Woman's Temperance prayer meeting at the residence of Mrs. Fanny Lathrop, Friday at 3" o'clock p. m.

The public are invited to attend an Oyster Supper, at. Firemen's Hall, on Friday evening Nov. 26th, for the benefit of Rough & Ready Fire Co., No. 1. We have a court that is equal to the Yah-

kee's watch. He said his watch could crack oil an hour in fifteen minutes, and we have a week's court cracked off in a day and a half. The young men's prayer-meeting will be held next Sabbath at 4 p. m., in the chapel of the Presbyterian church. These meetings are rapidly increasing in interest. Let all the young men gather at the next and fill the house. Mr. O. G. Gilbert, of Saratoga Springs, will

lecture again in the Baptist church, on Friday eve, Nov. 26th, by request of many citizens .-Subject-"The Fifteenth Amendment, and his scape from Slavery, with many others." He will also sing a number of his jubilee songs:dmission 15 cents.

Bishop Howe visited this parish on Thursay last and delivered a very impressive sermon at. St. Paul's church in the evening, to a large audience. A class of seven presented themselves in the chancel to whom the rite of confirmation was duly administered. The Bishop's charge to the newly made "children of the church" was exceedingly wholesome.

Quarterly Hecting Services at the M. E. burch.-By the request of Rev. I. T. Walker, P. E., the Quarterly meeting services which were advertised for one week from next Sabbath, will be next Sabbath instead. The order Anburn's Dark Cellof services will be. Official meeting, Saturday, at 2 r. m. Preaching Saturday evening and Sabbath morning by Rev. I. T. Walker. Love Feast Sabbath morning at 9:30.

The following simple precaution is suggested by an exchange: In retiring for the night spread newspapers loosely upon the stairways and in front of the doorways and windows .-The noise produced at the dead of night by treading on crackling newspapers, or attempting to remove them from the pathway, be the arglar ever so stealthy and expert, is sufficient to give almost any sleeper notice of the presence and whereabouts of the midnight foe. Mr. Alfred Jones, only surviving brother of Mrs. Fanny Lathrop, of our borough, and also nother of the late Mr. Bela Jones, of Lawsville, is spending a little time with his friends in Montrose and vicinity. Mr. Jones has been residing id Windsor, N. Y., for some years past. He will be remembered by many of our cititens in this county. Death of an Editor. Frank T. Scudder, founder of the Wayerly Enterprise, and its editor until within the past year, died at his residence in Waverly on Sunday morning, Nov. 14th, aged 28 years. Sad Mistake.

One dark night, not long ago, a burglar en ered a private residence. On ascending one flight of stairs he observed a light in a chamber and while deliberating what to do, a large womun descended the stairs, seized him by the throat, pushed him down through the hall, and forced him iato the street before he had time to think. "Heroic repulse by a woman" was the way the story was told the next day. But when friends called and congratulated her upon her courage, she exclaimed: "Good grahas the merit of antiquity in its favor, if no cious! I didn't know it was a burglar! Remember the Poor. Winter is almost upon us, and it is about time to make provision for the poor. The sufferings of many were relieved, last winter, by prompt action on the part of the humane and haritably disposed.

Many worthy people, with large families, and o employment, will again be thrown upon the charity of the world the coming winter, and we trust their appeals for aid will not be made n vain. An exchange paper justly remarks : Probably no money is spent more heartily and brings so large a revenue of pleasure as that which is given to relieve suffering and sorrow. Lamp Explosions.

All explosions of petrolem or kerosene of amps are caused by the vapor or gas that collects in the space above the oil. When full of oil of course a lamp contains no gas, but immediately on lighting the lamps, consumption of oil begins, soon leaving a space for gas, wnich commences to form as the lamp warms up, and after lurning a short time, sufficient gas will accumulate to form an explosion. The gas in a lamp will explode only when ignited. In this respect it is like gunpowder. Cheap or inferior oil is always the most dangerous. The flame is communicated to the gas in the

ollowing manner: The wick tube in all lamp burners is made larger than the wick which is to pass through tightly in the burner; on the contrary, it is es sential that it move up and down with perfect ease. In this way it is unavoidable that space in the tube is left along the sides of the wick sufficient for the flame from the purper to pass down into the lamp and explode the gas. Many things may occur to cause the flame pass down the wick and explode the

MR. EDITOR : Leaving this city with a par ty of ladies and gentleman at 2:15 p. m., by the Lehigh Valley Rail Road, we arrived at Tunkhannock after an hour's ride, and after taking a stroll in the town we embarked on what is called "the little road" or narrow guage, destina tion Montrose, at which place we arrived after a ride of about two hours, and had it not been having listened with real pleasure; and, as we for the miserable depot accommodations at the termination of the road, our recollections of tures delivered in our place by the the Rev. the ride would have been very agreeable, but Gilber: S. Bailey, D. However, after groping about in the dark, we found carriages in waiting for us and being helped off the platform (which is about four feet high without steps) we were soon comfortably quartered at the Tarbell House, and enjoyed one of those excellent suppers which "mine host" knows so well how to get up. But the grand attraction of our visit came off the following morning at which time we met at the house of Leonard Scarle esq., to witness the marriage ceremony of his accomplished daughter, Hettie, to one of our most worthy townsmen, Mr. Wm.M.Miller. the ceremony being performed by Rev. Mr.

The bride being beautifully attired looked ovely as she stood directly under the exquisite marriage bell. After the ceremony, we repaired to the dining hall, and here the liberallty of the host was exemplified by a profusion of the choicest viands which were served in an elegant and abundant manner. The tables were literally loaded with good things for the inner man and choice flowers in great abundance.-The bridal gifts were elegant, consisting of a large variety of silver ware, check engrayings, statuary, etc., comprising the useful as well as ornamental. My space will not allow me to give them in detail. After partaking of the strength give them in detail. After partaking of the bounties spread before us so lavishly, we bid adieu to our hosts and started homeward with pleasant recollections of our delightful visit and the hospitable reception given us by the root of the matter has not been reached, except | many friends it was our pleasure to meet in mond. Commissioners' Clerkship. The appointment of Commissioners' Clerk has been a subject matter at issue this court, outside of the court room if not inside, and it has been a matter of great agitation to the minds of the "broken Court House Ring." We are informed that Senator Watson, who is now endeavoring to outdo the Reformers in retrenchment of expenses, by reducing the salaries of other people, has not only "plenty of young men who will do the Trensury business for \$400," but he also has a law student who will do up the Commissioners' clerkship in a "conscientious scruples" manner for \$400, also It bothers "the boys" a little to know why his "constitution" has so changed in this particular since election, when there has been no visible amendment in his own action. The "broken ring" however, have simme red down the whole matter of Commissioners' Clerk and announced that there are only two persons living, either in or out of this county, who are competent to "fix up" the new Commissioners and "break than any office in this or neighboring countie them in." and those are Wm. A. Crossmon esq: and Amos Nichols. It is reported that Mr. Crossmon will take the office, if necessary, at

\$500 salary, but Mr. Nichol's services are considered by him worth \$800. We give this information from the best authority we have, outside of the Commissioners' office. It is a sad commentary upon our county if we have but two persons who are able to fix

this thing up and it is high time we had a few students preparing under them, to graduate, so that if Providence should "shuffle off the coil" our county business could proceed. We leave this subject before the people of this county for their early and earnest consideration deeming it one of vital importance to them. We have simply this to say for ourself, on the Commissioners' clerkship. The Commis-

sloners' office of this county is ostensibly in the hands of the Republican party, so far as majority rule, is concerned, and the appointment of a clerk is wholly under their control. Therefore the proper action for Mr. Ryan, the Democratic Commissioner, is clearly apparent.

The Democracy (not any candidate) laid down a platform of principles which is neither "sounding brass nor a tinkling cymbal," but means just what it says, and no candidate, who accepted and was elected under it, can deviate one iots from carrying it out to the letter in particular detail and for one moment bind the party by his action. For any other course he will receive the same and more censure, than if he were of the opposition party, for there is just as much need of a reform in the Ring party who have robbed the people of this county of their votes by clap-trap resolutions, as there is in any other case. This has been the cause that has produced the other effects, by giving. the opportunity

The Democracy said and still say that \$500 is sufficient pay for the duties of Commissioners' Clerk and better pay than \$390 was during the it. It would not do to have the wick work. Years before we had any "five mill jail tax." and If that tax has caused any arduous duties in the expenditure of it, it can and ought to be at once removed from the shoulders of the tax. payers. What Mr. Ryan, the Democratic Commissioner, has to do, is simply this. He should at once present a competent man for the office of Commissioners' Cierk and at the salary of \$500, and there his action should at once cease The majority are responsible in the matter and of course will control it and should be most mantel and a slight puff of air from the open | emphatically allowed to do so. Mr. Ryan is first responsible to the people of this county as Ladies and Childs S a public servant, and secondly to those, who, 2. A lamp may be taken up quickly from a by their votes, elected him, and his action will be critically observed and we have the fullest confidence that he will be found faithful to the best interests of both.

POSITIVE RESULTS.—There are numerous remedies that cure sometimes and become trusted as useful, but none have ever proved so effectual—cured so many and such remarkable cases—as Dr. Ayer's medicines.
The Cherry Pectoral has restored great num bers of patients who were believed to be hope-lessly affected with consumption.

Ague Cure breaks up chills and fever quick-

Ayer's Compound Extract of Sarsaparilla radicates scrofula and impurities of the blood cleanses the system and restores it to vigorous health. By its timely use many troublesome disorders that cause a decline of health are expelled or cured.
