AMERICAN TANNING COMPANY. FREY, FARNSWORTH & CO. Col. E. Frey, of West Virginia, Pres't. L. S. FARNSWORTH, Secretary.

NEW ADVERTISEMENTS. GROVER & BAKER'S SEWING MACHINES. Were awarded the highest premiums at the State Fairs of New York, Vermont, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin, Iowa, Kentucky, Tennessee, Missouri, Alabama, Mississippi, Virginia, North Carolina, California, Oregon.

At the Fairs of the American Institute, Mass. Mechanics Association, Penn'a Mechanics Institute, St. Louis Agricultural and Mechanics Association.

THE GROVER & BAKER Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew with two threads direct from the spool, and require no rewinding. 2. They are more easily understood and used, and less liable to derangement than other machines.

3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines. 4. The stitch made by these machines is much more firm, elastic, and durable.

5. The stitch, owing to the manner in which the under thread is brought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out. 6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor unravel, but remains firm and durable.

7. Unlike other machines, these fasten both ends of the seam by their own operation. 8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam.

9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work.

GROVER & BAKER'S M. CO., 730 Chestnut Street, Philadelphia. Machines delivered at the residence of any one purchasing in either of the Boroughs.

AMERICAN TANNING COMPANY.

FREY, FARNSWORTH & CO. Col. E. Frey, of West Virginia, Pres't. L. S. FARNSWORTH, Secretary.

A splendid opportunity for a secure and moderate investment of capital is now offered by this Company to Tanners and Capitalists of large as well as moderate means.

The successful workings of this great discovery has been demonstrated in every instance, wherever fully and thoroughly tested, and has given and now gives general and universal satisfaction.

No alterations are necessary or required in the yard or in the manner of manufacture, but a great saving of labor is attained by not being required to "lay away," and this leather being secured with great ease.

THE GREAT VIRTUE of this discovery consists in the lessening to one-half the expense of tanning by the use of a purely vegetable matter, in conjunction with tan bark.

Specimens of leather manufactured under this system can be seen at the store and Warehouse of George S. Kiefer, in Indiana, Indiana county, Pa. General Agent; M. Stuckgraft's Tannery, Reserve township, Allegheny county, or the tannery of Messrs. Kuehnau & Kiefer, Spring Garden.

Liberal terms can now be secured, as the Company is just beginning operations, and therefore disposed for the furtherance of the system to make sales at low and moderate prices.

Col. Frey, the President of the company, is now in Millin, stopping at the Juniata Hotel, where he will remain for a week or two, in the new system at Mr. Clamberlain's Tan Yard, in Millin. Tanners and others interested are invited to call and see his workings. Individual, Township, and County Rights can be purchased by calling on Col. Frey. The system is thoroughly tested and satisfaction guaranteed.
