INCREASE OF RATS.—The Farmer's Gazette (English) asserts and proves by figures that one pair of RATS will have a progeny and descendants no less than 661,169 in three years. Now, unless this immense family can be kept down, they would consume more food than would sustain 66,000 human beings.
See "Costar's" advertisement above.

1866.
RATS AND HOUSEKEEPERS.—Whoever engages in shooting small birds is a cruel man; whoever aids in exterminating rats is a benefactor.—We should like some one to give us the benefit of their experience in driving out these pests. We need something better than traps, and traps for this business.—Scientific American, N. Y.
See "Costar's" advertisement above.

1866.
"COSTAR'S" RAT EXTERMINATOR is simple, safe and sure—the most perfect RAT-exterminator we have ever attended to.—Every Rat that can get it, properly prepared will eat it, and every one that eats it will die, generally at some place as distant as possible from where it was taken.—Lake Shore, Mich., Mirror.

THE PECULIAR TAIN OF INFECTION WHICH WE CALL SCROFULA LURKS IN THE CONSTITUTIONS OF MULTITUDES OF MEN. It either produces or is produced by an unbalanced, vitiated state of the Blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and falls into disorder and decay. The scrofulous contamination is variously caused by mercurial diseases, low living, disordered digestion from unhealthful food, impure air, fith and filthy habits, the depressing vices, and above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children and the third and fourth generations;" indeed, it seems to be the root of Hum which says, "I will visit the iniquities of the fathers upon their children." The disease it originates takes various names, according to the organs it attacks. In the Lungs, Scrofula produces Tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the Blood. Purify the Blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.
