DEMOCRAT FOR 1876.

We desire to express our obligations for the large and increased patronage the DEMOCRAT has received for the year 1875. We believe it has not been without its good effects upon the best interests of the county as well as upon its proprietors. Knowing that an increase of its circulation will bring a more than corresponding increase of its influence, we propose to increase its circulation, together with the other business in its interest. This costs us money and thinking that there may be others who would be glad to extend its circulation in their neighborhood, and also receive a remuneration for so doing, we will make the following proposition: To any one collecting a list of subscribers and sending the cash with the names we will allow them 25 cents for each such subscriber. This is 10% per cent. or about what it will cost to do by an agent. We do this in the interest of our subscribers. The larger our patronage the better we can afford to make our paper. We know that none of our subscribers will feel at all aggrieved by the above proposition for we have had many of them, who have not only paid for their own paper promptly, but who have subscribed and sent to their friends and those have aided us in making such improvements as we have since we took charge of the paper. As we have said before, it is not only us, but all others of our political faith that are equally interested in the success of the DEMOCRAT, and we are free to acknowledge the many favors we have received. We hope we have merited the continuance of the same good will in the future, and if our friends will assist us in still further extending our influence and power for good, we hope to merit the same good will in a correspondingly increased degree. HAWLEY & CRUES.

Justices About Town. The thermometer fell to 15 degrees below zero on Sunday night last. Woman's Temperance Prayer-meeting at the M. E. church, Thursday at 2 p. m.

Christmas services at St. Paul's church on Christmas day at 10 1/2 o'clock a. m. Remember the Sunday School Christmas Tree in the evening, services to commence at 6 o'clock, P. m.

We call particular attention to a poem in our "Home Reading" column entitled "The Mother's Welcome," and also a prose essay "Land Ahead!" both of which are communicated, the authors' names appearing.

J. B. McCollum esq. was called to Honolula last week to try a very important case between Messrs. Nichols & Evans vs. the Delaware and Hudson Canal Company, before Judge Dreher. The matter at issue was damage to mill property caused by the retention of water in the company's reservoirs. It will undoubtedly go to the Supreme Court as there were some new and unsettled legal points raised.

Three genuine European sparrows have taken up their abode in our borough, one male and two females. Whether a plurality of females indicates that their religion is Mormon or not we cannot say, but we hope our citizens will give them a cordial greeting, protection and support when they appear in religion or politics. In the large cities they have been imported at great expense to secure their services in the destruction of tree worms and other vermin. It is delightful during the absence of other birds in our bleak winters, to have the company of these bluish little fellows.

The ladies of the M. E. church will provide for the Christmas dinner in the traps of the church, Saturday next, Dec. 27th. Dinner will be in readiness at 1 o'clock, after which hour they will be very happy to serve any couple to all the good things that can be managed to dispose of, taking in return their spare dollar or any lady "help" for 50 cents. The receipts will be appropriated in liquidating debts incurred in furnishing the church. During the evening worship will be served to all desiring. Also a Christmas Tree will be uncovered and its fruits delivered to the various assignees some time during the evening.

Uncle Daniel Drew after he had subscribed \$200,000 toward founding a new Methodist college remarked to a friend one day, "Well, er I didn't know where the money was coming from. I was worried over it, and so made it a subject of prayer. After fasting and praying over the matter for one day I went down on Wall street, and in less than twenty-four hours I skinned those fellows out of \$200,000."

If our church goes "caritative broke" you'll only drop into the collection box, and then hand out the poor, unfortunate whom they have "skinned" by concerted serious extortion, pray, until free in our churches and ministers' salaries will be increased. Let us, Daniel Drew like, make this a subject of prayer. The Ladies' Temperance Prayer-meeting will take up this subject also, just for a change.

Mr. Charles Cooper, a young man from Luzerne county, is serving an apprenticeship in the barber's trade at the shop of Louis Knoll, our first-class German Barber. We have watched young Cooper with a good deal of interest and can say without fear of contradiction, that no young man in our town has a better reputation for what goes to make up the true character of youth, than he has. Some young men are apt to look down with "horror" upon some mean trade and seek other more "honorable" employment or profession, thinking it will cover the chances of such a young man as Cooper, who seeks not for a business to cloak him but makes the business he is in honorable by his good action. He spends all spare time from his trade in manufacturing very nice buttons, which he sells very cheap and any one who wants a holiday gift of that kind will do well to patronize him.

Opium Meeting. Thomas Grange, No. 7, will meet at Montrose, in Hall of St. Stephens Church, No. 74, on Tuesday, January 4th, 1876, 10 o'clock a. m. A general attendance of all Patrons is requested. The 5th degree will be conferred on all who are eligible at 7 o'clock p. m.

V. E. Finletie, Lecturer of State Grange will deliver a public lecture at the Court House, at 3 o'clock p. m. He will also deliver lectures in different parts of the county, time and place will be given next week.

L. T. Bingham. J. R. Lyons, Secretary.

Real Estate Change. Mr. M. V. Blase, formerly of Lathrop township, but for the last year of New Milford, has purchased the farm belonging to the estate of Myron M. Mott, late of Bridgewater. Consideration \$4,800.

Eclipse of Sun and Moon. There will be two eclipses of the sun and two of the moon in 1876. First a partial eclipse of the moon, March 10th. Second an annular eclipse of the sun, March 28th, the moon concealing the sun's disk except a ring around the border. Third, a partial eclipse of the moon, September 8th, not visible in the United States. Fourth, a partial eclipse of the sun, in visible in the United States, but visible in the South Pacific and Atlantic oceans.

The New Year Law. The legislature last winter passed a law limiting the time for shooting deer in this state to two months—from the first of September to the first of December. The greatest destruction of deer has heretofore taken place in the last month of the year, when the snow on the ground has afforded hunters fine opportunities for successfully pursuing the game. The committee in the state in which deer abundance have been visited during the month not only by Pennsylvania, sported but by many others from Ohio, New York and other states. The new law, according to an Elk county hunter, and says to that and adjoining counties hundreds of deer will season, and it kept enforced a few years; will make the extensive forests teem with the game. The same individual records the following:

Six years ago we had in our woods the following elk in the state of Pennsylvania: In the month of December, the hunter had hunted for two winters, but had escaped the hunter's rifle. I saw the fresh foot-prints of these noble deer in the summer. One old bull had a track as large as a two year old steer. But a deer one fell in the following March, and after a light night of freezing weather, the hunter went out with his rifle. Then came half a dozen worthless half broods, from the Indian reservation in the state of New York, with dogs and snow shoes. They found the poor half starved beasts yarded in the deep snow. The men and dogs could run on the crust but the elk, trying to escape broke through to the woods, and in this way soon became an easy prey. They took out one (a calf) alive, the rest they killed for their hides, taking out little of the meat. Thus perished the last of a noble race—the last elk I believe in the state of Pennsylvania.

From Franklin. A Merry Christmas! Mr. Levi Dean is lying very low with sciatic rheumatism.

In dancing always put the best foot forward. Mr. Leslie Foot has recently been erecting a flouring mill attached to his saw mill.

Mr. T. L. Merriman, one of our oldest inhabitants, was found on Friday night last in a critical condition from bleeding at the nose. But little hope is entertained of his recovery.

From Franklin, Dec. 18, 1875. Home Burns. The residence of Michael McGovern, of Middletown, Pa., was lately destroyed by fire on Monday night, Dec. 13th. Mr. McGovern was absent from home at that time, his wife and four children being the only occupants of the building. One of the children was sick and his wife got up to attend to the child, but a fire and after she had returned to bed a short time, she was awakened by the smell of burning. She went up and opened the kitchen door and the flames burst into her face. She seized one of the children and with the other three escaped from the house barely with their night clothes. The mother returned but was only able to save her own clothing, and what she did save, which was all that was saved. What the loss was we are not informed, but there was an insurance on the property of \$400.

Old "Probationers" Oath. On October last, Prof. Ticknor, Illinois, made the following profecition and it has been so nearly verified by experience since that time, we publish it and hope our readers will cut it out and watch its prophecies ere long.

"The coming winter certainly will not be an agreeable one. First, cold, really so, will set in about the 28th of November and continue for nearly a week. It will be warmer about the 5th of December and then cold for another week. It will be warmer from the 13th to the 21st and then cold again. About the 29th, it will be warm and about the 30th, cold again, and will continue to alternate in this way until the 15th of January. After the 15th, it will be cold for a few days followed by cold weather till the close of the month. The month of February will be very variable, generally warm, but short spells of intensely cold weather."

From Anahra and Elizabeth. Shooting match at Auburn 4 corners last Saturday.

Thursday evening, Dec. 9th, Benton James addressed the people of this place on the subject of Temperance. He was well received.

Monday evening at Auburn 4 corners, Thursday evening, Dec. 3d, Rev. S. Barner delivered an address and held the pledge.

George Linnberry died at Auburn, Dec. 7th, of dysentery, aged nearly 13 years.

Another rare flower has been transplanted to bloom in Heavenly bowers, for he was ready.

Rodolph Schönmöller Davis, of Auburn, Illinois, died 6th, after a prolonged illness from kidney disease. He was well known.

Robert Alger, son of Lucy and Albert Alger, deceased, died Tuesday, Dec. 7th, aged 2 years and 8 months. His funeral services were attended at the residence of Floyd Kellogg, of Auburn, where four generations have been united during the past year. "Little Tom," who was his best-known playmate, was present with old and young and although dead yet he speaks.

BETTIE BLUE BROOKING. Auburn, Dec. 18, 1875.

From Luzerne County. From the Scranton City Journal: There was a large audience at the Opera House on Wednesday evening, to hear the lecture of Hon. Charles Colfax on the "Character of Abraham Lincoln."

Rev. R. B. Duane, several years ago rector of the Episcopal church at Honolula, died of pneumonia at Bergen Point, N. J., on Sunday, Dec. 17th, at the age of 82 years.

We regret to announce the failure of Wm. Stewart, groceryman of this city. He filed a voluntary petition in bankruptcy last week.

An old man named Corby was killed at the Diamond coal breaker on Monday by being caught in the ponderous machinery. It was the first time since the breaker was put in operation that anyone has been killed there.

The large new breaker at the Park Coal Company, near the Hyde Park Bridge, is completed.

The trial of Walter Whitaker for the murder of Frank Doan, in this city last summer, took place on Thursday. After the trial had progressed for some time, the prisoner withdrew his plea of not guilty and found guilty of murder in the second degree. Judge Harding sentenced him to imprisonment in the penitentiary for eleven years and ten months.

A fire damp explosion took place at Shaft No. 12 of the Pennsylvania Coal Company's mines at Pleasant Valley on Monday. The explosion was caused by a miner named James McKinsky entering with a naked lamp before the foul air had been expelled from his chamber. McKinsky was instantly killed, and Hubert Oliver, the fire boss, was seriously injured.

School commenced December 6th, and 36 scholars names were registered the first day.

The funeral of Almon Robbins was attended in this place Dec. 8th. The consolation of the Gospel was administered by W. C. Fisk from John 11 chapter and 25 verse.

The church at Millbury was densely crowded on Thursday last evening at the funeral of Lizzie, wife of Mr. Woodside. Elder Gates delivered the funeral address.

After dwelling in our little hamlet for three years, Wm. Bennett and family have moved to Olive Branch, Ulster county, N. Y. We wish them so and returns. This is called newspaper patronage.

It will be seen from the above that while certain kinds of patronage are the very life of the newspaper, there are other kinds more fatal to its health and circulation than the coils of a poisonous serpent to the luckless prey he patronizes.

Wages of Teachers. We are not a woman's suffrage advocate, for we are not believed, and still believe that if the Great Creator had not deemed that the world needed two persons to move in different spheres in life, He would never have taken "with" it in Adam to complete the grand scheme of creation. But we do believe in woman's rights in the proper acceptance of the term as well as the rights of all other persons.

The greatest inducement for directing to employ them is because they can be made to take less wages, and school boards consider that they are worthy of the greatest commendation for practicing such rigid economy. One of the things is the true result of this action: It is the great incompetency to do justice to the children who are to be taught, and the majority of cases we are inclined to think the fault is in the case.

From New York. The legislature last winter passed a law limiting the time for shooting deer in this state to two months—from the first of September to the first of December. The greatest destruction of deer has heretofore taken place in the last month of the year, when the snow on the ground has afforded hunters fine opportunities for successfully pursuing the game.
