### GROVER & BAKER'S SEWING MACHINES

Were awarded the highest premiums at the State Fairs of

New York, Kentucky,  
Vermont, Tennessee,  
New Jersey, Missouri,  
Pennsylvania, Alabama,  
Ohio, Mississippi,  
Indiana, Virginia,  
Michigan, North Carolina,  
Wisconsin, California,  
Iowa, Oregon,

At the Fairs of the American Institute, Franklin Institute, Mass. Mechanics' Association, St. Louis Agricultural and Mechanical Association, and at numerous Institutes and County Fairs, including all the Fairs at which they were exhibited the past three years. First prizes have also been awarded these Machines at the exhibitions of London, Paris, Dublin, Lima, Besancon, Bayonne, St. Diexer, Chalons, and they have been furnished by special command to the Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The GROVER & BAKER Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew with two threads direct from the spool, and require no rewinding.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the fader thread is interwoven, is much the most pliant and beautiful in use, and retains this pliancy and beauty even upon articles frequently washed and ironed until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while the silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily formed and practical, execute the most beautiful and permanent embroidery and ornamentation.

GROVER & BAKER, 31, CO., 780 Chestnut Street, Philadelphia.

Machines delivered at the residence of any one purchasing in either of the Boroughs of Threnais, Oils, Needles, and every other article appertaining to the working of the machine on hand and for sale by J. B. M. Todd.
