SANATORY MEASURES have been taken by our Borough Council to have the premises of our citizens and streets and alleys cleansed. This is a praise-worthy meas ure, and if carried into effect will be con ducive of much good. Heretofore orders similar to the present have been issued and but little or no attention paid to them. but we think the present Council are in earnest and intend to compel our citizens to cleanse their premises effectually, so that before the cholera days are here our town will be so clean that this swift mes senger of death will not not stop in our midst.
