INVALIDS IRON IN THE BLOOD.

It is well known to the medical profession that IRON is the vital Principle of Life Elemenof the blood. This is derived chiefly from the food we est; but if the food is not properly digested, or if, from any cause winterer, the necessary quantity of iron is not taken into the circulation, or becomes reduced the whole sys-tem suffers. The bad blood will irritate the heart, will clog up the lungs, will stupify the brain, will opstruct the liver, and will send
