

Democrat-Editorial.

Gold closed in New York, on Saturday at 144.

The National Grange of the Patrons of Husbandry continued its annual session at Charleston, S. C., and passed a resolution in favor of the Pacific Railroad subsidy and repeal of the tobacco tax.

At the special election in Berks County to fill the vacancy in the house occasioned by the death of Dr. D. L. Batdorf 8,386 votes were polled. Mr. Joseph B. Conrad, (democrat) received 6,587 votes N. S. Kemp, (republican) 799, Conrad's majority 4,788.

Governor Harrison receives \$10,000 per annum, a higher salary than the executive of any other State in the Union except California. Kellogg comes next, drawing \$8,000 from the impoverished treasury of Louisiana, while the Governor of New York is content with \$4,000 for administering the affairs of that State.

A meeting of the Democratic State Committee, will be held at the Bolton House, Harrisburg, Penn'a, on Thursday, the 4th of March, 1875, at 3 o'clock p. m., to determine the time and place of holding the next State Convention for nominating candidates for the offices of Governor and State Treasurer.

JOHN MILLER, Chairman.

With the exception of the seat which Pinchback, of Louisiana, is trying to secure the United States Senate is now complete. S. R. J. McMillen was elected Senator from Minnesota on Friday last. Agreeable to the President's proclamation the Senate will assemble on the 5th of March next, and will comprise forty-two Republicans, twenty-eight Democrats and four Independents.

Only think of it—750,000 men in this country who cannot read! Seven hundred and fifty thousand who have never read anything about the Beecher-Tilton scandal, and can never know of "true inwardness" and "paroxysmal exaltation" and "soul truthfulness," except by hearsay. No wonder the Brooklyn Argus is a zealous advocate of the enforcement of the compulsory education law.

Another week of the Beecher trial will begin to-morrow. The Times Observer writes: "We have ceased to pity the parties to this suit and shall hereafter extend our sympathies on the jury. Those twelve bewitched men who are forced to listen to all these unexampled revelations of emotional insanity will deserve well of their countrymen if they do not go stark mad before the dawn of All Fool's Day."

At the Connecticut Democratic Convention, in Hartford, the old ticket was re-nominated, as follows: Chas. R. Ingersoll, of New Haven, for Governor; George G. Sill, of Hartford, for Lieutenant-Governor; Marvin H. Sanger, of Canterbury, for Secretary of State; Wm. E. Raymond, of New Canaan, for Treasurer; Alfred R. Goodrich, of Vernon, for Comptroller. Governor Ingersoll's majority last year was 6,782.

The caucus Force Bill has been introduced, or rather, smuggled into the house by Mr. Coburn, of Indiana, who has attached it to the bill of his Alabama anti-rump report. There is no particular advantage gained in point of time by this course, except that the bill will be printed. It should be printed. Every copy of it is an indictment against the republican party and an advertisement of its incapacity to govern the country except by arbitrary and tyrannical methods.

The radical members of the Legislature throw every obstacle in the way, and prevent as far as they possibly can the transaction of public business, and then the Radical slay-bangers on the State below that a Democratic House as yet has been unable to do anything. It was to delay business and bring disgrace upon a body, a majority of whose members are Democratic, that the windy-whimper-slimper from Union County, Wolf—kicked up the rumpus he did a few days since, by defying the speaker, violating the rules, and getting himself branded as a most consummate fool.—*Watchman.*

A bill providing for a stay of execution has been offered in the House. It provides for a stay of execution for one year from date of judgment, provided the defendant has unencumbered real estate to the amount of the judgment in the county where it is obtained or where it may be transferred. The defendant with two sureties owning real estate worth double the amount of the judgment enter into bond within sixty days after judgment before the court where judgment is taken, to make the stay of execution good. No stay is to be allowed on judgments in favor of widows and orphans for money due from an estate, or for money due for wages.

In noticing the reports about the corruption of members of Congress and others in authority in connection with legislation in behalf of the Texas and El Paso Railroad, scheme, that said Republican journal, the Boston Transcript, remarks: "The general community will observe with a feeling of unmitigated disgust the diphany of railroad lobbyists in talking about United States senators, fixing them in this way or that, and the manner in which subordinates of the government speak of the President, evidently without his consent, and as though he was a party to transactions which, if they can be brought home to him, should secure his impeachment. The President has been unfortunate in his relations, and the disclosures respecting the El Paso business furnish more evidence of the fact, if any were wanted. We fear he has proved too careless of his reputation, and permitted through negligence, or absorption in pub-

lic affairs, worthless politicians to traffic in the extensive official influence belonging to his station."

A distinguished and able Democrat residing in the southern part of the State, whose high character, profound convictions and patriotic record, entitle his views and suggestions to serious consideration and great weight, makes the following brief reference to the present national outlook and the danger which threatens our system of free government in a recent private letter to a friend in this city:

"Gov. Tilden's Louisiana message was, I think, the best that the great outrage upon the people of that State and the principles of civil liberty, has elicited from any State Governor. Such messages and resolutions, public meetings, etc., on the subject, are all in order, and calculated to do good. But I have a conviction that something more will be required by necessary. Grant it to be again the Republican candidate; and while just now it looks as though his election would be out of the question, you and I have seen reason drowned in excitement, and partisan feeling made to overpower honest conviction too often to trust to present appearances. He would give us hard work to do; and what he lacks in popular strength he would undertake to supply by the use of fraud, corruption, and, most of all to be feared, military power.—Where is the Conservative power that is to prevent his success through the latter. It is in a determination of the State governments, acting in concert that local self-government shall not be overthrown by military power in a single State. It is not time for this yet but it is time to realize that the time for it may soon come.—*Adams Argus.*"

Every recent act of the President goes to show his desperation, and proves that he takes counsel of his fears. He dreads the loss of that power and patronage which has brought him so much adulation—and so much money. The election of this party under the command of state to the next Congress, warns him of investigations, which the present venal and subservient majority dare not institute, and which he only too well knows cannot stand the light. Failing to involve the people of the North in another bloody civil war with the people of the South, he is now seeking for some other mode of maintaining himself and his crew in power.

The folly and madness of his henchman, Sheridan, was rebuked by the presence of the Southern people. Men of all parties see it; and all perfectly understand the whole vile proceeding; but this does not stop Grant and his followers from their mad pursuit of future power. Another firebrand has been prepared for Arkansas. This, too, will fail. Its flame will be extinguished by the good common sense of the American people.—What may be the next desperate move of this condemned Administration, no sane man can tell. The President seems to be bent on constructing popular condemnation into praise. Never was there a graver mistake. No man in the United States, holding so distinguished a position, has ever been so emphatically rebuked and condemned as an Administrator of Government's General Grant. Thousands of his former supporters are perfectly conscious of that fact.

Watson's Shynock Bill.
We adverted, briefly, last week, to the bill introduced into our State Senate on the 21st of January, by Mr. Watson, making "all promissory notes containing a confession of judgment or a warrant of attorney to confess judgment, negotiable paper." In our brief allusion to it we did not take space to be as explicit per haps, as we should, thinking that almost any one of our readers fully understands the workings of our "out-throat" notes under the present law. But we find that there are many, whose attention has not been particularly called to it, who do not fully realize the effect of the passage of a bill like the one introduced by our illustrious senator.

In the State of Pennsylvania to-day by decision of the State Court, declaring judgment notes constitutional, creditors are better protected and greater hardships are imposed upon the debtor, as the law now stands, than is the case in any other state in the United States. Some forty or fifty years ago the state of New York adopted the same kind of judgment note that is now used in this state, but it was contested through the state Courts and carried to the United States Court and decided to be unconstitutional. It is questionable even in this state, whether, if the case should again be brought before the Supreme Court, they would draw back their reputation as jurists by confirming the old decision.

To give our readers a clear idea of what is meant by "not transferable" we would more fully explain. It may be supposed that by it is meant that no one can sell a judgment or note. This is not the case. Every transaction of that kind is as saleable as a horse or a cow in the present law. What is "not transferable" is the Shynock bonus, the fraud, the robbery, or any other dures of circumstance which the maker of a note may set up as a valid defense against any person holding the note or judgment.—If a judgment note is honestly obtained and for value received, it is as negotiable for all practical and honest purposes as it is ever necessary that it should be. Under the present law, execution may issue at once, without any proof of lawful claim on the part of the holder of the note and the Sheriff can levy on the last pound of pork in the barrel of a poor unfortunate family, and oblige the maker of the note to prove that it is not an honest claim, at a great expense, as plaintiff, instead of defendant.

The expense is often so great that it is impossible for the debtor to interpose it against the grasping, heartless, law-breaking Shynock. Every kind of note that is transferable in any other state is transferable in this state to-day. It is only the damnable "out-throat" notes, that give the heartless Shynock the power to lead on his victim by fraud and in violation of law, both human and Divine, until he has not only robbed him, but also his innocent family, of their last means of support, that is not transferable. Every note or claim in this state or any other, must be proved to be an honest one before a defendant can be harassed by an execution. When we say the creditor, already, is better protected in this state than in any other, we substantiate it in the fact that by a judgment note the debtor is made plaintiff and is obliged to show a claim to be dishonest, whereas, in other states, a creditor must prove his claim to be a debt or his family. We might adopt the same principle in our criminal code and oblige a party, arrested for a crime, to prove his innocence, instead of compelling the Commonwealth to show his guilt. In view of the facts, as we have above stated them, we ask every honest man in Susquehanna County or the state of Pennsylvania to show us who has any interest in the making of judgment notes negotiable, but those who now have their hands filled with such notes, loaded down with illegal "bonus," and who intend in the future to continue to rob and plunder the innocent and defenseless for their wicked and unhalloved extortion. Don't talk to us about the short comings in christian law and upon Local Option hypocrisy, when the youth here long prayers in our churches for the poor and needy, invoking their anathemas solely upon the ruffians, from the mouths of extortioners and legislators who would pass such a law as would more effectually rob them of the last morsel of bread and drive them shelterless into the streets. It will be as tolerable for the ruffians in the Day of Judgment as for them.

The Shynock School Ring.
We find that on election day the following petition was spread before the people of this county and state by the few select persons under the command of state Superintendent Wickham, who seem to consider that he has a supernatural call or some other, to "fix" this thing for the parents of children and patrons of our schools at the present time.

To the Honorable the Members of the House of Representatives of Pennsylvania:—The undersigned, citizens of... County, most respectfully Petition you to pass a law to secure to every child within the Commonwealth the benefits of an elementary education, fully believing that education prepatates a free State, decreases pauperism and crime, and greatly increases the value, self respect and happiness of the citizens.

This law, like most all others of the present day, is not for the rich, but to humiliate the parental authority of the poor and unfortunate, who make more sacrifices at the present time, to educate their children, than the wealthy do. If elementary laws of this kind can be passed, the white masses will sooner or later be effectually enslaved, and a monarch will dictate their political and religious education as well as their "elementary." It is almost a crime to be poor, by sticking to honest toil, in these days of speculative and official robbery, but under antiquated laws of the above stripe, it will be simple and unalloyed avarice, a positive attribute to a monarchal government.

General News.
FORT SULLY, Dakota, Feb. 21.—The present has been the most severe winter here for many years. There are now over three feet of snow on the ground on all sides.

NEW YORK, Feb. 21.—Communication with New England cities during the past week has been almost suspended in consequence of large quantities of ice in the Sound. Large quantities of freight are lying waiting transportation. North and East rivers here are comparatively free, and navigation has been resumed on all the ferry lines.

DEBUREAU, Iowa, Feb. 21.—Reports are being constantly received from Northern Iowa of the death resulting from the severity of the storm. One of the most touching is that of two little children in Tama county, who were lost returning from school in the storm of last week. The boy, who was named John, was about five years old, and the girl, who was named Mary, was about three years old. They were both found dead in a field near their home.

PRITTSBURG, Feb. 19.—A passenger train on the Pan Handle railroad bound east at four o'clock this morning, when near Mingo Junction, Ohio, ran off the track and a number of cars were burned up. No lives were lost, but quite a number of persons were injured, among whom was Mr. McCullough, vice-president of the road, who had one of his legs broken.

The steamship Albatross, which arrived to-day, brings the following particulars of the fire at Port au Prince on the night of Feb. 12. About half past ten o'clock the fire broke out in the city, which in a short time spread to the neighboring houses. The houses were principally of wood and very dry, and with a scarcity of water and only three small engines with hose about garden size it was impossible to operate against so formidable an enemy. The amount of damage done is estimated at \$2,000,000. Two-thirds of the city has been burned to the ground and 800 or 700 families rendered homeless. The fire is thought to have originated from the explosion of a barrel of kerosene. The fire was still burning when the Albatross left the 12th.

Special Notices.
CONSUMPTION, TAKE NOTICE.—Every moment of delay may mean the loss of your life, and much depends on the judicious choice of a remedy. The amount of testimony in favor of Dr. Schenck's Pulmonic Syrup, as a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine. See Dr. Schenck's Almanac, containing the certificates of many persons of the highest respectability who have been restored to health by the use of his medicine. It is a cure for consumption, far exceeds all that can be brought to support the pretensions of any other medicine.
