

# THE DEMOCRAT.

E. R. HAWLEY & CO., Editors.

Wednesday, August 5, 1874

Gold closed in New York, on Saturday night last, at 110.

The Republican State Convention will be held at Harrisburg, on Wednesday August 19th.

The Democratic State Convention will be held at Pittsburgh, on Wednesday, the 26th day of August.

Official returns from all the counties in Arkansas show a majority of 71,500 in favor of Constitutional Convention, and Democratic members were elected in all but two of three counties in the State.

It is supposed the Hon. William Gaston will be nominated for Governor of Massachusetts by the Democrats of that State, and General Butler says the Democratic candidate will be elected. Has the mouth of prophecy filled up the gamecock of Essex?

The San Francisco Bulletin says that while two years ago there were nearly two thousand house to rent in that city, there is now a demand greater than the supply. San Francisco never had any but a specie currency, never demanded inflation, and is steadily prosperous.

Dr. John H. B. McClellan, of Philadelphia an eminent physician and popular citizen, died recently at Edinburg, Scotland. He was the son of George McClellan, M. D., one of the founders of the Jefferson Medical College of that city and the brother of General McClellan.

Two million acres of corn have been planted this year in excess of last year's acreage. The increase is 6 per cent of the whole crop. It is largest in the South in percentage, and in the West in acreage. The condition of the crop is good in the West and elsewhere variable. These facts are furnished by the Department of Agriculture at Washington.

The Utica (N. Y.) Observer quotes from the United States statutes the provision which forbids Congressmen from acting in any case in which the United States is a party, and says that Senator Conkling violated this law when he appeared as attorney of the New York Central Railroad in a suit in which the United States was a party. The penalty prescribed by the law is fine and two years imprisonment, and the Observer suggests that Conkling is amenable to imprisonment.

Gen. Butler says that he never cheated the colored troops in the Army of the James, as charged by Gen. Hooker. It is a small matter whether the public believes Gen. Butler or Gen. Hooker. There were worse acts than cheating done negro soldiers; but Butler knows what they are. To debase the mind of a nation, to corrupt the administration of public affairs, and to make political odious to honest men, are offenses in comparison with which mere pecuniary fraud are insignificant. —Chicago Tribune.

Eastward from Minnesota the grasshoppers have taken their flight. They will doubtless reach Wisconsin this season and perhaps Illinois. A few have put in their appearance at St. Paul. It is too late in the year for them to do much damage in the new scenes of their labors, but they can deposit their eggs, which will hatch out millions of the pests next year. The dwellers in the States just invaded by the advance corps of the devastating army of grasshoppers should kill as many of them as possible. That is the only way to protect themselves from the grasshopper curse in 1875.

It will never do to be out of the fashion. Plymouth Church has its scandal, and so has the Beran Baptist church of Brooklyn, with a colored congregation and a colored pastor, whose name is Simon Bundick. The Rev. Simon took charge of the Church some twenty years ago. He is now accused by certain malcontents with selling the church property and converting it to his own use, and inproper intimacy with the wife of Spencer Moore, one of the members of his congregation. Brother Bundick denies the allegation and dismisses the alligator.

The twenty-first annual meeting of the Pennsylvania State Teachers' Association will be held in the Cumberland Valley State Normal School Building, Shippensburg, on the 11th and 12th days of August, 1874. As the meeting will be held near the center of the State, it is confidently anticipated that a large number of teachers, and others interested in the good work, will be in attendance. The duty of preparing business for the meeting was entrusted to an energetic committee, who have prepared a very interesting programme for the occasion.

The Democratic State Central Committee of Illinois has called a State Convention to meet on the 26th of August. In addition to the signatures of the committee, the call bears the names of several gentlemen who have until recently acted with the Republican party. It invites all voters, without regard to party affiliation, to send delegates to the convention upon the following platform: Speedy redemption of specie payments and redemption of the national debt in coin; free commerce; opposition to land grants restriction of the State and National Governments within their legitimate

limits, and the protection of citizens by the State against extortion and oppression by chartered monopolies.

A dangerous counterfeit having appeared in five dollar notes of the Treasury National Bank of Chicago, the Treasury Department offers one-half per cent, premium for the return of the genuine five dollar notes of this bank should hereafter be refused, and the notes of the denomination thus driven out of circulation. No more of these notes will be issued hereafter by the Comptroller of the Currency to the bank.

Our worthy President, whose admirers call him the "Second Washington," is invaluable to the watering place tavern-keepers as a drawing card. At Long Branch the hotel men have pocketed thousands in consequence of the 2d W.'s presence every summer in that place. But he does not confine his winning influence to the Branch alone. He went to Atlantic City, a few days ago, where he was formally received in a speech by a Philadelphia clergyman of Jewish birth, and where he proved an excellent card for the taverns; and, not long since, he went to Cape May, taking with him a portion of his Cabinet and official household, to participate in the formal opening or christening of a hotel—actually went all the way from the National Capital for this benevolent and worthy purpose. Think of this ye readers, and weep! Think, dear reader, of the first Washington, lending his personal presence, and the prestige of his great office to the dedication of a tavern!

We wish to impress upon the minds of the Democrats of this country, the importance of VIGILANCE on the part of every individual member of the organization. We hope the incidence of last fall which caused deep regret in the hearts of many of the masses in both parties will act as a talisman in eradicating the lethargy in every section of the country and inspire the disposition in every member of the party to do AND FIGHT FOR THE RIGHT.

Right though he be the last man in its defense. He, who will only labor for the ascendency of his principles under circumstances of certain success, will not see them triumph, neither does he merit success, for he only proves to the world that he does not serve the God of truth and pure principles, but only the Mammon of power and pelf. The pure principles of Jeffersonian Democracy, founded this nation under the light of Republican institutions, preserved its integrity and prosperity, while the people adhered to those principles and "By the Eternal," through an immediate return to those inevitable tests of "honesty" first, accomplished with due capability, it must and shall be reinstated in primal purity of government and "preserved" for and handed down to future generations. What other incentives need an honest laborer for his country's good, have, than the conviction of battling for the right as he understands it, with this beacon for a guide, that Truth and Justice are mighty and shall ultimately prevail. The day for pure Democracy is now auspicious. The honest masses in the ranks of our opponents are aware of the dangerous shoals now menacing the grand old ship of State, which has become so unwieldy from the load of corruption, and bold dishonesty of its officers and crew, and so threaten its distraction, and are already casting about for a way of escape and are looking anxiously to the Grand old party of the Revolution for relief in the premises. Under these circumstances we say, the time is auspicious, if we but rightly value the responsibilities resting upon us. In view of these facts, encouraging alike to the success of our principles and a return to the primitive honesty of the earlier history of our youthful nation, as well as inspiring to a belief in the perpetuity of a republican form of government among the nations of the world, it behooves the Democracy of to-day to be vigilant in duty, brave in the defense of the right, and above all, just and true to their time honored principles, by preferring men for official servants in whom there is no room for doubt as to their honesty and fitness, regardless of localities or personalities with but the one object in view, and that to secure, through them, equal rights to every American citizen, equal and exact justice to all mankind, and thus bring about the return of a pure Republic in form of government in fact as well as in name. To this end let the Democracy of old Susquehanna labor and not falter. In this connection it may be well to inform our readers just what offices are to be filled, so that each may exercise his judgment in naming a candidate so as to have a little more deliberation in selecting at the convention to be held on Monday August 17th. It is and ever has been a firm and fixed principle with us never to recommend any candidate for nomination or to allow any one else to do so through our columns. We desire that men for public servants shall be called from their labor to lead the people instead of "setting up the job" for themselves. But it is advisable that some forethought should be taken in respect to the matter in the different localities, so that when the convention meets, we can act intelligently. The officers to be named in the county are: one person for Congress in the district composed of Bradford, Susquehanna, Wyoming and Wayne counties; one person for State Senate in the district composed of Susquehanna, and Wayne counties, two persons for Repre-

sentatives in the county of Susquehanna; one person for District Attorney; one person for County Commissioner, and one person for County Auditor. Govern yourselves accordingly.

## Rings.

The curse of a republican rule is its manifold corruptions. In every department of the government there are money making combinations organized for purposes of public plunder. Even the departments of State and Justice have not been free from compromising disclosures. In this State we have a bold and defiant organization which has fleeced the treasury for years and which up to this time has not been loosed from its hold upon the revenue of the State by an organic law framed with a special view to the protection of the people. At the November election the people will be called upon to decide by the complexity of the legislation they elect whether their constitution shall be embodied in proper laws so that the benefit of its provisions may be enjoyed. There seems to be a disposition, if we may judge by the dissatisfied commentaries of republican newspapers, on the part of the honest mass of the republicans to rid itself of the Sinbad that sits astride of its neck. It cannot be possible that such outspoken and honest comment as we submit from the Wilkesbarre Record of the Times will not bear some fruit among thinking republicans who have a desire for reputable government. It says:

"The Philadelphia ring has its own special and particular candidate for judge of the Supreme Court. Though composed of the most part of the poor stuff it is formidable in the aggregate and as prodigious as formidable. It controls all the nominations in the city, legislative, administrative and judicial. It respects neither merits nor services, except such merits as are exhibited in doing its work and such services as are rendered to itself. It has become reckless and defiant. Public opinion has no hold upon it. The most respected of the citizens would deplore if they did not fear it, and would regret if they did not fear it, if they had the means of reaching the public ear. But the press is cowed and dare not speak. The recent city convention was mainly comprised of ward politicians some of whom had their certificates of election in their pockets duly signed and delivered before the polls were closed. This ring will have its representatives in the State Convention and will exert its efforts to bring that body into subordination to its purpose. It seeks affiliation with ambitious and unscrupulous politicians throughout the State whom it can corrupt by promises or enlist in its service by expectations of profit, and it is beyond doubt that it will have a considerable body of sympathizers and supporters to the detriment of the State and to the ruin of the nation and of the nation's institutions and combinations."

The Record of the Times may take back these truthful words after the convention which the ring has packed shall register its decree, but no after stultification will break their force. The fall election demonstrates the fact of the corruption.

Special Notices.

MAST who are suffering from the effects of the warm weather and are debilitated, are advised by physicians to take moderate amounts of whisky two or three times during the day in a little while this will give you a new vigor and increase the number of "drinks" and in time become continued pleasures. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Tonic, which is composed of many valuable herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and life-sustaining properties of this tonic are such that it will give you a new vigor and increase the number of "drinks" and in time become continued pleasures. A beverage which will not create thirst for intoxicating liquors, and which is intended especially for the benefit of debilitated persons, whether at home or abroad, is Dr. Schenck's Sea Weed Tonic, which is composed of many valuable herbs, this preparation does not create an appetite for the intoxicating cup. The nourishing and life-sustaining properties of this tonic are such that it will give you a new vigor and increase the number of "drinks" and in time become continued pleasures.
