IRON IN THE BLOOD. IRON IN THE BLOOD. It is well known to the medical profession that IRON is the vital Principle of Life Elemen-of the blood. This is derived chiefly from the food we eat that 'I the food is not properly di-gested, or if, from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole sys-tem suffers. The bad blood will irritate the heart, will dog up the lungs, will stuppfy the brain, will opstruct the liver, and will send its disease producing elements to all perfs of the system, and every one will suffer in what-ever argon may be predisposed to disease.

this. Its victues have been proven by abun-dant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from my other which has been before the people, and is far more effeetnal than any other which has ever been svailable to them.

Tun peculiar mint of infection which we

call SCROFTLA lurks in the constitutions of

multitudes of men. It either produces or in produced by an en-fe-bled, vitiated state

of the blood, wherein that fluid becomes in-

I the vital forces in their

vigorous action, and leaves the system to full into disorder and

decay. The scrofelous contamination is va-

riously caused by moreurial disease, low living, disordered digestion from unhealthy food, impure air, fifth and fifthy babits,

the depressing vices, and, above all, by the venereal infection. Whatever be its

descending "from parents to children unto the third and fourth generation;" indeed, it recens to be the rod of Him who says, "I will visit the iniquities of the fathers upon their

children." The diseases it originates take votious names, according to the organs it attacks. In the bings, Serofula produces tubercles, and finally Consumptions in the glands, swellings which supporte and be-come uncoments in the strength of the

come ulcerous sores; in the stomach and bowels, derangements which produce indi-

gestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections.

These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the bloot. Purify the blood, and

there dangerous distemptrs leave you. With feedble, foul, or corrupted blood, you cannot have health, with that "life of the flesh" healthy, you cannot have service discusse.

Ayer's Sarsaparilla

is compounded from the most effectual acti-dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far supe-rior to any other remody yet devised, is

known by all who have given it a trial. That it does combine virtues truly extraordinary

in their effect upon this class of complaints.

is independent proven by the great multitude of publicly known and recarrhable curve it has made of the following diseases. King's Evil, or Glandular Swellings, Tumors,

Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire.

Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White

Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and indeed, the whole

series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in Ayen's American

At navae, which is furnished to the druggists

for gratuitons distribution, wherein may be

learned the directions for its use, and some of the remarkable chies which it has made when all other remedies had failed to afford relief. Those tases are purposely taken

from all sections of the country, in order that every reader may have acress to some one who can speak to bim of its benefits from

personal experience. Scrofula depresses the vital energies, and thus leaves its victime far

more subject to discuse and its fatal results than are lealthy constitutions. Hence it

tends to shorten, and does greatly shorten, the average duration of buman life. The

vast importance of these considerations' has

led us to spend years in perfecting a remedy which is adequate to its care. This we now

offer to the public under the name of Aven's

SATEATATILLA, although it is composed of ingredients, some of which exceed the best of Samajorida in alterative power. By its

and you may protect yourself from the suffer-ing and danger of these disorders. Purge-out the foul corruptions that rot and fester in the blood, purge out the causes of discrete, and vigorous health will follow. By its pecu-liar virtues this remedy stimulates the vitable

functions, and thus expels the distempers which lurk within the system or burst out

en any part of it. We know the public have been deceived by many compounds of *Seconorilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in

on any part of it.

France and

AYER'S

CHERRY PECTORAL, The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients in advanced stages

of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

Prepared by Dn. J. C. Aven & Co., Practical and Analytical Chemists; Lowell, Mass.
