A union of lakes, and a union of lands A union no power shall sever; A union of hearts, and a union of hands. And the American Union forever!

MIFFLINTOWN: Wednesday Morning, June 12, 1867.

H. H. WILSON, Editor and Publisher THE PRICE OF LIVING.

The recent falling off in the prices of flour and grain and the prospect, all over the country, of abundant crops leads us to hope that the high prices have reached their climax. The Star of the Valley in commenting on the price of living says:

It must and it is coming down. Speculators have had a "good time" long enough, and the people have been shaved to the "quick." For months we have heard the cry that there is not sufficient wheat or corn in the country to keep the people from starvation. This is all a trick. There is more than enough of both wheat and corn now warehoused to field the country for six months. And in addition to this, the harvest of both America and Europe promises to be the most abundant ever gathered and garnered on both hemispheres. In proof of what we say, we see that in New York there is a terrible panic in the flour market. Prices are toppling and speculators are tumbling. Nor is this decrease of price confined to flour of low grades. It is most marked in the fine article, which last week fell from one to two dollars per barrel. These facts demonstrate clearly the fallaciousness of the statements as to a scarcity of flour on hand. In a few weeks hence, flour from new grain will be in the market. A little economy, a strict guard against the willful waste which makes woful want, will bring the specu. lators to grief, and the laborer will get his flour at prices ranging with the pay he gets for his labor.

In Chicago there is a decline and paule in the flour and grain markets. The masses of the people in the West have taken the matter in hand. Flour is fired. brought to Chicago for individual use by the individuals, themselves, twenty-five per cent, cheaper than the holgers of the article to that city are willing to sell .-

THE Philadelphia North American has but little confidence either in the financial sagacity, or political integrity of Sceretary McCulloch. That paper charges him with the design of embarrassing the national finances, and increasing the national debt for the benefit of the Democratic party. It says that more money has been lost to the Government through the inefficiency of the Revenue Department than all the estimated taxes would amount to. It is hard to imagine the depths of depravity which a man has reached, who can consent to prostitute high official position in sacrificing great national in erests, for the purpose of helping one party and injuring another.

## WHAT PARTY !

N. B .- Persons wishing the nomination of our party this fall can have their cards inserted in these columns for one hundred dollars-invariably in advance -Juniuta Republican.

A few weeks ago when these hirelings of Andy Johnson were soliciting subscribers for that paper they represented to Republicans that they were "as good Re publicans as they ever were," and to Democrats that they were good Democrats and would make a Democratic paper out of the Republican. Now they speak of "our' party. What party do they mean?

WASHINGTON, June 6 .- It is believed in Washington that the Indians intend offering no desperate resistance beyond harrassing, guerrilla movements to the troops now in the field against them .-Acting upon the consequent suggestions of Generals Grant and Sherman, the Secretary of War has a force of eacalry in process of organization to be added to the force already on the plains, by the aid of which, it is confidently believed, he will bring the war to a much earlier close than has been generally anticipated.

The suit for damages by the heirs of Col. Butler was first brought in Mifflin county, but the venue was changel to Snyder. The case excited great interest and was hotly contested on both sides. After due consideration, the jury returned a verdict for the plaintiffs of eighteen thousand dollars. Another suit will be brought by the same parties to recover for the killing of Mrs. Butler.

CAPT. H. H. WILSON-Denr Sir:-

STATE SENATOR,

CAPTAIN WILSON .- As the people of this District will be called upon to elect two Senators this fall, it is important that good men are selected. The District is composed of the counties of Blair, Centre, Huntingdon, Mifflin, Juniata and Perry-six counties-thus giving to each county a Senator during the apportionment, which expires in 1871. Blair and Perry have had their turn and have no Andrew J. Herron, Attorney General of claim. There are four counties lett with equal claims, two of which will get the Senators this year and the other two in 1870; so that by this course all will be treated fairly and justly. Any attempt the Congress of the United States. I to give any county or man on unfair predid not deem it necessary to give any ference will certainly create dissatisfaction and result in the loss of the District. I desire to present to the favorable consideration of the Republicans of this county the name of a gallant soldier, Col. JOHN K. ROBISON, for the office of State Senator. He did his duty bravely in the field, and only returned to his home when armed treason had been overthrown.
