Look for the new advertisement of Guttenberg Rosenbaum & Co., next week. Their new stock has arrived, and is very full.

A certain card has decided that when a woman leads her husband money she cannot get it back. The decision will not be new to many wives.

On Saturday evening last, during a shower which passed over this place, the spirit to the new M. E. Church, was blown off its base, falling upon the old church building, completely telescoping it.

Some political correspondence came too late for publication this week.

Concert at Fairdale. The people of Fairdale and vicinity will be visited by Underwood's Entertainment, consisting of vocal and instrumental music, on Friday evening, Oct. 16th, 1874.

What I Shall Do. Messrs. Editors DEMOCRAT—Mr. W. W. Watson, the Republican nominee for State Senator of this district, has laid down, as a plank in his political platform, that referring to vote for Governor Hartman, did not make him a Democrat, therefore I have made up my mind that referring to vote for him will not make me a Democrat, hence I shall certainly do so, along with some other prominent Republicans.

Dr. C. L. Bates. Mr. Babcock, of Owego, an extensive wool dealer, has been in Montrose, during the last week, and in conversation with him, we were pleased to learn that Dr. C. L. Bates, formerly of Gibson, this county, is one of the most popular and successful physicians in that enterprising town.

Personal. R. B. Little esq., was selected by the Bradford County Agricultural Society, to address them at their late Fair in Towanda, which was held last week. Mr. Little, while there, made the acquaintance of Mr. Powell, our nominee for congress and he speaks of him, both by his personal observation and from his standing among his fellow citizens irrespective of party, in the most flattering terms.

Mr. Babcock, of Owego, an extensive wool dealer, has been in Montrose, during the last week, and in conversation with him, we were pleased to learn that Dr. C. L. Bates, formerly of Gibson, this county, is one of the most popular and successful physicians in that enterprising town.

Remarkable Time Pieces. Some remarkable contrivances for the indication and regulation of time were exhibited at the London exposition. Among these was a clock moved by the equilibrium of water and air; a clock in a case, which occupied thirty-four years in completing it, with astronomical, chronological and other movements, wind organs; etc.; a geographical clock, showing the difference of mean time in all the capitals of Europe; a clock showing the days of the month the months of the year, the motion of the sun and moon and the state of the tide at all the principal seaports of Great Britain, Ireland, France, America, Spain, Portugal, Holland and Germany, and going for twelve months; a skeleton striking clock, going 400 days, and showing dead seconds by means of a chronometer; a tall tale clock, for the purpose of detecting delinquent servants, and calculated for the express purpose of regulating domestics—Among the watches exhibited was one which goes a year; another showing the time to a sixth of a second, and a third was made of ivory, with gold screws and steel moving powers worked in tea rubies, and weighed—glass and vase included—only half an ounce.

From Auburn. Royal Carter is seriously ill at present. H. N. Loomis had ninety bushels of wheat sown on his newly cleared fallow at last accounts.

Widow P. Donley is visiting her friends, at Wilkesbarre for a few weeks, after an absence of fifty years from that city.

John F. Carlin has been seriously ill for a few weeks past but can now ride out, which will be good news to his many friends in different parts of the county.

J. C. Tyler, of the bee notoriety, is determined not to be No. 2 on the bee question. One swarm netted him twenty two dollars and fifty cents the present season.

Many of our citizens are purchasing organs and many homes will resound with good music, filling a blank that has long been felt by our refined and enterprising populace.

Our friends D. Seely and A. Gay, are about to remove near Wilkesbarre, where they have a large contract of lumbering. They anticipate it will take two years to complete it. We wish them success.

Charles Gay has threshed by machinery eighteen tons and entered upon the nineteenth, averaging ten thousand bushels annually, making a total of 360,000 bushels. If any man in this or adjoining counties, can show a better record we would be pleased to hear from him.

O. address during winter, Montrose, Susquehanna county, Pennsylvania.

W. C. TILDEN, County Superintendent. Oct. 3d 1874. Slight Difference in Opinion. Our reasons for publishing the communication from Wyoming county which offended the proprietor of the Tenkhanock Republican may be briefly enumerated thus:

to him, and probably never will. Any one who supposes we are controlled by a candidate is fit only for a lickspittle Republican. We are governed by principles, not by men. At the same time we do not deny that Mr. Hartney is as fit to control the conduct of the Republican paper of this county as any other "illiterate" candidate. It seems to be considered by the hermit of the Montrose Republican a terrible crime to publish laudatory editorials of one candidate and "noting" about another; while to traduce one candidate and belittle another with undesired praise as the Montrose editor did, is perfectly proper and fully up to the standard of morality as practised by the "party organs" of Susquehanna county—Tenkhanock Republican.

By glancing at our advertising columns may be seen the spirit of some of the business houses of Binghamton, N. Y. Messrs. Barnes Brothers & Blanding, manufacturers and dealers in marble, are doing a large business in making all kinds of monuments, head stones, mantels, etc. They have just received an invoice of good granite monuments imported direct from Scotland, amounting to \$10,000. Our attention was called to one very beautiful column monument standing 20 feet high surmounted by an Italian marble figure representing "Hope," all of first class workmanship, and costing \$2,000. I was for a party in Athens, Pa.

Under this head we would mention the firm of J. Fiskering & Co., at No. 129 Court Street, above Jay's Hotel, manufacturers of marble, headstones and marble mantels, of all kinds. Their sale rooms are full of stones of all kinds all the week. They informed us that they are shipping weekly, stones ranging in value from \$500 to 1,200, besides large numbers of the cheaper grades.

Crockett, Ogden & Co., is the name of a firm in Phelps's Bank Building, joining an extensive business in general hardware, carriage goods, belt, saws, etc. Their store is large, light and neat, and appears to contain everything namable in their line.

Also, down at 67 Washington Street, we find a general firm, Carter, Porter & Johnson, also dealing in hardware, together with blacksmiths' supplies, corn shellers, cutting boxes, etc. Their store is, to use a slang phrase, "immense."

In furniture, we find E. D. Robinson, at 85 Washington Street, and Donley & Casey, at 55 Washington Street, both with full stocks. Opposite the Exchange Hotel, Messrs. Foot & Hawley have recently opened a merchant tailoring and ready-made goods establishment, with a first class cutter "for fits."

We find the "Washington Street Tailors" still carrying on business at their old place, at 83 Court Street. Messrs. C. A. Cortsey, are opening goods for the fall and winter trade. Carter & Pratt, are the names of two enterprising young men at 21 Court Street, who are just opening a ladies' furnishing store, with a good stock.

The energetic young men, C. F. Sisson & Co., are doing their share towards supplying the people with dry goods. C. B. Perry is still in the business, at No. 53 Court Street, with a good trade.

Mr. C. C. FAVOR (formerly of Montrose, but more recently with C. B. Perry & Co., Binghamton), has made arrangements with C. F. Sisson & Co., dealers in silks and dry goods. He will be in charge of the very best of his line. Letters addressed to me in regard to samples or goods, will receive prompt and careful attention. J. L. W. THORP, Committee. July 1, 74.—C. C. FAVOR.

Business Locals. MANY valuable horses die from the effects of cold. The best thing to do in a case of this kind is to pour a bottle of Johnson's Anodyne Liniment into a long necked junk bottle, add half a pint of molasses and water, then pour the whole down the horse's throat. In ten minutes the horse will begin to eat.

Centaur Liniment. There is no pain which the Centaur Liniment will not relieve, no swelling which it will not subside, and no lameness which it will not cure. This liniment is a language, but it is true. It has produced more cures of rheumatism, neuralgia, lock jaw, pain, sprains, swellings, cracked breasts, scalds, burns, catarrhs, etc., upon the human frame, than have all other pretended remedies since the world began. They are counterfeited, imitations, pale imitations. Cripple them away, if it reaches, the lame walk, poisonous humors are rendered harmless, and the wounds are healed without a scar. The recipe is published around each bottle. They sell as so articles every where, because they do just what they pretend to do. Those who are suffering from rheumatism, pain, or swellings, should be careful to get the Centaur Liniment, white wrapper. More than 1000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running tumors, etc., have been received. We will send a circular containing certificates, the recipe, etc., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for sprained or swollen horses or mules, or for scrofulous humors. Stock owners—the liniment is worth your attention. No family should be without them. "White wrapper family use." Yellow wrapper for animals. Sold by all Druggists, 50 cents per bottle; large bottles, \$1.00. J. B. ROSE & Co., 23 Broadway, New York.
