

The Juniata Sentinel.

WEDNESDAY MORNING, March 28, 1866.
TOWN AND COUNTRY.

WM. M. HALTON, of Shippensburg, Pa., has been appointed Agent of the Maria Furnace, near Millerstown, Perry county, Pa.

We would refer our readers to the interesting report referring to the recent visit and proceedings of the McAlisterville Soldier's Orphan School at Harrisburg, to be found on our first page.

NOTICE TO SUBSCRIBERS.—As many of our subscribers are changing their places of residence, they will please give us notice so that we can forward the *SENTINEL* regularly to them.

THE rear of retiring March, the month of "winds, clouds and changing skies," marshals her hosts in more formidable array than her chosen troops of the advance. Judging from the extreme cold weather of the last few days.

ECLIPSE.—A total eclipse of the moon will take place on the night of March 30th. It will begin at five minutes past nine o'clock, and commence disappearing at fifty-one minutes past eleven. It will be visible throughout the United States.

IT is a noteworthy fact that nearly all our exchanges report, Republican majorities in their Local Elections. This augurs well for the success of General John W. Geary, the People's Candidate on the second Tuesday of October.

EVERY DAY we notice wagons loaded with household goods, &c., passing through our streets, which reminds us of the approaching first of April, the day of general settlement for the past year. Don't forget the poor Printer, for his labors are onerous.

ALTHOUGH shad have not made their appearance in this region of snakes, notwithstanding the approaching passage of a bill to their free ascent of the Susquehanna and its tributaries by the authorities of the State, yet our picnickers gentlemen are plying their nets for success in the absence of larger fish.

THE English are becoming seriously alarmed at the ravages of the rinderpest of cattle plague in England. Thousands are dying weekly. It has communicated itself to the sheep, thus proving that it is contagious. A day of thanksgiving and prayer has been appointed asking divine intercession.

BUILDINGS.—From present indications we are led to believe that there will be quite a number of new buildings erected in our borough this spring and summer. We notice that Daniel Farnesaker has made a commencement on Third street for the erection of a private dwelling house, and we hear of others that are about to follow his example.

DEATH WARRANTS.—Governor Curtis has issued warrants for the execution of Houser and Buser, the murderers of Miss Polly Paul, of Cambria county, and Christian Berger, the murderer of Miss Mary Watt, of Germantown. The warrants fix the execution of the two first on Friday, April 20th, and the latter on Friday, April 27th.

BUILDING ASSOCIATION.—The members of the Mifflintown Building Association are requested to pay to the Secretary, the amount subscribed by them on or before April 1st. Each member is expected to purchase a small Pass Book in which his account shall be kept. The books are still open to receive subscribers names, at the Secretary's office. By order of the Trustees.

A. H. WHIDMAN, Sec'y.

ATTENTION is directed to the Card of S. R. Notestine to be found in another column of this weeks issue. Mr. Notestine is one of those enterprising young men who are bound to command respect and patronage in whatever department of business he may be engaged. Since he has been acting land lord he has always been attentive and obliging, and we wish him success in his new location at the Juniata Hotel, Main Street, Mifflintown, Pa.

THE GENERAL FISH BILL passed the House some weeks ago by a decisive vote, whether it has passed the Senate we are unable to say. If it has not it will. It is a question after the bill becomes a Law whether the different companies obstructing the streams will quietly obey its provisions. It is thought by many that their vested rights cannot be taken from them, in which opinion we concur. However, we hope some compromise will be effected, that will remove all obstacles to the speedy opening of all the tributaries in the Susquehanna.

We would judge from the number of cards that have and are appearing in last and this week's issues of the *SENTINEL* from gentlemen whose names have been used in connection with the publication of a new paper, that the entire Union party in this country will understand the few individuals who are thus endeavoring to accomplish personal ends at the risk of disorganizing the party.

CHOLERA.—We learn from a number of our exchanges that the authorities of many of our cities and towns are taking every precaution against the cholera the coming summer. The boroughs of Mifflin and Patterson are in a very bad condition just now, and if there is any place better calculated for cholera than these two towns, we would not like to live in or near it. Both boroughs have recently elected new "town fathers," and we would like to see them take the matter in hand and order a general clean up, so that by the time the warm weather sets in our towns may present such a healthy appearance that the cholera would blush to stop with us.

OUR FRIEND of the *Democrat* calls for the name of the soldier whose name was published as an officer of the Johnson meeting in Perryville without his consent. We refer the *Democrat* to the list of soldiers names published in the report of the Geary meeting held in Perryville a short time since, and assure our friend that no gentleman whose name appears on that list has any sympathy with the party that aided its efforts to deprive the soldiers of the right of suffrage while in the army, or with Haister Clymer, the Democratic nominee for Governor, who voted NAY on the Resolution instructing our Senators and Congressmen to vote for the bill increasing the pay to those same soldiers.
