HIGHWAYMEN.—Of late it is not safe for persons to cross the river bridge at this place after dark. Almost every night some person is molested by ropes being stretched from one side of it to the other for the purpose of throwing them down, females caught and disrespectful language used by some low blackguards who make this place their haunt. A young lady living in Mifflin who had been at Harrisburg one day last week and returned in the evening train, when crossing the bridge was caught by some person, and being of a plucky disposition, she fought him bravely and made her escape. An old lady and her daughter living in Patterson when crossing the bridge the other evening, were caught by some unknown persons, and after a desperate struggle they tore loose from them and gave the alarm. Search was immediately instituted, but the guilty party could not be found. Why this is tolerated we do not know. If the bridge owners do not make an effort to have this evil remedied, the borough authorities of Mifflin and Patterson, should offer a reward for the arrest of these outlaws, and we have no doubt in a short time they would be brought to speedy justice. Persons crossing the bridge should go armed, as there is no knowing how soon they may be attacked. We hope those in authority will not pass this matter by unnoticed, but give it their earnest and immediate attention.

ACCIDENT.—On Thursday last Mr. John Schmuker, of Spruce Hill township, met with a serious accident. He was in the woods falling timber, and a tree he had cut loose lodged against another standing close by breaking off a limb, which fell and struck Mr. Schmuker on the head causing a very severe and dangerous wound from which it is thought he will not recover. He was carried home, a distance of about two miles before any medical aid could be procured.

FIRE COMPANY.—We understand that the members of the Excelsior Base Ball Club of this place are about organizing a Fire Company. This is a commendable act, and as our fire engine has been idle for want of a company ever since the Council purchased it, they will, no doubt bring out the "mersheen," and make the Fire Company one of the permanent institutions of our town. As the engine is greatly in need of repairs, we trust the Town Council will have no hesitancy in lending a helping hand in this direction.

SPECIAL NOTICE.—To the ladies and gentlemen of Patterson and Mifflintown, and to the youth and beauty of the surrounding country. I would like to present a letter to every person calling for news at the Patterson Post Office during the approaching holidays and to enable me to favor all that come, I offer the following inducement:

I propose to give to the lady and gentleman receiving the largest number of letters at the Patterson Post Office during the week commencing with Christmas and ending with News Year day, an autograph Letter sealed and confidential, containing secrets worth knowing and worthy a slight effort on the part of your fair readers to obtain.

I will suggest a plan by which each Lady and Gentleman may receive as many letters as they wish. In order to secure answers during the time specified. Each one should commence writing to all their friends including Grandfathers and mothers, Uncles and Aunts, cousins and second cousins, Lovers and friends, and tell them to be sure and send a return letter to the Patterson Post Office, on Christmas day or between that day and the New Year.

By following the above suggestions, you can receive as many letters as you wish, and can enter the Post office with confidence, and ask, is there anything here for——

A GREAT DISCOVERY.—One of the greatest and most useful discoveries in medical science was made by the celebrated Dr. J. Dumas, of Paris, Chief Physician to the Imperial Infirmity of France, in 1861. Those who have been afflicted with the painful disease known as the Piles, and effectually cured by the use of Dr. J. DUMAS' FRENCH PILE SALVE, cannot speak too highly of the benefits conferred upon them by the use of the certain remedy. It has never been known to fail in effecting a permanent cure in a single case. In this respect it surpasses all other medicines of the kind. It will do just what it is recommended for; if not the money will be refunded. One or two boxes is sufficient to effect a permanent cure in four or six days, if the directions on the boxes are followed.—Price one and two dollars per box, according to size. Sent by Mail or Express to any part of the United States or Canada. Sold by Druggists generally. A liberal discount made to the trade. Address D. S. DUNHAM & Co. A Superior quality, either by single sack of quantity. We will furnish Merchants with salt at Philadelphia prices, with the add nce of expenses of freight.

SULOUFF & FROW PARKER.

PATENTED MAY 29, 1866.—This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used. Among the advantages claimed are the following, viz:

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode.—No water required except to moisten the powder.

Directions with each package.

And can be readily appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed three cents.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it are better adapted to meet a demand which has long existed, and which has heretofore remained unsupplied.
