Grange Meeting.

Susquehanna Grange, No. 74, on account of Fair, will hold their next meeting on Saturday, Sept. 25th, at 1 o'clock p. m.

J. R. LYONS, Sec'y.

Religious.

The people of this vicinity will be pleased to learn that the Rev. E. A. Warriner will return to Montrose, and resume the rectorship of St Paul's church, on the first Sunday in October next, it being the third day of the month.

One Word.

We are not in the habit of apologizing but if any lack of reading matter is observed in our paper this week, we must be pardoned for it.—The absence of the senior editor for a week to the State Convention and the crowd of other duties must be accepted for this condition, but we hereafter propose to be "at home," both before and after the second day of November next.

Patrons of Husbandry.

A Grange of this order was organized Wednesday, Sept. 15th, in Dyberry township Wayne county, and the following officers duly installed, by District Deputy R. S. Searle, of Montrose, Susq'a co., Pa.:

Master, M. D. L. Keen; Overseer, W. B. Arnold; Chaplain, Edward Avery; Secretary, T. H. Dunn; Lecturer, James Borchers; Steward, B. F. Dunn; Ass't. Stewart, E. A. Jones; Gt. Keeper, I. T. Keen; Treasurer, N. C. Dunn; L. A. S, Mary Ogden; Ceres, Harriet A. Arnold; Flora, Acolia Dickens; Pomona, Addie Keen.

An Old Curiosity.

In the show window at G. F. Benton's jewelry store, 41 Lake street, Owego, N. Y., can be seen a Queen Anne musket, which was captured by Aaron Burr, at the storming of Quebec, under Col. Benedict Arnold, on the night of December 31, 1775. The gun weighs 27 pounds and bears date 1722, making it 153 years old. This gun was on exhibition at the old Museum Hotel, corner Franklin street and West Broadway, New York city, for many years. It was imported to Owego about 15 years ago and has been on exhibition at the above jewelry store for the past three years.—*Binghamton Times.*

Galusha A. Grow.

Hon. Galusha A. Grow has returned from Texas to resume his permanent residence in Pennsylvania. He is in excellent health, and will return to his old Republican love by taking the stump for Hartranft and hard money. He got into the reform movement in 1872, just when it didn't win, and now gets out of it in '75, when it is likely to go through the State like a mountain flood in spring time, and yet it will not be happy.

The organs that pronounced him a scalawag when he declared for Greeley will be sure to hail him as a patriot and statesman now, and will have the advantage of any sort of a history for his biography, in their columns that kind or he may want. We welcome Grow back to the political field, even if he is a little too getting his wares into the Grant camp.—*Philadelphia Times.*

New Fashion for Ladies Dresses.

Husbands and fathers who for the past year or two have seen their wives and daughters almost shrink from their sight, from the full proportions of the hoop skirt of ten years ago, to the present artistically constructed "tie back," are now a new grievance.

The Paris fashion makers are about to introduce geometrical, zoological and floral designs for dresses, and Mrs. Grundy will presently appear in a brocade gown, sprinkled profusely with lions, tigers, giraffs, monsters and chimeras dire. The mother of a family will present her a startling spectacle to her younger children, arrayed in such a dress, or in another "exquisitely pretty," in which "various insects are introduced," but this new mode will enable careful mammas to unite self-gratification with the instruction of their children, by illustrating their dresses with objects natural and artificial and making a kind of kindergarten of themselves.

Soldiers' Encampment.

The Soldiers' Encampment, at Hart Lake, is well attending by the "Boys in blue" and a social time was enjoyed and the ministering ones of the united field and old camp life was fraught with many reminiscences. But for the rain on Thursday afternoon it would have been a very pleasant both to the soldiers and spectators. There were a great number concerted on Thursday afternoon with a platform and music for dancing, and all other appliances for a good time, but the very heavy rain that set in caused all but the veteran soldiers to make a hasty retreat in not very good order. In fact, we might call it a panic. The soldiers remained on the field, however, until Friday morning. We learn that it is proposed to hold a basket picnic on the same ground for the benefit of the Soldiers' Monument Fund, some day in October, the time to be fixed hereafter. We certainly hope it will meet with great success which is due the enterprise.

Church Meeting.

A large proportion of the male members of the West Lenox Baptist church, met Sept. 7th, at the house of Rev. R. Tower, to consider the propriety of building a church edifice on the site of the one recently burned. Prayer was offered, and Pastor D. Pease called to the chair as Moderator. Brother C. M. Tower, of Factoryville, was chosen Secretary.

After a statement of the object of the meeting, and a general informal consultation, it was voted unanimously to make an immediate effort to erect another building to be opened for funerals and religious service, the same as the one recently destroyed by fire. Motioned to authorize Brother C. M. Tower, Financial Agent, of Keystone Academy, to solicit, and receive subscriptions for us, adopted. Deacons Tingley and Sinsabaugh, Sisters Lawrence and Oakley were appointed to circulate subscriptions for the new building.

Voted to print the minutes of this meeting in the county papers and *National Baptist.*

Adjourned. C. M. TOWER, Sec'y.

A Cure for Drunkenness.

A medical gentleman publishes the following recipe, which he says will surely destroy an appetite for alcoholic drinks. We give it for what it is worth, hoping somebody may be benefited by it:

"Take of tincture of Colombo, compound tincture of gentian, tincture of cascarilla, each, one fluid ounce; infusion of cascarilla, one pint, elixor of vitriol, two fluid drachms and forty minims; mix. The dose is a tablespoonful every hour or two; or it may be taken in larger doses and less frequently. Frequent bathing of the head is a valuable auxiliary. It acts as a tonic. In some cases its first action is that of emesis or vomiting. Its use must be persisted in for some time, that the stomach may retain tone and vigor."

Arrested.

Charles N. Bush, of Springville township, Susquehanna county, was arrested while in Scranton on Monday of last week, for passing counterfeit fifty cent scrip. After a hearing before U. S. commissioner E. W. Simrell, in which the evidence seemed to indicate that he was an inexperienced member of a gang of counterfeitors now infesting this region, he was in default of $2,000 bail committed to the Western Penitentiary to await trial at the next term of U. S. court.

A large number of these counterfeit fifty cent scrips are in circulation, and our readers should be on their guard against them. They are good imitations of the genuine, though the paper is not as good, the general color of the bill is darker, and the expression of the eye of the likeness of Dexter is imperfect.—*Tunkhannock Democrat.*

Counterfeiters Arrested.

Last Wednesday night J. W. Boyce, Chief of Police of Scranton, and J. W. Sloeum, U. S. Marshal, upon proper information, made a raid upon a gang of counterfeiters and succeeded in capturing Orville Ball and Curtis Avery, both of Lemon township, this county. Moulds and counterfeit five cent nickles were found upon the premises of each. They passed this place on Thursday on their way to Scranton, accompanied by their captors.

George Camp, of the same township, had previously been arrested for the same offence, and it is understood that he "split" upon the party, put the officers upon the track and furnished the Scranton Chief of Police with an order for the moulds in the hands of Ball, one of his confederates.

The police have kept the affair very quiet, since the arrest of Camp, with the hope that the entire gang could be broken up and captured.—*Tunkhannock Democrat.*

A Vindication.

To the Citizens of Susquehanna County:

In view of the fact that various reports derogatory to the character of E. B. GATES, one of the candidates for Sheriff of Susquehanna county, in the late canvass, were sent broadcast throughout the county, viz.: drunkenness and other reports of like character—we, citizens of Dimock, who have known him from his boyhood, mingling with him in our social and business intercourse, feel it our duty to denounce in severe terms the slanderous, unjust, and unfounded imputations against our neighbor and townsman, believing them to have been originated and circulated by a few designing individuals, solely for the purpose of injury.

To what Base Uses may we come at last.

A brother chip of the Philadelphia *Times* has been interviewing the anatomist of a medical college upon the subject of the commercial value of skeletons.

The anatomist in question seems to have as intimate a knowledge of skulls, as the grave digger in Hamlet. After explaining the demand which comes from lodges of secret societies, who use skeletons in their ceremonies of initiations, he then speaks of the uses to which these memorials of humanity are put by some of the disciples of Esculapius: "Country doctors generally like to keep a skeleton somewhere in a dark closet, where they keep their demijohns of apple jack or old rye. Their wives, daughters or servants are sure never to visit it. If they take students they must have a skull, anyhow. No drawing or picture can teach or give an adequate idea of the anatomy of the head, and a back country doctor pretty generally will strain a point to procure a skeleton entire. To patients upon whom he wishes to make an impression that he is particularly erudite and a dead shot at mumps or worms, he will exhibit this skeleton. Besides this, no doctor's house in which a skeleton was known to be kept was ever broken into. It comes cheaper than keeping bull dogs, and makes a man a reputation besides."

Making Hay by Steam.

Both the fact and the poesy have been knocked out of the favorite adage, "Make hay while the sun shines," by a recent English invention for curing hay by artificial heat. The implement is simply a steam engine so arranged as to force hot air into a capacious drying chamber in which the green grass is placed.—The effect is a mingled curing of the stalks and blades, with a fuller retention of the natural flavors than if the sun alone had been consulted in the matter.

The cost of the machine is not much more than that of an ordinary threshing machine.—The cost of drying a ton of hay is about two dollars, not much more, perhaps, than the old way. But even if more, the chances of having it spoiled by rain or reduced to a minimum, and the time of hay harvest is abreviated.—Necessity is said to be the mother of invention.

The need that existed for this artificial dryer, in a climate so moist and fickle as that of England, brought it about and will certainly make it popular. With our climate growing more whimsical and uncertain every year, some such dryer as this may, ere long, be reckoned among the indispensable implements of the harvest field.—*Exchange.*

Base Ball.

On Saturday Sept. 11, the Montrose B. B. C. visited Mud Lake and played a match game of ball with the Pastimes of that place, getting defeated by a score of 25 to 13. As Montrose won the first game, which was played here a short time since, the third game will be necessary to decide which club is best, therefore it may be expected to come off shortly, but on whose grounds we are unable to state. Our boys were very much pleased with the manner in which they were treated while at Mud Lake, and say they enjoyed themselves almost as well as they would if they had not been beaten. Normal School Building Burned.

Of the Normal School building at Bloomsburg which was burned on Saturday the 4th inst, the *Columbian* says:

"It was a four story brick building, exclusive of basement and inclusive of the Mansard, built in L form, each wing 114 feet front, was completed in all its parts, and was erected in 1869, at a cost of $70,000 to $75,000. It was insured for $30,000 on the building, but the furniture and fixtures were without insurance. The fire was at first discovered about four o'clock, p. m., in the 4th story of the south-east corner of the building. Opinions differ as to whether it originated in a room at that point or in the Mansard roof. In any case the latter was the cause of the entire destruction of the building. Had there been ordinary water facilities the fire could have been extinguished when first discovered, but in the absence of any, destruction was inevitable. Alarm was promptly given and nearly all the citizens of the town rushed at once to the scene of conflagration, but were useful only in saving the furniture, school-books, clothing of pupils, etc. We believe these were mostly rescued. Although, as is always the case at fires, some unduly excited people did foolish things, the citizens generally as well as the pupils did all in their power to save and protect property. Temporary quarters for the pupils were also promptly furnished by citizens. The school can be carried on (and will be) in the remaining building, but the pupils will have to be boarded in private families until a new building is erected, and the faculty will also be compelled to seek other lodgings and boarding quarters."

Excursion to Niagara Falls.

The second excursion to Niagara Falls will leave Scranton, Tuesday, October 5th, at 7 a.m. stopping at all stations on the D. L. & W. R. R. as before. The party will remain two nights and the intervening day at Niagara, affording thorough rest before and after the fatiguing work of Sight-seeing. It will be in charge of the same general managers, and goes forth under the auspices for the benefit of the Presbyterian churches at Kingston, Scranton, Waverly, Nicholson, etc.

Tickets will remain at the same low rates, $6 50 from Scranton, $6 25 from points between Scranton and Nicholson, $6 00 from Nicholson and points above.

Those wishing to remain at the Falls for a longer time, or to get off at Elmira for a visit to Watkins Glen, will receive a certificate that will entitle them to a return ticket from either of the above points, at half price.

Tickets for the excursion will be for sale at the stations, and other places on and after Thursday, Sept. 23d. Those purchasing at an early date, will be purchasers of reserved seats, couches and tickets being lettered and numbered in a corresponding manner. But there will be no certainty of procuring tickets after Oct. 1st. An additional amount of $4 50 will pay all expenses during the stay at Niagara, including two nights lodging and four consecutive meals at the hotel, and admission to Goat Island, Prospect Park, Inclined Railway to Shadow Rock, and to and from Table Rock, Canada side, via New Suspension Bridge.

Those who will go to the Falls via Corning and Avoe leaving Niagara, Thursday at 7:30 a. m. and returning via. Hornellsville, arriving at Scranton, about 7 p. m. and at other points in corresponding time. A stop will be made at the new Portage Bridge on the return, giving opportunity to examine that wonderful structure, and take a view of the Genesee rapids.

Proceedings of the Democratic Convention.

The Convention met at the Court House, in Montrose, at 2 o'clock and was called to order by E. B. Hawley, Chairman of the County Committee. The credentials of the delegates were duly presented and received.

E. B. Hawley then made a stirring and eloquent speech of about five minutes, which was received with much enthusiasm.

The Convention then proceeded to the election of officers. J. L. Merriman of Franklin, was elected President, Hiram White of Lenox, and Thomas Matthews of Friendsville, were elected Vice Presidents, E. O'Neill and Geo. P. Little were elected Secretaries.

The following resolutions offered by E. O'Neill were unanimously adopted:

Resolved, That we heartily endorse the nomination of Hon. Cyrus L. Pershing for Governor, and the nomination of Victor E. Piollet, for State Treasurer. The times demand that none but honest and capable men shall receive a nomination for any office in the gift of the people—Pershing and Piollet fill the bill.

We endorse the platform adopted by the Erie Convention, and especially that part looking to a reform in the administration of public affairs, and the reduction of salaries of public officials, which, under Republican rule, have been raised to an unprecedented sum, and have become burdensome and almost unbearable; therefore

Resolved, That for the purpose of paying the bonded debt of this County—amounting to over $18,000—upon which we are paying to a foreign holder of the bonds *eight per cent.* per annum, the salary of the Treasurer shall be fixed at $600 per annum. The salary of Commissioners' Clerk at $500 per annum, and the pay of the County Commissioners shall not exceed $250 each per annum.

Resolved, That the fees and salaries of all County officers should be reduced by legislative enactment to such sums as shall be a reasonable compensation for the service performed. The people can not afford to enrich a Sheriff and Prothonotary every three years.

It was moved and seconded that we place in nomination but one person for the office of Commissioner, to-wit:

On motion, voted, that we nominate but one person at a time for the office of Commissioner.

On motion, voted, that the Convention proceed with nominations for the highest office first.

R. B. Little was nominated by acclamation for President Judge.

The nomination of Sheriff being next in order, the following candidates were presented: William White of Auburn, Dr. E. N. Smith of Susquehanna Depot, C. M. Shelp, New Milford, and Abram Carter, Rush. The balloting resulted as follows:

	1st.	2d.
White,	28	32
Smith,	6	5.
Shelp,	17	18.
Carter,*	5	

*Withdrawn.

On motion the nomination of Wm. White was made unanimous.

For Treasurer, Henry C. Tyler of Montrose, was nominated by acclamation.

For Register and Recorder, C. C. Gilbert of Great Bend Boro. and Abram Carter of Rush, were nominated.

The ballot stood

Gilbert,	38.
Carter,	16.

For the offices of Commissioners, the following nominations were made: M. E. Ryan of Apolacon, Oliver Lathrop, New Milford, Leander Grills, Jackson, O. M. Hall, Franklin, Truman Bell, Lathrop, E. G. Williams, Brooklyn.

	1st.	2d.	3d.	4th	5th.	6th.
Ryan,	22.	26.	27	33.		
Lathrop,	21	23.	21	20	26	25
Grills,	5	3.	3	1	27	30.
Hall,	4*					
Bell,	0	2	3*			
Williams,	3	2	2	3	4	2.

*Dropped.

For Auditors, R. S. Searle of Bridgewater, and L. B. O'Dood, Little Meadows, were nominated by acclamation.

For Coroner, Dr. J. B. Leslie, Susquehanna Depot, Drs. R. Thayre and W. L. Richardson, Montrose, were nominated.

	1st.	2d.
Leslie,	14	17.
Thayre,	10	2.
Richardson,	24	25.

A motion prevailed that a committee be appointed to wait on R B Little, esq. to inform him of his nomination, and to invite him to address the Convention.

Mr. Little thanked the Convention for the honor conferred. Made a few pleasant allusions to the Republican nominee, and closed by inviting all to stand by the ticket, State and County, and that success will crown their efforts. He was followed by a few remarks by E. B. Hawley, after which the Convention adjourned *sine die.*

Gently as the evening zephyr
Floats along the murmuring main,
Hath our angel mother left us,
Freed from every earthly pain.

Be it ours one day to meet her,
When this life's stern toils are o'er,
Be it ours in Heaven to greet her,
There to live forever more.

Centaur Liniment.

There is no pain which the Centaur Liniment will not relieve, no swelling they will not subdue, and no lameness which they will not cure. This is strong language, but it is true. They have produced more cures of rheumatism, neuralgia, lock-jaw, palsy, spraining, swellings, caked breasts, scalds, burns, salt rheum, ear-ache, &c., upon the human frame, and of strains, spavin, galls, etc., upon animals in one year than have all other patented combined since the world began. They are counter-irritant, all-healing pain relievers. Cripples throw away the crutches, the lame walk, poisonous bites are rendered harmless, and the wounded are healed without a scar. The recipe is published around each bottle. They cost more money and sold before, because they do just what they pretend to do. Those who now suffer from rheumatism, pain, or swelling deserve to suffer if they will not use Centaur Liniment, white wrapper. More than 1000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running tumors, etc., have been received. We will send a circular containing certificates, the recipe, etc., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for spavined or sweenied horses and mules, or for screw-worms in sheep. Stock-owners should be without them. White wrapper family size. Yellow wrapper for animals. Sold by all Druggists. Price 50 cents per bottle; large bottles, $1.00. S. N. Hoag & Co., 53 Broadway, New York.
