HEADQUARTERS! Fisk's Patent Metallic Burial Cases.

FOR ordinary interments, depositing in vaults and transportation they have no rival. They are made of the most imperishable materials, and are enamelled inside and out to prevent rust and the exterior has a FINE ROSEWOOD FINISH. When properly cemented, the remains of the deceased, are free from impregnation of water, or depositions of vermin. They may without offensive odor be kept as long as desired—thus obviating the necessity of hasty burials. Their long and successful use, and the approbation given them renders unnecessary any extended notice of their valuable advantages.

AYER'S CHERRY PECTORAL

The peculiar taste or infection which we call SCROFULA lurks in the constitutions of multitudes of men. If either produce or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes impure, it is incumbent to sustain the vital forces in their vigorous action, and to clear the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending from parents to children until the third and fourth generations. Indeed, it seems to be the rod of him who says, "I will visit the iniquities of the fathers upon their children." The disease it originates takes various names, according to the organs it attacks. In the lungs, SCROFULA produces Tubercles, and finally Consumption, in the glands, swellings which suppurate and become mucous scrofula; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptions and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these various diseases disappear. With feebly fed, or corrupted blood, you cannot have healthy skin that "the face of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compounded from the most efficient antidotes that medical science has discovered for this afflicting disorder, and for the cure of the disorders it entails. That it is superior to any other remedy yet devised, is known by all who have given it a trial. That it does contain a more highly extraordinary ingredient than any other remedy, is proved by the fact that it has cured a large number of patients who have been afflicted with the following diseases: King's Evil, or Glandular Swelling; Tumors, Eruptions, Pimples, Blisters and Sores, Erysipelas, Itch or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Disease, Yaws, and all other diseases which arise from impurity of the blood. Many reports of individuals cured may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cures are particularly noted from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Sarsaparilla depresses the vital energies, and thus leaves its victims for more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten and does greatly shorten, the average duration of human life. The vast importance of those circumstances which lead us to spend years in perfecting a remedy, which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which would be the basis of Sarsaparilla in its ordinary power. By its aid you may protect yourself from the suffering and danger of those disorders. Purge out the fever corruption that has taken hold in the blood, purge out the causes of disease, and vigorous health will follow. By its purgative virtues this remedy stimulates the vital functions, and thus expels the impurities which lurk within the system or burst out on any part of it.

We know the public have been supplied by many companies with Sarsaparilla, but they will neither do good nor do mischief; but they will neither be desired nor dispensed in this. Its virtues have been proven by abundant trial, and there remains no question of its possessing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been to-day the people, and is far more effective than any other which has ever been available to them.

AYER'S CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that no more need be said to assure the public that its quality is unequalled. It has been tried by all who are up to the best it ever has been, and that it may be relied on to do all it has ever done.
