MIFFLINTOWN Wednesday Morning, October 9, 1867 H. H. WILSON, Editor and Publisher

THE ELECTION.

We publish the full returns from the different townships as far as received up to the time of going to press. The county, as usual, has gone against us. As to the State, the returns are so meagre that it is impossible to form any estimate of the result, but we believe the Republicans will have a small major-

PREPARING FOR MISCHIEF .- Governor Swann, of Maryland, made a requisition a short time ago on General Grant for cannon to arm his rebel militia. Gen. Grant promptly refused to give United States artillery to Ewan's rebels. Gov. Swann has since purchased artillery elsewhere sufficient to fully equip his rebel forces. Every loyal man whether in Maryland or out believes that this arming of the mili tis means mischief. All the signs of the times indicate that these forces are being armed to assist Andy Johnson in any mad scheme of revolution that he may be reckless enough to undertake.

THURLOW WEED says: "Mr. Lincoln's first intimation of a desire for a renomination was given to his early and fast friend, Leonard Sweatt, Esq., and ourself. We were gossiping with him, leisurely, one evening in December, 1863, when Mr. Sweatt remarked, "I suppose you are thinking about a re-election?" Mr. Lincoln replied, "Sweatt, how did you know that the bee was buzzing about my ears Until very recently I expected to see the Union safe and the authority of the government restored before my term of serv. ice expired. But as the war has been prolonged, I confess that I should like to see it out in this chair. I suppose that everybody in my position finds some reason, good or bad, to gracify or excuse their ambition." Mr. Weed also states that Mr. Lincoln was not in favor of Andrew Johnson's nomination on Vice President. His choice was Daniel S. Lickinson of New York.

THE CALIFORNIA PLECTION.

After all the fremendors shouts at the Copperhead victory in California, it is now officially ascertained that the Republicans have a majority of two votes on joint ballot, which secures the election of a Re-

publican United States Senator. The Copperhead candidate for Governor is elected, there being two Republican candidates in the field. At the last general election their total vote was 59,617. Haight's majority this year is 5,655; the Union majority at the preceding election was 8,470. The decrease in the total vote is 14.058; notwitherending the registry shows no decrease in the number entitled to vote. Now, if we go one step further, we find the total loss in the vote to have resulted from the disaffected Republicans. staying at home. At the last election the Democracy polled a vote in these counties of 25,584. Haight receives a vote of but 24,622, an actual decrease of 962. On the other hand, the total Union vote at the preceding election, was 24,663; this year it is but 20,957, a decrease of 13,-096; the remaining 962 of the decrease, as we have stated, being on the Demo-

A Quartermaster's Clerk Loses \$950 in a Fare Bank.

On Saturday evening a clerk, employed in the Quartermaster's Department, was entrusted with \$700 to carry to the exhours, or, as others have it, the office was closed. He was in need of money. Here funds in his possession for the purpose of relieving him of his embarrassments -There was no harm in it; he did not mean to steal the money; it was simply borrowing it on short time; he would win Monday morning. The doors of a gambling saloon on Cedar street were wide open to all such specious reasoners, and be entered. After a brief bont with the tiger, the clerk found himself minus every dollar he had brought with him. Driven to desperation, he, like all inexperienced camblers, set about attempting to repair his loss by new ventures. Posting off to a friend, he borrowed \$250 "for a few noments," returned to the fare bank, and was again cleaned out.

The defalcation could not, of course, be long conscaled from Colonel Moore -That efficer thought builf a loaf better han no bread, and offered to compromise with the gamblers for \$400, but the winner could not see it in that light.
