larger paper if you will encourage us by your prompt action and support.

It is generally claimed that this month.

It is generally claimed that this month, took its name from June, or the spouse of Jove. It was the fourth month of the Roman calendar; and by some the name is said to be derived from Juno, that is, from the lesser branch of the Roman legislature, as May was named from Jupiter, or the higher branch of the same. Romulus gave liberty days, June is ever the time of sweetest summer splendor—when the trees are the freshest—the foliage the lushest. With its close verdure begins to fade and never after during the season is so beautiful and bright. It is a month which has its year can specially boast of several good things, among which are that she gives more hope to the farmers and stockmen, better health to young and old, and presents nature in a more attractive garb than any of her rival sister months.

Forgeries by a Farmer.

A United States government service detective arrived here last week with a warrant from Governor Hartranft of Pennsylvania, for Levi Saunders, a wealthy farmer and cattle dealer at Waynesboro, Franklin County Pa., charged with extensive forgeries on the Franklin county bank at Chambersburg. The officer traced him from this city to his home at Chambersburg, and found him boarding on the Canada side, under the name of Jarvis Stevens. The postmaster on the American side arrested him across to get a letter, and he was arrested as he was stepping off the Grand Trunk cars. He was taken to Pennsylvania under the requisite papers taken in the "Reading Room," "Public Library," and "Monument" enterprises, it was to be told from year to year, that the amount raised is "an interest" and with the prospect of being so eternally without even making the rate per cent. We desire to see our project faithfully carried out where we lend our services to any way. We have to acknowledge that we have done our full share in projecting these enterprises, both in subscription and through the columns of the Democrat, and we claim the right to criticize. We now propose to turn our muzzles the other way and keep up a fire of "paper wars" and either take the life entirely out of the Soldier's Monument Association or blow some into it.

Sound Judgment.

Henry Ward Beecher, in speaking of the wild and logical oblogues of some of the noisier temperance preachers, says: "I am in favor of all measures for the prevention or suppression of traffic in alcoholic drinks, which experience has shown to be feasible; but, on the other hand, I am utterly opposed to bigotry or violence, or partisan feeling in behalf of temperance, as I am to the same qualities in religion, in politics, and in all other causes."

Intendant Vanders.

The Montrose American treating the question of itinerant vendors, or robbers, urges the necessity of the Council imposing heavy prohibitory license upon these fellows. It says: "Our merchants are under the necessity of keeping up signs and notices, establishing employes, clerks and own real estate, and pay a heavy tax to help keep the borough, expenses, as well as for the privilege of carrying on their business and yet our Council affords them no protection against a class of intruders who rob them of their own business. Justice to this class demands that transient dealers should be taxed so high that few if any of them, would care about unprophetic laws."

The Great Potato Enemy.

This is the year when, according to prediction, the Colorado potato bug is to do its deadly work among the potato vines of our farms. It may be well for us to consider our leading insect in order that those who may chance to meet it may tramp it do destruction. The mature insect is nearly half an inch long and a quarter of an inch wide. Its shape is oval very convex above and flat beneath of a hard crustaceous green, smooth, shining, and of a bright straw color. The head and thorax being sometimes tawny yellow; head and thorax marked with black spots; the wing cases with black stripes arranged longitudinally, five on each case. The antennae are 12 jointed: the first five joints are pale or tawny yellow, the remainder black, the last being small and sunk into the penultimate one. Legs tawny and yellow; legs, knees and feet black.

Great Fire in Susquehanna.

At about a quarter past 1 o'clock on Thursday morning, fire was seen proceed from or near the "Union Street" Main St. It has been traced to the steam which issued from after the alarm collecting a crowd in a few minutes. The hose from the Erie shops were brought out, and several streams were soon falling upon the burning building. So great was the headway made by the flames that it was found impossible to save either this or the Kirby building adjoining. The fire spread on ward, enveloping the Taylor building. Here commenced the real fight of the flames. The men fought bravely, but the hose being insufficient to withstand the monster engine's heavy pressure, partially failed, and the element dashed onward, in a terrific licking up the McDonald, Crandall and Falkenberg buildings, and, among last Drinker street caught and soon burned. Allen building. From thence, it proceeded up the creek, taking in its course Mrs. Maloney's building. Verizing, John Lamm's dwelling house soon disappeared. Crossing the road, the tenement house of Dr. E. N. Smith and the residence of John Kane were filled by the flames. In a half hour more the residence of Michael Hogan, the barn of T. E. Roman, and the residence of Mrs. Russell on Willow st., were burned. Next to Kane, the combined dwelling and store of T. Fern, and an unfinished building belonging to him, were caught up and consumed. Next in order was Van Warner's building, occupied by W. C. Brown, as an ice cream, fat, and grocery establishment. This is consumed, and rushed on with fast speed to the Post-office. By dint of hard labor and the use of the "No. 1" hose, and the greatest fire ever known in Susquehanna was at an end.

Special Cases.

Judge Street held an Argument Court on Monday last. We noticed several cases where writs are "rejoined" and "Judgments opened." As some of our readers who are not attorneys may not understand what that means we will inform them that it simply means that the defendants do not intend to pay the Shylocks "bonns" or "bloss-money" but to avail themselves of what little law there is, by asserting their rights under it. They are taking the counsel of the Democrat which has given them without fear. These Usury Highwaysmen who have used the prothonotary's office and the courts, for a weapon to make the tollmosses of this county. "Stand and deliver" deserve a brand's punishment, but only a restitution of the extorted amount can be demanded here, and under existing laws, but as far as they can be brought to justice there should be no "sacredness of contract" allowed to intervene. We say every man who takes over six per cent interest in the State of Pennsylvania is a law breaker, and each citizen of the commonwealth is interested in bringing him to justice. It is an honorable transaction. We have just been informed of a case in Luzerne county where the National Bank has been sued for "bouns" to the amount of \$40,000, paid by one firm, and the prospects are that it will be obliged to "come down." That is right, for banks who do this business violate United States law as well as that of the state. Let us use present law as far as it will go to a better one can be enacted.

A Sanitation at Glen Mar.
Last Saturday evening, between the hours of six and seven, an infant, with a small hunch lying near by, was found by the side of the road in the Glen Mar about four rods from the Glen Mar farm house where the post, N. P. White, resided, a mile west of this village. While Mr. Geo. W. Tibury, the occupant of the house was making cows, some one passing by heard the cry of the infant and notified him. The news of the discovery of the little waif spread fast and quite a number of people were soon gathered at the spot where the babe was found.

From Lenox.

The building in which the Independent Progressive Society held their meetings, was burned to the ground, on Saturday night, May 30th, 1874, which is supposed to have been the work of an incendiary. This building, although formerly a school house and reared some forty years ago, (being at the time it was burned down rather a dilapidated condition), yet, said building might have been remodelled over and made into quite a nice building. For twenty-one years our society has held there. It commenced on a small scale, and gradually it progressed along accumulating means where it is now numbered some 400 or 500 members, and supporting a Library. The old and the young together throw in their mites, and together they worked and made it what it was. While other societies came into existence and tumbled down, our society went marching on. Members joined from other townships. And although it had its ups and downs, yet our name is the most to be dropped from the roll. Is it mine? Is it yours? May we be also ready for life, its cares and its duties, or ready for death, come where or when it may.

The Markets.

There is nothing in the monetary situation that calls for special comment. Trade languishes, and the supply of loanable funds is largely in excess of the demand. Lenders are cautious, however, and second-rate paper is of uncertain value. Little first-class is made, and for all that is offered the rates are unchanged. We quote call loans at 6 1/2 per cent. Strictly first-class, two named paper was negotiated at 6 per cent, and single name paper of the same grade at 7 per cent; loans on government collateral, rate at 5 1/2 per cent, on other first-class bonds and stocks at 6 per cent, and on more inferior collateral at 7 1/2 per cent.

Centaur Liniment.

There is no pain which the Centaur Liniment will not relieve, no swelling which it will not subside, and no lameness which it will not cure. This liniment is made from the best of the Centaur's strength, but it is true, they have produced more cases of rheumatism, neuralgia, lock jaw, palsy, sprains, swellings, called heaves, sciatica, berms, salt rheum, earache, &c., upon the human frame, and of strains, sprains, galls, &c., upon animals in one year than all other pretended remedies since the world began. They are counterfeited by all leading druggists. Copies throw away their crutches, the lame walk, polio, berms are rendered harmless, and the wounded are healed without a scar.
