The successful workings of this great discovery has been demonstrated in every in-stance, wherever fully and thoroughly tested, and has given and now gives general and uni-versal satisfaction, both as to quality of leather and the saving in part of the former expen-sive material—bark as can be seen by the attached certificates. This is the only system ever introduced which is warranted as its virtue by the proprietors.

We warrant to manufacture Sole Leather in Ninety days, Harness Leather in Fifty days Bridle Leather in Forty days, Upper Leather in Thirty-Five days, Kipp Leather in Thirty days, Calfskin in Twenty to Twenty-Five Sheepskin in Two to Three days.

We warrant to save one-third in heavy, and one-half of the back formerly need in light stock, making heavier leather than can be manufactured with bark alone. A superior quality of leather is also warranted to be made under this system. No alterations are necessary or required in

the yard or in the manner of manufacture, but a great saving of labor is attained by not being required to "lay away," and this leather being scoured with great case. The great virtue of this discovery consists in the lessoning to one-half the expense of

tanning by the use of a purely Till undersigned having just returned matter, in conjunction with tan bark, which can be at any time, in all seasons, and at any place secured at the limited cost of not more than twenty five cents to a hundred hiles. This system having been but recently dis-
