of the blood, wherein competent to sustain the vital forces in their vigorous action, and the vital forces in their vigorous action, and leaves the system to fall into disorder and

decay. The scrofulous contamination is variously caused by moreurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its The venereal internal. Whatever be as origin, it is hereditary in the constitution, descending "from purchts to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take warions numer, according to the organs it areas in the basis of the organs it attacks. In the lungs, Scrofnia produces tubercles, and finally Consumption; in the glands, swellings which support and be-come ulcerous sores; in the stomach and bowels, derangements which produce indi-gestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., parification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flosh" he ithy, you cannot have scrofulous disease.

Ayer's Sarsaparilla is compaunded from the most effectial anti-dates that medical science has discovered for this afflicting distemper, and for the cure of the disorders it ontails. That it is far supe-rior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues trily extraordinary in their effect upon this thas of complaints, is indisputably proven by the great multitade of publicly known and remarkable cures it has made of the following discases: King's Evil, or Glandular Swellings, Tumore, Eruptions, Pimples, Blotches and Sorés, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scala Head, Coughs from tuberculous diposits in the lungs, White Swellings; Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Aven's Avente is Access view which is formished to the dramests for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those enses are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scredula depresses the yital energies, and thus bayes its victims for-more subject to disease and its fatal results thail are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of loman life. The yast importance of these considerations has bed us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of Axin's SAUSATANTAS, although it is composed of the best Satisfyramita, atthough it is composed of ingredients, some of which exceed the best of second second second second second second rid you may protect yourself from the suffer-ing and danger of these disorders.
