We desire to express our obligations for the large and increased patronage the DEMOCRAT has received for the year 1875. We believe it has not been without its good effects upon the best interests of the county as well as upon its mention of the silver grade, were castors, proprietors. Knowing that an increase of its spoons, fruit knives, napkin riogs, nut crackers circulation will bring a more than correspond ing increase of its influence, we propose to send out a canvasser who will devote his time in increasing its subscribers, together with oth- several classes, and the classes from their teacher business in its interest. This costs us money and thinking that there may be others who would be glad to extend its circulation in their neighborhood, and also receive a remuneration for so doing, we will make the following propo- of the evening was the gifts of comfort presentsition: To any one collecting a list of sub- ed to Mr. Huff and his family, including a sack scribers and sending the cash with the names we will allow them 25 cents for each such subscriber. This is 1214 per cent, or about what it will cost to do it by an agent. We do this in the interest of ourselves and also in the interest of our subscribers. The larger our patronage the better we can afford to make our 1st, 1775," and dated at Norwick, Connec paper. We know that none of our subscribers will stel at all aggrieved by the above proposition for we have had many of them, who have not only paid for their own paper promptly. but who have subscribed and sent it to their friends and thus have aided us in making such improvements as we have since we took charge of the paper. As we have said before, it is not only us, but all others of our political faith that are equally interested in the success of the DEMOCRAT, and we are free to acknowledge the many favors we have received. We hope we have merited the continuance of the same good will in the future, and if our triends will assist us in still farther extending our influence and power for good, we hope to merit the same good will in a correspondingly increased degree. about 1800: B. O. Camp, esq., of our borough de-camped astoweck while suffering in single-blessedness, but he has en camped this week in the sweet bliss of Hymeneal bands. Miss Ella L. Bliss, of Waverly, Pa., has taken full charge of the

camp and recruits are now in order. Some one ought to secure one of those \$20 'High toned" street lamns before the last one s smushed in pieces, and carefully preserve it ask a memento for the next generation to remember our "city fathers" by. This generation can remember them without any such token for they have been presented with a \$600 checkerboard of private walks upon the Public Square, which can be seen and remembered by them, or will be when the taxes are collected to pay

for them. The "week of Prayer," which has been observed for a number of years by the Christian churches of the world in response to the suggestions of the "Evangelical Alliance," will be observed by the Methodist Episcopal, Presbyterian and Baptist churches of this Borough in the/following order: Union meetings will be held each atternoon commencing at 23% o'clock taking the churcues in succession, holding the first next Monday afternoon in the M.E.church Monday evening Union Prayer and Confer ence meeting in the Presbyterian church. The

remaining evenings of the week each church will hold service in their respective churches. The election of President and Directors of the Montrose Railway Company will take place Monday Jan. 10, 1876. We have criticised the present management for not fulfilling their contract with our citizens when their money was pledged, by completing the road to its termions and for leaving it in a locality detrimental to the best interests of the company as well as the town. We are waiting for "a change" on January 10th, either in officials or administration and we will hold our "vials of wrath" until subsequent events develop. We have the interest of the Railway Company in view as

well as that of our citizens and have always

acted from this stand point. Do not laugh at that drunken man reeling through the street. However ludicrous the sight may be, just pause and think. He is going home to some tender heart that will throb with intense agony; some doting mother perhaps, who will grieve over the downfall of him who was once her sinless boy; or it may be a lond wite, whose hear; will almost burst with grief as she views the destruction of her idol; or may be a loving sister, who will shed bitter tears over the degradation of her brother, shorn of his maniness and self-respect. Rather drop a tear in silent symplathy with those hearts so keenly sensible and tender, yet so proud and loyal that they cannot accept sympathy tendered them either in word, look or acf, although it might fall upon their crushed and wounded

hearts as retrestly as the summer dew upon the withering.

Christmas Services were held at St. Paul's hurch at the usual bour. The church was very tastefully and appropriately trimmed with vergreen wreaths and Bible precepts. The chancel was so arranged as to be a marked feainre in the display. We had an excellent sermon by the Rector, Rev. E. A. Warriner, which? s not uncommon from him, as such is the general rule and not the exception. We were also very much inspired in our Christmas worsbid y the introduction of new music to the "Te Deum" by the choir. Our choir consists of S. Tracy Sweet tenor, E. R. Austin and Fred Lyon, bass, Miss Ida Helme, soprano, and Miss Ella Chapman, alto, and Wm. H. Cooper, orchoir in a small fown like ours, are very irksome, indeed, and the choir of St. Paul's

The passengers on a train on the L. & b.roa esterday were considerably startled by the intendent, an ice pitcher, waiter and two gobthrilling situation of a young woman upon the track, a little way from Pittston station. It ented with nice tokens of regard from their appears that she was walking along the road; and by some mishap had caught her foot be ween the two rails. This, in the presence o embered. The organist of the church also was remembered by a token of appreciation for her an approaching train, made her position most alarming. She grew white with terror, pulled at her foot with all her might and struggled to ten. But one of the most praiseworthy events free herself from what seemed to her a fearful fate. At length as the train approached nearer she managed by a superhuman effort to tear acr foot away from between the rails, leaving the shoe that had been on it behind, and hastening away in sheer exhaustion from the spot.-We could not learn her name, but those who witnessed the incident will long remember that woman's agony as slie seemed to stare death in the face. -- Scranton Republican.

Smoking in the Barn.

"No smoking" is posted in the most dece actories. It ought to be posted in every barn. There is not much difference between having a horse thief around the stables, and a man cleaning off horses with a pipe in his mouth; and there is no hired man much meaner than the one who, when his employer comes around, slips his pipe into his pocket, or holds his hand over it, as if it were a little bird. All such fellows should be paid off, started off, and kept off. As for the farmer himself going into the barn with a pipe in his mouth, no complaint can be made; but it his establishment burns up, nobody should cry, unless it be the wife and children. Lightning and incendiaries, and spontaneous combined do not cause as many barns to be burned as the pipe; and generally one good horse goes also. It would be much better if the smoker would go up with the smoke, and have smoke enough

The annual report of R. H. Thomas, secretary of the State Grange of Patrons of Husbandry, shows that the order is growing rapidly. As to the business done he says the agent during the past year, since April last, transacted business for the order to the amount of \$131posing of tramps, and what legislation is nece 837, and saved to the order fully fifteen per cent., agg. egating at least \$20,000, whilst the entire expense of the agency is within \$2,700, or about two per cent, of the business transact-

> He also mentions that more business has been transacted directly by the patrons with manufacturers and whole-sale dealers than through the agency, and that, as an organization, the operations may safely be estimated at \$400,000 during the present year, with a net saving of from \$75,000 to \$100,000. At the time of meeting last year the granges in the state numbered four hundred and forty; now six hundred and thirty, showing an increase of one hundred and ninety, whilst only fourteen have ceased to exist by consolidation or surrender of charters. The total number of members in the state on the 29th of September last was 25,000 and by counting or estimating additions during the present quarter, not yet offlicially reported, the membership cannot be less than 30,000 to-day. For the quarter ending December 81, 1874, three hundred and seventyeight granges reported and paid dues; for the second, ending March 31, only ten out of four hundred and twenty-seven were delinquent; for the third quarter, seventeen out of five hundred and eight tailed to report, and sixty nine out of five hundred and sixty-nine have not yet reported for the last quarter ending September 30. A minute statement of receipts and expenditures foot up-receipts for the year \$8,812 85, and disbursements, \$7,916, leaving a palance on hand of \$896 35. To this is added \$710, balance on former account for 1874. The Pomona Granges are all in good working condition. Nineteen were organized during the present year.
