A union of lakes, and a union of lands,
A union no power shall sever;
A union of hearts, and a union of hands,
And the American Union forever!

THREATENING ASPECT OF EUROPE.

The condition of affairs in Europe may be regarded as not promising a peaceful future. The late victories and acquisitions of Prussia prove, as we have more than once said, to be a bitter pill for Napoleon. Of the meeting between the Emperor and Bismarck at Biarritz, a short time since, not one word is known. Had the result been favorable we should not have been long in finding it out. Though the most friendly relations were declared to exist between Prussia and France, we could not see the first symptom looking in that direction, but the contrary. We also said, in opposition to much published stuff that Prussia and Russia were quarreling, that it was impossible, as these two nations were naturally allies, and the developed facts prove that we were correct. It is now formally announced that they have entered into a close alliance, and as a consequence of this Russia is raising her armies to their full strength. Those of Prussia are already so and in splendid condition.

On the other hand France is re-organizing her armies in the most thorough manner, and though explained to be merely a measure of necessity and precaution, its meaning is well understood. England is also making herself "smart," and heavy appropriations for the army and navy will be asked for at the approaching sessions of Parliament. France and Austria, if not already in alliance, surely will be, in order to check the designs of Russia in the East, and perhaps any further encroachment of Prussia in Germany. Italy will perhaps be neutral in any war between France and Austria on the one hand and Russia and Prussia on the other. England's course will depend upon circumstances. If Russia directs her steps toward Constantinople with the intention of a permanent lodgment there, England will join France and Austria in beating her back; but we can scarcely bring ourselves to believe that England and Prussia will come into conflict except under circumstances of great magnitude.

Von Bras, a very able man, who was in the King of Saxony's cabinet when the German war broke out, and through whose influence Saxony sided with Austria, has been appointed war minister by Francis Joseph. He starts out with a circular declaring that Austria will maintain a true and peaceful conciliatory policy, but will uphold the dignity of the empire; yet he hates Prussia bitterly and would not hesitate a moment in seizing upon the first opportunity to humble her pride.

THE BALTIMORE TROUBLE.

The Baltimore rebels headed by Gov. Swann, were most beautifully snubbed in their attempt to arrest the city government from the hands of the Union authorities. New Commissioners to hold the election were appointed by the Governor, but were arrested as disturbers of the peace. The Sheriff, however, refused to arrest them, when he in turn was arrested and both he and the Commissioners were placed under heavy bail which they refused to give, and were sent to prison. Great effort was made by their friends to have them released, but the sterling Judge Bond and Bartol refused all application. Great credit, we think, is due to General Grant, who undoubtedly kept the President from interfering with U. S. troops. Had we more such men as Judge Bond and Bartol, treason would more frequently be squelched. The rebels finding that they were thwarted in all their devilish attempts, quietly succumbed, and the election was held on Tuesday without any serious disturbance. It is said the excitement was intense, exceeding the time when the Massachusetts soldiers were shot down in the streets, but by the bold action of the Union men the thing was most admirably managed without bloodshed.

VICTORY!!

The Radical Congress Sustained!

New York, New Jersey, Massachusetts, Illinois, Michigan, Wisconsin, Minnesota, Missouri, Kansas and Nevada again Proclaim for LIBERTY.

Maryland and Delaware in the hands of Copperheads and Rebels.

NEW YORK.

The Republicans have carried their State ticket, and elected a majority of the Legislature. We elect the same number of Union Congressmen as in the present Congress. The enormous frauds in New York city for the Cops failed to overpower the interior.

MASSACHUSETTS.

Massachusetts elects a full Republican delegation to Congress. General Butler is elected to Congress by 8,000 majority.

ILLINOIS.

The Republicans carry Illinois by 40,000 majority.

MICHIGAN.

The Republican majority is over 30,000. It is probably the heaviest State in the matter of gains. The Democrats have elected but one State Senator.

NEW JERSEY.

New Jersey is carried gloriously, and two Republican Congressmen gained, with a Republican Legislature.

KANSAS.

Kansas gives an increased Republican majority, electing Republican Congressmen, and a Republican Legislature.

MINNESOTA.

Minnesota increases her Republican majority and all the members of Congress elected are Republicans.

WISCONSIN.

The Republicans carry Wisconsin by a largely increased majority over last year, and elect the five Congressmen—the same as last year.

MISSOURI.

Missouri covers herself with glory by electing eight Republican members of Congress to one Copperhead, and a Republican majority in the Legislature.

MARYLAND.

Maryland has been carried by the Copperheads and retained rebels, aided by men like Gov. Seane. The Legislature will be Copperhead, insuring the election of Swann to the U. S. Senate.

DELAWARE.

Delaware still remains in the ranks of the Copperhead and Southern party.

BUSINESS FOR THE LEGISLATURE.

During the past summer the Commissioners of the Sinking Fund tried to obtain at private sale two millions of dollars in Pennsylvania bonds, towards the cancellation of the Public Debt, and totally failed. Afterwards they advertised for that amount of bonds, giving all the notice they could, allowing margin enough to close the transaction during the fiscal year. The notice, however, was not long enough to reach Europe and get answers. This notice failed to bring the bonds into market, and hence that large amount of money is idle, so far as concerns the Commonwealth—whatever the State Treasurer may make out of it.

There are about twenty millions of Pennsylvania bonds overdue, and which the State has a right either to cancel or to stop the interest upon. What, therefore, the Legislature ought to do is plain. Let it give the Commissioners of the Sinking Fund authority to call in what bonds they need, in the order of maturity, and in case the bonds shall not be surrendered, to stop the interest upon them.

If valid objections should be found to such provisions of law—then it might be well to order the Commissioners to invest the surplus funds of the State in Federal securities, where they would be drawing for the public benefit as much or more interest than is now paid by the State to the holders of its bonds. At all events, the matter should not be allowed to remain in its present condition. Two millions of dollars at interest for the benefit of the Treasurer, even if the rate of interest is low, affords so large picking that even "a good fellow" ought not to enjoy it a fortnight after the assembling of the Legislature.

About the coolest thing yet is a remark of the Richmond Dispatch which quotes from a New York paper the statement that in Brooklyn the officers have refused to register a man as a voter for no other reason than that he served in the Confederate army, and adds, "The Southern people have made no such discrimination against Federal soldiers."

The amount of freight received at St. Paul this year is greater than ever before.

NEWS ITEMS.

There was ice half an inch thick in the streets of Bangor, Me., last week.

The British and American Bible Societies have distributed 80,000,000 Bibles among the heathen during the last fifty years.

Dillon, the actor, refused to fulfill an engagement in Nashville on account of the cholera, whereupon the manager has sued him for one thousand dollars.

The head blocks of the graves of Union soldiers, who died during the rebellion, are hereafter to be cast iron instead of wood.

The Montreal Witness publishes a map of the burned district of Quebec, which shows that a space equal to twenty acres in length and nine in width was desolated. Fifty-five streets burned over.

Mrs. Keenan, of Lowell, Massachusetts, was divorced from Keenan at 10 Saturday morning, and married to Jones at 4, Sunday afternoon. She was a keen man.

A young man named Charles H. Burdett, of Lenoir, New York, on Friday, from a peculiar form of erysipelas, first developed on his lip, induced by some poisonous matter from a knee ball with which he had been playing.

The Knoxville Commercial of the 14th says: "There is in Knoxville, at this time, vagrants enough, both black and white, to build a splendid turpentine road in every direction for at least fifteen miles to and from our city."

The hog cholera is very prevalent in the vicinity of Richmond, Ky. One man, who had 105 fine hogs lost twenty-five within three days, and other owners have also suffered severely. At last accounts the disease was on the increase.

A young lady residing in Lansing, Michigan, was stung on the forehead by a honey bee in August last. The poison of the sting caused a severe swelling, and so protruded her nervous system as to cause her to bed, and eventually caused her death last month.

An Austrian drum major is now in Detroit looking for employment, who, according to his own story, has been in the army seventeen years, has taken part in fifty-seven battles, and been wounded twelve times, speaks fourteen languages, and plays on thirty musical instruments.

Reports from all portions of Iowa indicate the settlers are flocking there faster than ever before, and that while houses are very scarce in the towns, the lands are being rapidly taken up and settled upon. In 1865 the population of Iowa was 674,918, but it is now estimated at more than 1,000,000.

The oldest woman in America is Mrs. Fench, who lives in the mountains of East Tennessee, and is aged one hundred and twenty-one years. She is blind but being quite hearty, walks without assistance. Her memory is unimpaired, and she can recount many of the events of the Revolution with great accuracy.

Romney—A robbery was committed in a New York omnibus on Friday last, which is of a remarkable character, from the fact that the Rev. George T. Williams, Rector of an Episcopal church at Suffolk, Va., was arrested as the thief. He sat unobtrusively close to a lady, and as soon as he left the omnibus another lady sitting opposite exclaimed to the other, "That man has picked your pocket." He was pursued and taken, though he tried to make his escape. He surrendered the pocket book which he said he found lying on the seat, and begged not to be prosecuted. He was handed over to a police man and locked up. On searching him \$60 was found upon him, also a letter from a Richmond minister certifying that he was a proper person to receive aid for his church, which letter was endorsed by several respectable citizens of Richmond; He was dressed in full clerical suit.

JOHNSON'S POLICY.—It is stated on very good authority that the President has ordered Gen. Sheridan not to make any arrests under Gen. Grant's famous order, which arrests 44 parties accused of committing murders on the 13th of July in New Orleans. It is well known that affidavits were placed in Gen. Sheridan's hands over two months ago, accusing certain parties of murder, and the above accounts for his not acting in the matter.—The appointment of Judge Morgan a notorious Copperhead, as United States District-Attorney will effectually prevent the prosecution of numerous parties held for trial by the United States Commissioners under the Civil Rights bill.

DR. LEON'S CELEBRATED PREPARATIONS

THE PERFECTION OF MEDICAL SCIENCE.

Dr. Leon's Electric Hair Renewer.

It is a positive cure for baldness. It restores grey hair to its original color. It is a Tonic, not a Dye, and acts upon the secretions. It immediately arrests falling out of the hair. It alleviates neuralgia and headache. It radically cures dandruff and humors. It keeps the scalp healthy, clean and cool. It is an elegant and exquisitely fragrant hair dressing. It restores, cultivates and beautifies the hair. It makes hair flexible and lustrous. Dr. Leon's Electric Hair Renewer has enjoyed a high local reputation for many years. Its wonderful restorative and invigorating properties are well known to the medical faculty of Philadelphia. Being fully satisfied of the merits of Leon's Electric Hair Renewer we have procured exclusive ownership and are determined that every household in our land shall have opportunity to reap its benefit.

A CAPTIVATING NYMPH.—A young nymph of Chicago lately captivated and married one Kelly, of New Albany, Missouri. She then persuaded him to sell his property, which he did. This done, she stole the money, \$1,000, and was about to escape, when she was secured by the police, the money returned, and \$17 furnished her to travel with.

The Erie Dispatch says that the President told Hester Clymer that if Congress impeached him he should resist their action as illegal. On another occasion speaking on the same subject he said, "The Old Capital Prison is still in existence. It has been used before and may be used again."

It is a noticeable feature of the cholera at Chicago that nearly all who died were in the habit of using intoxicating liquors. Where the habits of the person attacked had been strictly temperate, the disease yielded much more readily to medical treatment.
