The GROVER & BAKER Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew with two threads direct from the spool and require no rewinding.

2. They are more easily understood and result of the property of the prop

8. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines. 4. The stitch made by these machines is much more firm, clastic, and durable, especi-

5. This stitch, owing to the manner in 2.16 A. M. which the ruder thread is inwrought, is much 4.10 P. M. the most plumy and beautiful in use, and re-2, 7 P. M. tains this plumpness and beauty even upon

> 6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, bat remains firm and durable,

> 7. Untike other muchines, these fasten both ends of the seam by their own operation 8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitch

ed or made up with sick.

9. These machines, in addition to their suness apply at the corner of 30th and Market perior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work. GROVER & BAKERS, M. CO.,
