### A Inake Story.

The Lock Haven Democrat says : "One day last week the daughter of Mr Joseph W. Snook of Bugar Valley was out gathering whortleberries with a party of girls, when a black snake ran up her clothes and coiled itself twice around her lower body next to the skin. The excitement was intense among the party, but the young girl in the embrace of the snake was the coolest of them all. She commenced to tear off her clothing, and by the time they were found upon measurement to be eleven feet then in reading the story you can leave off as many feet as you please.

The Last Comet. How to Find it.-The new comet discovered a few days ago at Merseilles, France, is now in right ascension 15h, 10m., and north inclination 65 degrees 30 minutes. It can be seen by the aid of the ordinary spy glasses used by seamen by observing the following directions. Midway between the two stars called "Guardians of the Pole," and the second star in the handle of the Dipper is the star called Thuban and the (Alpha Draconis.) Midway between Thuban and the Guardians of the Pole and a little towards ze nith are two stars of the fifth magnitude, barely descernible by the naked eye. The comet at o'clock, on August 15th, was between these two stars, and seemed to be elongated slightly tow ards the north east, with a faint indication of a neucleus towards the opposite side. In the field of view and to the right is a very fine group of stars forming an isosceles triangle.

He should have been in Congress years ago, and would have been it fortune had made him a little more ambitious, We can say, with all candor, that if sent from this district, the people, without regard to party, will never regret it.

Converting Coal Dust Into Fuel. Dr. J. R. Hayes, of Chester county Pa., has constructed a machine for making coal from anthricite dust. There are perhaps 50,000,000 tons of coal dust at the different mines in Pennsylvania, and this waste accumulates yearly at the rate of fifty per cent. of all coal consumed. It is clearly seen that it this vast waste can be tilized and the piles of coal dust virtually made to be a 'mine above ground' the material wealth of Pennsylvania would increase thereby. In the process of machinery, simple and complete, as exhibited by Dr. Hayes, it is clear ly proved that this coal dust can be converted into coal equal to the best now in market mostly off, the reptile had been killed and was | This inventor certainly deserves the attention of the coal mine owners, so largely interested long." Curious Freak of Lightning. Some curious freaks of lightning were witnessed on the Hackensack branch of the Eric during the prevalence of a thunderstorm a few days since. As the mail train was passing over the meadows, and just before reaching the drawbridge over the creek, near Fairview, great quantities of electricity played around the car wheels, and made noises like the firing of artillery. On the locomotive, however, of which L. C. Mable was engineer, and George Lutts fireman, the scene is described as terrific. Every bit of brass on the engine seemed to blaze, and the snapping and cracking was frightful. Both Mr. Mable and his assistant were thoroughly charged with electricity, feeling painful tingling sensations in every part of the body So learful was he that the matter would grow worse, that he shut off the steam est he might soon be unable to touch the lever or throttle. It is estimated that this extraordinary phenomenon continued for about two minutes and both engineer and freman say that it was the most severe they have ever known. Every passenger could hear the noise without difficulty, and each was thoroughly

### Arrested for Forgery.

Last week a stranger giving his name as Mc-Kinney called on Dayid Kenner, of Cherry Ridge, and offered him about \$3,000 worth of notes of prominent residents of Canaan and and South Canaan townships at a handsome discount for cash, claiming that he had just surchased the hotel property of J. J. Langer in terling township, and had got such favorable figures for "money down" that he could well ford to sacrifice a considerable amount on the otes if he could realize on them immediately.

The notes were payable one day after date, and according to the man's story, had been given for money loaned by him to the several parties they having paid him a premium in hand in adlition. Notwithstanding the well known resconsibility of the drawers of the notes, Mr. Kenner declined to buy without further inquirs, and the man left. On Friday he appeared in Hawley, and calling upon Mr. Charles Danls succeeded in selling him a judgment note for \$590 purporting to be drawn by Jacob Mohr Paupack township, dated June 25th, 1874 .-Mr. Daniels paid \$500 for the note. The stranger having secured his money went at once up n a spree, in the course of which he let fall some expressions which elicited doubts as to the honesty of the transaction to which he had been a party. Mr. Daniels's suspicions having een aroused he consulted with some of the ousiness men of Hawley, as to the genuineress of Mr. Mohr's signature, and finally becoming onvinced that the paper was forged, he demanded the return of his money. The strang r finally handed out \$498, and on a perempt ry demand, hunted up two dollars more. Mr. Daniels then obtained a warrant, for his arrest. and he was taken before Justice Arnold, o Palmyra, who committed him to jail. He gave his name to the Justice as John R. Ruser, but since his incarceration in jail, claims that he as not divulged his real name, nor does he intend to. He states that he is married, and very

espectably connected. To Mr. Kenner he claimed to be a nephew of a prominent resi-

There is no pain which the Centaur

which they will not core. This is strong language, but it is true. They have produced more curie of rheumatism, neuralgia, lock-jaw, paisy-sprains, swellings, caked hereasts, scalde, burns, salifered, etc., upon the human frame, and of strains, spavin, galls, &c., upon animals in one year than have all other pretended remedies since the world began. They are counter-furiant, all-healing pain relievers. Crapples throw away their crutches, the lams walk, poisonous bites are rendered harmiess, and the wounded are healed without a scar. Therecipe is published around each bottle. They sell as no articles ever seld before, because they do just what they pretend to do. Those who now suffer from rheumatism, pain, or swelling deserve to suffer if they will not use Centaur Lintment, white wrapper. More than 1000 certificates of remarkable cures, including forcen limbs, chronic rheumatism, gout, running tumors, &c., have been rerheamstism, gout, running tumors, &c., have been re-ceived. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One poittle of the yellowwrapper Centaur Linkment is worth one hundred döllars for spavined or sweenied horses one hundred dollars for spanned or sweenled horses and males, or for scrow-worm in sheep. Stock-owners—those liniments are worth your attention. No family should be without them. "White wrapper family use," Yellow wrapper for animals. Bold by all Drugrists,—50 cents per bottle; large bottles, \$1.00. J. B. Rosz & Co., 53 Broadway, New York.

market it is in the direction of a diminished demand and in an increased supply. There are assuring signs of an opening of an active trade, but they are prospec-tive only, and not actually present. There are strong motives that should influence grain operators in particular to take advantage of early cales. But in the interim, rates remain without change. Most of the paper now negotiated is in anticipation of actual wants. We quote call loans at 5 per cent. Strictly first-class two-named paper was negotiated at 5@6 per cent., and single-named paper of the same grade 6@7 per cent.; loans on government collateral rule at 5 per cent.; on other first-class bonds and stocks at 6 per cent., and more inferior colinteral at 7@7½ per cent.
