this State to vote for the Texas and Pacific railroad subsidy, which amounts to about \$70,000.000.

We notice that our member Mr. Watson voted for it. We agree with the ed itor of the Bloomsburg Columbian in saying that this is the most magnificent and unpardonable steal now on the carpet .---To take that immense sum from the Federal treasury at a time when the President is urging Congress to replenish it, to save it from bankruptcy, by imposing a high tax upon the essential necessaries ot life, including tea, coffee and sugar, does seem to be the height of oppressive legislation. And this Texas Pacific is only the fore-runner. If it succeeds there will be a dozen or more roads of equal merit asking the same aid, and the navigation companies will renew their efforts to the same end. Finally it will require an amount equal to the present National debt to satisfy these cormorants. Of course the pockets of Congressmen and Legislators are enriched by this jobbery, and hence the success of the measures: as exhibited in the Credit Mobilier Pacific Mail, and other investigations. Until the people put their stern veto upon every man who supports such projects, there will be no end to them. 1 2

Our thanks are due Senator Watson for the Senate File of three bills, two of which were reported by him from the Judiciary (General) committee, known as bills No. 158 and 159. No. 158 is an act providing for the making and repairing tax plan, that the making and repairing of roads shall be done by contract made upon due notice being given of the day of such letting of the contracts, to the lowest and best bidder. It is similar, in fact, to some suggestions which appeared in the DEMCCRAT two or three years ago. We consider it a very proper bill and believe that it would secure better roads at cheaper prices than the present system. We give the act elsewhere in full, for the consideration of our readers.

Bill No. 159, also reported by Mr. Watson, is an act to "secure a stricter accountability of certain public officers in the counties of the commonwealth." It is quite lengthy and we have not yet had islation that will "secure a stricter accountability," of some certain public ser- | treasury have been managed by those who | numinal and, for the most part, uncalledvants, not only in the county but in the state and nation. We are in the condition, on this subject, that the old maid was, who prayed for the Good Lord to send hoo 12 of an owl in the distance, answered anybody !" Anything that will tend to has given them, of the state funds. Now support of go betweens: The machinery Bome should be spent on this canal. shall meet our hearty approval.

lamation declaring it. (3) At the first general election thereand punished. after the citizens of the new county elect three commissioners to locate a county seat and public buildings, after due advertuse ment and deliberation. Three county commissioners to be appointed by the State authorities until the holding a gen eral election; and the election and qualification of their successors. The establishment of courts and certification of demand. To those whose incomes are still certain evenings of the week. At the causes and suits pending to the courts of liberal, though never so much less than regular meetings, the members elect the the new county are provided for as well as the recording of all liens and mortages, etc., the division of election districts, the Senatorial and Congressional apportionment of the new county, and other necessary arrangements resulting upon a of trenching on the actual necessaries of cured with none of the risks. In several change of county lines and the creation of a new jurisdiction. (4.) The last section provides "that the ever-men whose wages never greatly sur- trade of the order, or a great portion of it

property and taxable inhabitants of any passed the cost of living-the problem is by appointing a general purchasing agent portion of the territory of the proposed not so simple. To strike of luxuries through whom the supplies for the counnew county, after its erection, shall continue liable for the payment of its proportionate share of indebtedness of the To lessen the amount of their purchases cost of the increased machinery. An idea county from which such portion of territory shall have been taken, existing at the time of the erection of such new connty, and the same shall be levied, asseased and collected in such territory after the erection of such new county the same

as if the said new county had not been erected until such share of said debt shaff have been fully paid."

counties is necessary. In one or two instances where new counties are proposed we of public roads. It is upon the moneyed do not doubt the increased taxation arising from the erection of new buildings an the support of new officials would be more than compensated by the advantages resulting from division. The House bill is a fairer measure than is usually presented for legislative considration .--While it leads toward the facilitation of division within constitutional restrictions the two thirds vote required and the continued liabilities for indebtedness incurred before the act of seperation, are features of fairness which will recommend t to support -- Patriot.
