

A union of lakes, and a union of lands. A union no power shall sever; A union of hearts, and a union of hands, And the American Union forever!

MIFFLINTOWN. Wednesday Morning, May 16th, 1866

H. H. WILSON, Editor and Publisher

THE JUNIATA SENTINEL has the largest circulation of any paper published in this County. It is a paper, truly loyal, ably conducted, a first class Localist, and well worthy of the patronage of every loyal citizen in the County.

UNION REPUBLICAN STATE TICKET FOR GOVERNOR, MAJ. GEN. JOHN W. GEARY, OF CUMBERLAND COUNTY.

Remember that Hester Clymer voted against a joint resolution of our Legislature, asking Congress to increase the pay of the private soldiers and non-commissioned officers of the army. (See page 295 Legislative Record session 1861.) While you were battling for the Union he was exhausting his ingenuity in devising means to counteract the success of your arms.

CAMPAIGN PAPER.

As there are many persons in the county who are not subscribers to any newspaper, we have concluded to furnish the SENTINEL to all new subscribers through the coming political campaign at rates that will be within the reach of every man in the county. And we trust our friends in each district will go to work in good earnest and get up clubs. The people should understand the great questions that will be agitated in the approaching campaign, and thus be enabled to vote intelligently at the coming election. We will furnish the SENTINEL from the third week in April until the last week in October—by which time all the official returns will be published, at the following rates:

- Single copy.....80
Five copies.....3 50
Ten copies.....6 50
Fifteen copies.....9 00
Twenty copies.....11 50

A Memphis paper which says it wants to get rid of the "niggers" wishes they were "in hell." A bad place to send them, if Copperheads and rebels expect to get rid of them.

EDITORIAL AND NEWS ITEMS.

The Grand Jury of the United States Court at Norfolk on Thursday returned a true bill against Jeff. Davis for treason.

Alexander H. Stephens is expected back at Washington this week to counsel with his friends upon the reconstruction policy of the President, and the political course of the Democratic party, to which he is now devotedly attached.

There is much clamor in the Copperhead journals against the Report of the Committee on Reconstruction, whereof the sum and substance is this: "If the Rebels are not allowed to vote till 1870, how can a Copperhead be chosen President in 1868?" We really can't say.

It is stated that four of the officers of the Merchant's National Bank in Washington, which has just burst with rottenness, are officers of the Johnson National Club. They have satisfactorily demonstrated their capabilities for managing a bankrupt concern and cannot but have thereby won the confidence of their present employers.

The laws of the United States are openly defied in every Southern city where there are no Federal troops on duty to sustain the civil authority. In such of the rural Southern districts, from which the Federal troops have been withdrawn, the Union citizens are petitioning to have them returned as necessary to the safety of their lives and property.

The radical Union men of Maryland are to hold a Convention in Baltimore on the 5th of June. Maryland was prevented from joining the Confederate movement at the risk of much valuable life and treasure, and the returned rebels are now laboring to get possession of the State that they may be able to punish the Union men. This the radicals are determined to prevent, and therefore this convention has been called.

Rogers, a Copperhead Congressman from New Jersey, is in favor of paying the rebel debt, and declares it to be the duty of Congress to provide for its liquidation. Hester Clymer coincides with Rogers on many points of State policy, and we have seen nothing in his course to induce us to believe that he differs with the Jersey Copperhead on paying the rebel debt.

The Constitutional amendment, reported by the Committee on Reconstruction, which we published last week, was passed on Thursday last, in Congress by the decisive vote of 128 yeas to 37 nays. Even Mr. Raymond, of New York, voted for the bill. Every Union member of Congress deserves the thanks of the loyal people of the North, for their action in thus beginning the grand work of making "treason odious" and "traitors infamous."

The whole Copperhead and traitor press from Maine to Mexico calls upon Andrew Johnson to veto the bill admitting another free State into the Union, chiefly because it will add two to the Union column in the Senate of the United States; and the same Copperhead and traitor press denounces Congress because it will not at once agree to allow eleven States, after trying to destroy the Republic, immediate representation in the councils of the nation, in the persons of rebel leaders or men elected under their dictation.

The Harrisburg Telegraph says that the Democrats are so hard up for electioneering documents, that they have come up a small card, designed we presume, by the Democratic State Central Committee, representing the two political gubernatorial platforms. Clymer represents the white man, and Geary represents the negro. We see it suggested that the copperheads might make a much more striking and truthful representation of the principles of the two parties by dressing Clymer up in a suit of grey and placing in his hand the "stars and bars," while Geary would wear his old suit of blue, and float the flag which he bore triumphantly against the rebels in so many deadly conflicts. This picture would convey volumes of truth at a sight.

Johnson Increasing His Party.

The Johnson party is increasing, says the Williamsport Bulletin. Since our last, that functionary has liberated the following criminals: Clement C. Clay, traitor, perjurer, murderer, &c., also implicated in the plot to burn Northern cities, and planner of the St. Albans robbery, and other pincies on the lakes and along the border; John G. Harris, Kentucky, convicted of defrauding the revenue laws, Horace S. Jones, Michigan, mail robber; Wallace Whitley, stealing from U. S. Treasury department; Geo. Warren Townsend, Mass., fraud on enrolling record of Provost Marshal's office. All these men had been tried and sentenced by competent tribunals. Johnson has set at liberty ten mail robbers since he accidentally became President. All these men will support "my policy."

Stand by Congress.

Everywhere, throughout the country the cry and determination is, among those who re-elected Abraham Lincoln to a second term, to stand by the senate—to uphold Congress in its patriotic and just position. To do this has already cost much valuable sacrifice. It has required courage and independence to sustain the Senate—manly fortitude to defend Congress in the face of the satellites of an Administration sworn to strike down every man who believes that the results of the war for the Union are all against traitors and in favor of freedom. The people have now a right to ask—nay, loyal men begin to feel like claiming that the majority in the United States Senate exhibit something of the same independence and noble courage so successfully displayed by the masses. It is for the United States Senate to decide whether the great Union party of the country shall survive the term of the present Congress or whether it shall be given to the passions and the resentments of those who rose to power through its confiding preferences, but who are now unmindful of its genius and its purity. The people are now educated up to the highest mark of indignance—they are ripe for justice, firm for freedom.

But they must be sustained by those who represent them in places of constitutional authority—they must have examples of independence and unselfish courage from those who wear the honors of the people's political victory. Let our Representatives in Congress not forget these truths. Let the Senate stand by the people as the masses now adhere to that august body.

A Young Lady Charged with the Theft of \$9,150.

On the 18th of September, 1865, Mr. Paul Shuler, of Blaine, Perry county, was robbed of Government bonds to the value of \$9,150, during the absence of himself and family from home, attending church. Mr. Shuler had sold a farm, and converted the proceeds of the sale into compound interest and seven thirty bonds, consequently the robbery left him a poor man. From that time until a day or two ago, Mr. S. obtained no clue to the thief, neither did he hear of his bonds. A week or two since, a young lady named Elizabeth A. Loy arrived in this city, stopping at the United States Hotel, where she engaged boarding. Subsequently she attempted to have a \$1,000 bond exchanged for money of a smaller denomination, and offered it at the Harrisburg National Bank. The officers of that institution observed that acids had been used to erase a name from the bond, and believing that the lady was not the lawful owner of the same, it was retained in the bank. By some means the fact became known that Miss Loy came from Perry county, and suspicion was had that the bond was the property of Mr. Shuler. That gentleman was sent for, and upon arriving here, identified the bond and made information before Mayor Edwards, charging Miss Loy with the robbery. Another bond of \$1,000, and a compound interest note of a similar amount, were also found in her possession. In view of these facts the young woman was held in \$5,000 bail, to answer at court, and after some two hours' imprisonment she was released, Mr. C. L. Ward becoming her security. Elizabeth A. Loy is represented as being a very modest young lady, who it seems could not possibly be guilty of the theft. She is also a relative of Mr. Shuler, her sister being married to a son of Mr. S. Whether she is guilty of the charge preferred against her, or is merely the dupe of other parties, to "whore" the bonds, remains to be learned when the case is ventilated in court.—Telegraph.

Southern Arrogance.

While the Copperheads are clamoring alike for the unconditional restoration of the rebels to power and against the civil rights bill, no Union soldier can forget that scoundrels like those described below, in a recent letter to the Cincinnati Gazette, are transpiring:

"The white people of Augusta, as well as other points South, having recently made great parade in decorating the graves of the rebel dead with flowers, while the graves of Union soldiers were passed coldly by, the colored people of Augusta determined yesterday to repair the omission. Accordingly they assembled at one of their school houses near the cemetery with flowers, wreaths and banners. Their teachers, white and black, accompanied them, and in peaceful procession they marched to deposit their offerings upon the graves of the nation's dead. A more touching spectacle and one which will appeal more forcibly to every human heart, was seldom seen, but incredible to tell, the procession was met at the gates of the cemetery by the mayor of the city and a strong force of police, and despite the remonstrances of Captain Bryant, the entreaties of the teachers and tears of the poor negroes, was sternly refused admission."

On Tuesday last Auditor-General Hartranft, late Major-General, and Surveyor-General Campbell were sworn into office at Harrisburg. The former has appointed Daniel C. Maurer, of Lancaster, Chief Clerk, and that the latter Mr. Babcock, of Cambria. Both the Departments have been thoroughly Unorganized.

ORGANIZE.

The Union ranks in this section are unbroken and unwavering, and we believe that no appeals to cupidity or ambition can tempt men who voted for Andrew Johnson, to share his treachery now at any price. In the running sorcs of great cities such men can be found any day—men who are but political camp followers and without hope of preferment save when a public functionary degrades himself to their level; but the country is sound to the core, and with prompt and proper efforts on the part of Union men in their respective districts, the political brokers of Johnson and Cowan will pursue their now vocation without success. A few Union journals in the State are in leading strings by their official positions conferred by President Lincoln, and fail to expose the perfidious assaults now being made against the integrity and unity of our organization; but, with a single unimportant exception in the State, not one has exposed the cause of the arch-apostate of our civil history.

Thus threatened by treachery and confronted besides by the same foe we have had to meet and vanquish in other contests, the work of the Union party is one demanding the most sleepless vigilance and unity of action. If we shall fail to perfect organization at an early day, there is danger of demoralization and defeat would be the inevitable result. To avert these perils, we appeal to the Union men of every election district to devote themselves at once to systematic organization. Let us have Geary clubs in every township or town of this county and Congressional district, and the work once thus commenced will give us a decisive victory as the reward for our labors. If we delay organization, when the day of battle comes, we will be measurably at the mercy of the foe until our ranks are closed up and organization is effected. Bear in mind that the corruptionists are tireless in their efforts. They are daily presenting false issues to mislead the people, and the only assurance of safety is in the formation of clubs and committees to disseminate truth so freely that error cannot prevail against it.

Union men! Victory is ours to accept or reject! Immediate, thorough organization will insure our triumph—indulgence and indifference may bring us disaster.—Having saved the Republic from the deadly grasp of treason by the cruel sacrifices of war, let us not shrink from the duty of preserving it from the same fatal grasp in the struggles of peace.—Franklin Repository.

A Large Couple.

Some time ago we published an account of a couple now living at Mountain Eagle, in this county, named Leathers, whose united weight amounted to 723 pounds. While in Mechanicsville last week, we took the opportunity to visit Mr. and Mrs. Leathers, and found that the report of their immense weight was strictly true. At the present time Mrs. Leathers weighs 439 pounds and her husband 288, making a total weight of 727 pounds. Mr. Leathers' greatest weight has been 271 pounds, and his wife's 442—either of them at present weighing three pounds less than the maximum. At the time of their marriage Mrs. Leathers weighed only 111 pounds, while her husband weighed nearly 200. Their ages are about 57 years, the old lady being one year the senior of her husband. He is a hale and hearty man, and goes about his work in a cheerful, good humored way that does one good to look at him. His wife, however, owing to her immense weight, is compelled to sit most of the time. The chair she occupies measures two feet and five inches between the arms, and she crawls in full. She is a serene and even tempered old lady, and expresses no regret save that she is not able to get about more easily.

Seventeen years ago, when on a visit to Lewisston, Mifflin county, Mr. and Mrs. Leathers were weighed, and, to their surprise, found that they were of exactly the same weight—namely, 271 pounds. The pen on the scales did not vary a single notch, indicating that there was not the slightest difference in their weight.—Since that time, however, the lady has gained so fast that she now exceeds her husband 174 pounds. They have raised a family of six boys and three girls, he sides several that are dead, and have all ways enjoyed good health. The old lady is sometimes afflicted with erysipelas, but otherwise she thinks she feels as well now as she ever did in her life. We hope she and her husband may live for many years yet, and continue to receive the good wishes and kind regards of their neighbors and friends.—Belleville Watchman.

The Presidency in the South.

The Mobile Register has placed at the head of its columns the name of Gen. Robert E. Lee as the State Rights Democratic candidate for President in 1868. The Memphis Argus thinks the time has not yet come to propose the name of Gen. Lee for this high office. It says: "Surely, they are no good or true friends of this grand old man, who, in the present posture of affairs, would drag his great name into the filthy arena of party strife. Not till a new and better spirit shall prevail in the politics of this country, and the country shall call for its best men to stand and serve in high places, will it be possible or appropriate to dignify the Presidential chair with a second, and greater than Washington." If, in the approaching political struggles it becomes necessary or advisable, or proper, to designate some Conservative candidate for the Presidency in 1868, in our opinion he—our present leader, the great statesman of Tennessee—is the man.

That is, "great and good" men not being wanted, The Argus nominates Lee.

FREE RAILROAD PASSES.—The bill passed by the New York Legislature to prevent railroad companies from issuing free passes is being rigidly enforced.—The Attorney General of New York has construed it to apply as well to free passes issued before as to those issued after the passage of the act. The New York companies, much to the disgust of those heretofore enjoying the delights of "deadheadism," are taking up the passes and collecting the fares. The only exceptions are persons employed as clerks, laborers, officers or attorneys by the companies; sick and disabled soldiers and persons who may be injured on the road. The penalty is \$50 for each violation of the act.

In the State of Arkansas the number of rattons issued by the Freedmen's Bureau to Whites and Blacks respectively, during the first quarter of the current year, was as follows:

Table with 2 columns: Whites, Blacks. Rows for January, February, March, and Total.

The old fashioned custom of rejecting a man as a juror on the trial of capital offenses, because he has been ineligibly enough to read the newspaper reports of the case and same enough to form an opinion on the basis of those reports, is, we regret to see, falling at last into disuse. In the choice of the jury for trying Probst, in Philadelphia, the Court admitted as jurors those of the panel who, notwithstanding the formation of an opinion, answered that they would be governed in their verdict by the evidence before the Court. This is a decision of common sense.

PUBLIC NOTICE.

OFFICE OF THE PERRY COUNTY M. F. IS CO., New Bloomfield, Perry Co., Pa. NOTICE IS HEREBY GIVEN THAT the Perry County Mutual Fire Insurance Company has had an assessment of FIVE per cent on all its premium notes in force on the 1st day of March 1866 and that Collectors will collect said assessment which is the 1st one that has been laid by this Company since its organization on the 8th of July, 1842—a period of twenty three years. The principal losses by fire, which have been paid during the last eight years, and which are to be paid now, have been occasioned by the burning of property having steam works connected with them. By resolution of this Company on the 5th day of September 1865, no steam works were to be thereafter insured, and the renewal of their policies was positively forbidden. The policies insuring steam works, have nearly all expired, only some two or three are believed to be still in existence which will soon expire; and taking the past losses as an index to the future, about three fourths of the Company's liability to losses, for which assessments must be laid, will be avoided, and its risks proportionately diminished. That an unusual number of fires occurred during the last two years, and are still occurring, is apparent to the most casual observer of passing events. The causes of these fires are not known; but they are facts which arrest public attention. The losses of this Company, it is believed, compared with other similar mutual or stock companies during the past two years, have been rather light; and among them are the following: D. A. T. Black, of Bedford county, \$287.25; John Shank, of Perry, \$500; Samuel Okeson of Juniata county, \$1750; A. J. Farguson, of Juniata county, \$500; Reister & Wigton and others of Mifflin county, (steam works) about \$2550; Wm. Peale's estate, (steam works) of Perry, \$1887.75; John D. Clee and others of Landisburg, Perry county, about \$500; John Marshall, of Greenwood, Perry county, about \$716, besides other losses of smaller amounts. By order of the Board, C. ROTH, Pres't.

ORPHANS COURT SALE.

By virtue of an Order of the Orphans' Court of Juniata county, the following valuable Real Estate will be exposed to sale on the premises, on SATURDAY, June 9th, 1866. A tract of Land situate in Tuscarora township, Juniata county, containing 160 ACRES, adjoining land of Jacob Droblesbough and others, having thereon erected a good FRAME HOUSE, Bank Barn, Spring House, Smoke House and other out-buildings, with a well of water at the door. There is a good Orchard of apples, peaches, cherries, &c. About 100 acres are cleared and under good cultivation—the balance well timbered. The farm is watered with springs, and is convenient to churches, schools, stores, &c., and is about two miles and a half from East Waterford, and one mile from McCulloch's Mills.

TERMS.—So much of the purchase money as may be necessary to pay the expenses of sale to be paid on confirmation; one-third of the balance on the 1st of April next, and the balance in one year, with interest from 1st of April, 1867, to be secured by judgment bonds.
