The capture of Kellogg's check book showing the amount of money stolen by him from the treasury of Louisiana to bribe republican leaders at Washington to support his usurpation is the latest Southern outrage. It was an outrage to make such an exposure, and the case should figure prominently in the proceedings of the plunderors at Chattanooga on the 15th of October. Properly managed it cannot fail to exercise great influence on the public mind.

of the administration nominate Grant for a third term they will not be without precedents for inaugurating him even should he be rejected by the people. The Louisana case will be given them in abundance of encouagement. Nothing more will be necessary than to declare the Grant electors chosen in a sufficient number of states in spite of legal return and to make a judicious distribution of federal troops. It is not strange that Grant clings to Kellogg's fraudulent usurpation when it may make in the future a convenient precedent for himself.

The Patriot says that when Tweed was fairly cornered and brought to bay made a little bon-fire of damaging vouchers on file in the comptroller's office in the city of New York. This hint has not been lost upon the thieves of Louisiana. Just before the late overthrow of the Kellogg government, the papers in the attorney general's office at New Orleans were saturated with coal oil and set on fire. The wisdom of this precantion has been proven by late events .--There may be some question raised about the propriety of the publication of documents found in Gov. Kellogg's executive office; but to our mind the transaction very much resembles the search of the pockets of a thief; what he has in his private possession may be a from matters of state, and give him pause for his financial transactions with Gov. The State Democratic Convention met at Pittsburg on the 29th of August last. t nominated its candidates, and adopted the platform, and adjourned. All the proceedings were marked by a devotion to the principles of the party, as well as that harmony which ever prevails when high purposes controll individual action. The management of the State canvass was as usual entrusted to the State Central Committee, which was duly appointed. This body organized at Harrisburg on the 22d day of September, last.

Among the first duties of the Commitee was to direct its chairman to address the Democratic citizens of Pennsylvania, and, indeed, all the patriotic men of the Common wealth who are satisfied that the prosperity, integrity, and welfare of the people demand a return to the sound, tried, and established principles of government by which the great achievements n our past history were secured.

It needs neither argument or author ty to demonstrate that the Radical party. which now possesses the principal power n Pennsylvania and in the Federal Govrument, has utterly failed to give conentment, prosperity or peace to the peo-

In every county in the State the best citizen, the oldest inhabitants, and the young men are dissatisfied with the poical, industrial, financial, and governmental policy by which the Radical party afflicts the country.

Industry is not profitable; the coal and ron interests are depressed; the farmers are not receiving adequate reward for their toil, and labor is calling for employment. The Radical party is directly responsiole for all this. It has majorities in Congress and in the State Legislature, and mission, the Radical majority in which the Executives of the State and the Union were placed in those positions, by assumed majorities at the elections.

The people are poorer to-day than at any late period in our history. Factories are idle and farms are for sale, without buyers in every part of Pennsylvania. There are more merchants and laboring men out of work in Pennsylvania than ever before.

Abusing the powers obtained by frauds at elections, and force in many States, and corruption everywhere, the Radical party now attempts to degrade the white race by enacting into a law what is known as "odious civil rights bill," by which the white man and his wife are degraded to the level of the negro, since no legislation can ever elevate the negro to that of the white; and the children of white parents are to be forced into association with the offspring of the negro in the public schools. Made desperate by the criticism of a free press, and its exposure by Tilden and O'Counor, his friend of the usurpations, and rings of the Radi-Connolly, willing to do him a service, cal party, it enacted at the last session of Congress the Poland gag law hy which it expected to destroy the liberty of the press; but an outraged and indignant people will veto this last Radical iniqui

And more than this; we are amazed at the present state of affairs in our sister State Louisiana, produced as it is by the stupid, reckless partisan hatred of Grant and his advisers. The Radical committee of the United States Senate appointed to "investigate" the claim set up by Kellogg and his followers to be the State government in Louisians, reported that the claim was unfounded in fact and in law.
