PANTOMIME ADMINISTRATION. the less penal. From it proceed the char-acteristics of the time-speculation, idle-The Republican press and politicians have flattered themselves that the quiet-ude and importance of Gov. Hartranft's administration should leave no hold for Add to all this the influences of laws for adverse criticism, and that he would go through the campaign as a maggot goes through a cheese, a progress of obscure and patient industry that invariably meets industry that invariably meets adverse criticism, and that he would go the collection of revenues which impose and patient industry that invariably meets with its own reward. There is a great amount of worldly wisdom in these ex pectations; but the campaign of 1875 is a most unfortunate time for their reali-zation. The policy of letting the craft of the policy o state drift, in order that nobody should be able to find fault with the steering, has resulted badly. When Gov. Hart-ranit came into office the state was in the hands of plunderers. SCHENCK'S PULMONIC SYRUP, SEA WEED TONIC, AND MANDRAKE PILLS .- These medicines have unfloubtedly performed more cures of Consumption than any other remedy constitution. Other remedies advertised as cures for Consumption, probably contain opium, which is a somewhat dangerous drug in all cases, and if taken freely by consumptive patients, it must do great injury ; for its tendency is to confine the morbid matter in the system, which, of course, must make a cure im-possible. Schenck's Pulmonic Syrup is war-ranted not to contain a particle of opnum: It is composed of powerful but harmless herbs, which act on the lungs, liver, stomach, and blood, and thus correct all morbid secretions, and expel all the deceased matter from the body. These are the only means by which Consump tion can be cured, and as Schenck's Pulmonic Syrup, Sea Weed Tonic, and Mandrake Pills are the only medicines which operate in this way, it is obvious they are the only genuine cure for Pulmonary Consumption.
