### Farmand Household.

#### Pickling Cucumbers.

A correspondent of the Masschuesetts Pliughman sends a recoipe for pickling cucumbers which hesays he has used for many years. He says: There may be simpler methods, but none, I am sure, that can be followed by happier results. Pickles made this way will keep hard and

good the year through, and are always of a beautiful green color. Some say that cucumbers for picking ought never to be washed or rubbed. as it removes an outside coating and im-pairs the vitality of the pickles. How true this may be, I have never determined by experiment; but, to be on the safe side we never wash them (unless very dirty,) the successive scaldings cleaning them sufficiently. Place the cucumbers in an earthen jar and pour over them a weak brine, scalding hot, and let them stand in it 24 hours, when it must be turned off, scalded, skimmed, and turned on again to remain another day, and scalded again. Now they must be freshened by pouring over them hot vinegar, and le them stand a few days, when they must be put into cold older vinegar, adding horse-radish root and any kind of whole species that one prefers. Stir them accasionally to prevent scum from rising .-Many house keepers labor with the mis-taken idea that pickle vinegar must be scalded every time a white scum rises.--It does no good what-ever, only weakens the vinegar, and eventually kills it outright. And just here let me ask a question. Why does the scalding of vinegar lessen its strength? Is not the killing of those minute creatures to which good cider vinegar owes its vitality the cause?

### Broom-Corn in Kentucky.

A correspondent of the Sun, Nicholas-ville, Ky.' thus gives his experience with this crop:
In 1866 I put in a crop of broom-corn, it then being worth about \$250 per ton. When my crop came in I began to manufacture brooms. For the first hundred dozen I realized \$4 per dozen, and before I could get the same number again manufactured they were worth only \$1.75 per dozen, and at this price they continued through the year 1867 and 1868. In 1869 I realized \$350 per ton, which paid me very well. In 1870 I moved to Jefferson county, near Louisville, expecting to get rich in the business. I planted 150 acres, and lost about \$2,000 on the crop. From this you can see that the price of broom corn fluctuates even more than that of any other crop that is raised by the farmer. Broom corn is something that has to be worn out, not consumed, like pork, Indian corn, or wheat. There was enough broom-corn grin covered the old fellow's face and he what cord is that which is full of knots. wheat. There was enough broom-corn raised in 1870 to supply the market four years. This is another 1870, as there w:ll be not less than two thousand acres of corn raised in Kentucky. Broom starts off at \$150 per 20n; let us see what it will be worth when the crop of 1875

Watering Milk to Get the Cream. It is well known that milk set in the usual way, although it throws up a good-ly percentage of cream, does not yield up don't know how it floored me!" ly percentage of cream, does not yield up all the fat in the milk, because the skimmed milk, on being subjected to analysis ent and then said, reading from the card: pense, There are two beet sugar mills outler, gotwithstanding it had on being to the amount of \$2 will be was set for cream, and in seven hours vielded seven per cent, of cream. The the old man, standing up and looking wielded seven per cent, of cream. The diluted with an equal cont.

He sat down after awhile, looked signs herself "yours truly." Ask her if around, and, his eye falling upon the banks gare 5 per cent. of cream, or 1½ by, he asked of the mother: for cream. The diluted milk it seven hours gave 5 per cent. of cream, or 1½ by, he asked of the mother:

"Couldn't you let me hold him a little while? See him look at me! I'll bet ten to the top of the Pyramids, we presume dollars he thinks I'm his father!"

"Couldn't you let me hold him a little while? See him look at me! I'll bet ten to the top of the Pyramids, we presume he is enjoying the benefits of a foreign elded if watering made no difference. while? See mm took at me i in our tent to the total may not be advisable, however, to use dollars he thinks I'm his father!"

She refused to trust the infant off her climb. which in warm weather should be guard-

#### ed against. Care of Horses in Spring.

I was always taught to keep horses up, in the spring, on dry feed, until the spring work was done, for fear they would not eat their feed if turned out, and would therefore fall off in fiesh. But for the last four years, when we began work in the spring, I have given my horses a run of an hour or more every day, even when the grass was well started, and have found that they feel better, and keep in better flesh, than under the old rule. The grass keeps the bowels open, and the rolling is the natural method of currying. I keep two horses only—combined weight, 2,150 pounds—yet they do all the work on a farm of 180 acres.

## Food for Mares During Gestation.

In answer to a correspondent, wilke's spirit says:—we consider good oats and good hay the safest and best food for mar-s during gestation. No branmashes, the man who invented saws?" corn meal, carrots, or other vegetables should be allowed as they are apt to disturb the bowels, and induce colic. Out staw is highly objectionable, dwing to its tendency to accumulate in the bowels and produce indirection. There was no answer, and he pulled open the car door and continued:

"Yes, I, do love children. I was a child once myself, but I didn't have any fun."

As he stood on the platform he went

Muriatic scid, eight ounces; pul-verized cantharides, one ounce; fill a drachm phial about one third full with the medicine, and after greasing below the lump with lard or oil, apply it upon the lump, covering a space the size of a five cent piece. Apply it once every day greased with lard or oil until it heals up, vited him to count the bees. If one course of treatment fails to cure, apply the medicine as before; the second never fails.

## Swamp Muck.

Swamp muck is ordinarily composed chiefly of decayed vegetable matter. In its dry and pulverized state it is nearly identical with the leaf-mould so highly prized by horticulturists. When dry, its absorbing qulaities are very great and hence its value in the manure heap.— Even when used alone its direct fertilizing action is very great in its natural state. This has been proved by repeated

Reports from the southern states say that the corn and cotton crops this year will be unusually large.

It is stated that within two years \$200. 000 worth of sheep have been killed by dogs in Kentucky.

A great deal of damage done to the grain crop was caused by the recent rains

#### Kumorous. The Emigrant Lassie.

# BY JOHN STUART BLACKIE.

As I came wandering down Glen Spean, Where the bracs are green and grassy, With my light step I overtook A weary-footed lassie.

She had one bundle on lier back, Another in her hand, And she walked as one who was full loth To travel from the land.

Quoth I, "My bonnie lass"-for she Had hair of flowing gold, And dark brown eyes and dainty limbs,

Right pleasant to behold-"My bonnie lass, what nileth thee,

I am fresh and strong, and stoutly shod, And thou art burdened so; March lightly now, and let me bear The bundles as we go."

No, no," she said, "that may not be, What's mine is mine to bear; Of good or ill, as God may will,

"But you have two and I have none One burden give to me; I'll take the bundle from thy back, That heavier seems to be."

"No, no," she said, "this, if you will, That holds-no hand but mine Cross the Altantic brine."

Well, well! but tell me what may be Within that precious load Which thou dost bear with such fine care Along the dusty road?

Belike it is some present rare From triend in parting hour; Perhaps, as prudent maidens wont Thou tak'st with thee thy dower.

She gave a mournful wave, "Oh, do not jest, dear sir, 🕈 is Turf from my mother's grave !' spoke no word; we sat and wept By the roadside together;

noded to the child and said: "I never loved anything as I love children! I can hardly keep from biting wood.

his little ears!" He waited a moment and then asked:

"Eight months," she replied.

He looked around the car for a momis found to contain a small percentage of butter, notwithstanding it had on being set thrown up the cream very perfectly. Experiments have been made in adding water to milk to facilitate the rising of the water to milk to facilitate the rising of the cream have shown that more cream is a shown that a shown to show that a shown to show that is the state.

One of the easiest and best ways to expect the shown that a shown

be eaten up by worms, like the rest of good be evil spoken of.

A subscriber, Licking County, Ohio, He wiped his nose on one of the saw-handles, held his hat in his hand and his class in French between her scrubbing eye catching a sign on a grocery he ex- engagements. claimed:

"Does any one own this meat?" A woman made a motion to signify that it was her property, and he uncov-ered the basket and called out: "Pork chops and a small piece of veal People who want to eat veal can gnaw, away, but I don't want any! What are pork chops a pound, madam?"

She did not answer, and the man picked up his saws, and asked:

Does any one here know the name of

was heard saying:

"They ought to have a machine to lift reople off the care."

An assessor asked a woman how many chickens she had, and doubting her word proceeded to count them. She took him for four days, then keep the sore well to the bee-hive, kicked it over, and in-

humble a thing as a bit of orange peel.

What is that which increases the effect by diminishing the cause? A pair of

HEARTFELT PRAYER.

St. Paul., Aug. 22, 1861.

H. R. Stevens, Esq.:

Dear Sir:—I should be wanting in gratitude, if I failed to acknowle ge what the Vegetine has done for me. I was attacked about eleven months since with Bruchi its, which settied into Consumption. I had night sweats and fever chills: was distressed for breath, and frequently spit blood: was all emaciated, very weak, and so tow that my friends thought my case howeless.

I was advised to mak a trad of the Vegetine, which, under the pawidence of God, has cared me. That he may bless the use of your medicine to orbers, as he has to me, and that his divine grace may attend you, is the heartfelf praver of your admiring, humble servant.

BENJAMS PETTINOLL.

P. S.—Mine is but one among the many cares your needicine has effected in this place.

B. P.

ST. PAUL, Aug. 22, 1861.

MAKE IT PUBLIC.

MAKE IT PUBLIC.

SOUTH BOSTON, Feb. 9, 1971.

H. R. STENENS, ESQ.

Dear Sir—I have heard from very many sources of the great success of Vegetities in cases of Secrotia, ikhous matism, Kidney Complaint, Catarrh, and other diseases of kindred mature. I make no hestation in esying that I know Vegetine to be the most reliable remedy for Catarrh and General Debilito.

My wile has been troubled with Catarrh for many years, and at times very badly. She has thorroughly tried every supposed remedy that we could hear of, and with all 'his she has for several years been gradually growing worse, and the d'scharge from the head was excessive and very offensive.

She was in this condition when she commenced to take Vegetine; I could see that she was improving on the second bottle. She continued taking the Vegetine until she had used from twolve to fifteen bottles. I am now happy in informing you and the public (if you choose to make it public) that she is entirely cured, and Vegetine accomplished the cure after nothing else would. Hence I feel justified in saying that Vegetine is the most reliale remedy, and would advise all suffering burnantly to try it, for I believe it to be a good honest, vegetab a medicine, and I shall not heetinte to recommend it, I am, &c., respectfully yours.

L. C. CARDELLI.

Store 451 Broadway.

Vegetine acts directly—pon the causes of these com-plaints. It invigorates and strengthens the whole sys-tem, acts upon the sercetive organs, allay a infamation, cleanses and cares—ulceration, cares constipation, and

HAS ENTIRELY CURED ME. Barren, Oct. 1570 Mr. Street:

Der Sir-My daughter, after having a severe attack
of whooping cough, was left in a feebe state of health
being advised by a friend she tried the Vegetine, and
after using a few bottles was fully restored to health.
Lave been a great sufferer from Rheumarism. I
have been a great sufferer from Rheumarism.
Lave taken several bottles of the Vegetine for this
complaint, and am happy to say it has entirely cured
me. I have recommended the Vegetine to others, with
the same good results. It is a great cleaner and purifier of the blood; it is pleasant to take, and I can
cheerfully recommend;
