FREY, FARNSWORTH & CO. Col. E. Frey, of West Virginia, Pres't.

L. S. FARNSWORTH, Scerctary. GEO. STADTMILLER, Indiana county, General Agent.

A splendid opportunity for a secure and moderate investment of capital is now offered by this Company to Tanners and Capitalists of large as well as moderate means, as the Company is now prepared, after a successful test of Hickel's improved system of taxning in several counties in this State and adjoining States, to offer for sale nome terri-tory within this State, Tennessee, Texas, Or-egon, Utah, New Mexico and Nevada, in the shape of rights for Districts, Counties, Towns or for individual use of said improved system secured to Sanford A. Hickel, Esq., by Letters Patent dated November 7th, 180 granted for seventeen years, and by said S. A. Hickel, Esq., legally transferred to this Company for this and the other State and Ter

ritories mentioned. The successful workings of this great discovery has been demonstrated in every stance, wherever fully and thoroughly tested, and has given and new gives general and universal satisfaction, both as to quality of leather and the saving in part of the former expensive material-bark, as can be seen by attached certificates. This is the only system ever introduced which is warranted as to its virtue by the proprietors.

We warrant to manufacture Sele Leather in Ninety days, Harness Leather in Fifty days Bridle Leather in Forty days, Upper Leather in Thirty-Five days, Kipp Leather in Thirty days, Calfskin in Twenty to Twenty-Five days, Sheepskin in Two to Three days. We warrant to save one-third in heavy, and

one-half of the bark formerly used in light stock, making heavier leather than can be manufactured with bark alone. A superior quality of leather is also warranted to be made under this system.

No alterations are necessary or required in the yard or in the manner of manufacture, but a great saving of labor is uttained by not being required to "lay away," and this leather being scoured with great ease. The great virtue of this discovery consists

in the lessening to one-half the expense of tanning by the use of a purely vegetable matter, in conjunction with tan Lark, which can be at any time, in all seasons, and at any place secured at the limited cost of net more than twenty-five cents to a hundred hides. This system having been but recently dis-

covered and patented, November, 1865. not been very extensively introduced as yet, the commencement having bean made by this Company, with the Patentee in this State in May, 1866, and is row successfully used in the following places, reference to which is made, viz : Greene county, Pa .- N. Newman, Harrington & Co., Washington, Pa. -S. Smith, J. Weber and others; Fayette county, Pa .- T. Vernon, J. Emory, Daning & Bro., Indiana, Pa.—George Stadtmiller, West moreland county, Pa.—J. Verwen, Allegheny county, Pa.—Lappe & Wiese, Luckhaupt & Kiefer, Stuckgrath & Seitz, Hazel & Co., Beaver county, Capt. Darrah McVitty, Huating ion county, Pa.

Specimens of leather manufactured under this system can be examined at the store and Wareroom of George Stadtmiller, in Indiana. Indiana county, Pa., General Agent; Mr. Stuckgrath's Tannery, Reserve township, Allegheny county, or the tannery of Messrs. Luckhaup & Kiefer, Spring Garden,

Liberal terms can now be accured, as the Company is just beginning operations, and therefore disposed for the furtherance of the system to make sales at low and modern's
