Know Thy Destiny.

Madame E. F. Thornton , the great English Astrologist, Clairvoyant and Psychometrican, who has astonished the scientific classes of the Old World, has now located herself at Hudson, N. Y. Madame Thornton possesses such wonderful powers of second sight, as to enable her to impart knowledge of the greatest importance to the single or married of either sex. While in a state of trance, she delineates the very features of the person you are to marry, and by the aid of an instrument of itense power, known as the Psychomotrope guarantees to produce a life-like picture of the future husband or wife of the applicant, together with date of marriage position in life. leading traits of character, &c. This is no humbug, as thousands of testimonials can assert. She will send when desired a certified ertificate, or written guarantee, that the nicture is what it purports to be. By enclosing a small lock of hair, and stating place of birth, age, disposition and complexion, and enclosing fifty cents and stamped envelope addressed to yourself, you will receive the picture and desired information by return mail. First prizes have also been awarded these Machines at the exhibitions of London, Paris, Dublin, Linz, Besancon, Bayonne, St. Dizier, Challers, and they have een furnished, by special corrusand, to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Beazil, Queen of Spain, and Queen of Bavaria.

The GROVER & BAKER Elastic-Stitch Sewing Machines are superior to all others for the following reasons :

1. They sew with two threads direct from the speal, and require no rewinding.

2. They are more easily understood and used, and tess liable to derangement than oth r nicebines. 8. They are capable of executing perfectly,

without change of adjustment, a much greater variety of work than other machines.

4. The stitch made by these machines much more firm, elastic, and durable, especi-ally upon articles which require to be washed

the most plump and beautiful in use, and re-Cramps and Windy Pains, and is invaluable tains this plump and beautiful in use, and re-tains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.

6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor rayel, but remains firm and durable. 7. Untike other machines, these fasten both

ends of the seam by their own operation 8. With these machines, while silk is used pon the right or face side of the seam, coton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitch-

ed or made up with sink. 9. These machines, in addition to their suerior merits as instruments for sewing, by a

A splendid opportunity for a secure and moderate investment of capital is now offered by this Company to Tanners and Capitalists of large as well as moderate means, as the Company is now prepared, after a successful test of Hickel's improved system of tanning in several counties in this State and ad joining States, to offer for sale some terri tary within this State, Tennessee, Texas, Oregon, Utah, New Mexico and Nevada, in the shape of rights for Districts, Counties, Towns or for individual use of said improved system secured to Sanford A. Hickel, Esq., by Letters l'atent dated November 7th, 1865, and granted for seventeen years, and by said S. A. Hickel, Esq., legally transferred to this Company for this and the other State and Ter ritories mentioned.

The successful workings of this great discovery has been demonstrated in every in stance, wherever fully and thoroughly tested, and has given and new gives general and universal satisfaction, both as to quality of leather and the saving in part of the formor expen sive material-back, as can be seen by the attached certificates. This is the only sys-tem ever introduced which is warranted as o its virtue by the proprietors.

We warrant to manufacture Sole Leather in Ninety days, Harness Leather in Fifty days Bridle Leather in Forty days, Upper Leather in Thirty-Five days, Kipp Leather in Thirty days, Calfskin in Twenty to Twenty-Five

days, Sheepskin in Two to Three days. We warrant to save one third in heavy, and one-half of the back formerly used in light stock, making heavier leather than can be manufactured with bark alone. A superior quality of leather is also warranted to be made under this system.

No ulterations are necessary or roominal in the yard or in the manner of manufacture, but a great saving of labor is attained he not being required to viay away," and this leather being secured with great case.

The great virtue of this discovery consists in the lessoning to one-half the expense of tanuing by the use of a purely vegetable matter, in conjunction with tan Lark, whinle. can be at any time, in all seasons, and at any place secured at the limited cost of act more than twenty-five cents to a hundred bides.

This system having been but recently discovered and parented. November, 1865, has not been very extensively introduced as yet. the commencement having been made by this Company, with the Patentea in this State in May, 1865, and is row successfully used in the following places, reference to which is made, vic : Greene county, Fn ---N Nerman, Harrington & Co., Washington, Ps. -S.
