**GROVER & BAKER'S**  
**SEWING MACHINES**

Were awarded the highest premiums at the State Fairs of New York, Vermont, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin, Iowa, Kentucky, Tennessee, Missouri, Alabama, Mississippi, Virginia, North Carolina, California, Oregon, and at the Fairs of the American Institute, Franklin Institute, Mass. Mechanics' Association, Penn's Mechanics' Institute, St. Louis Agricultural and Mechanical Association, and at numerous Institutes and County Fairs, including all the Fairs at which they were exhibited the past three years. First prizes have also been awarded these Machines at the exhibitions of London, Paris, Dublin, Lima, Besancon, Bayonne, St. Diex, Chalons, and they have been furnished by special command, to the Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of Spain, and Queen of Bavaria.

The GROVER & BAKER Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew with two threads direct from the spool, and require no rewinding.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the under thread is wrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.
6. The structure of the seam is such that, though it be cut or broken at intervals of only a few stitches, it will neither open, run, nor ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practised, execute the most beautiful and permanent embroidery and ornamental work.

J. B. M. TODD, Esq.—This is to certify that the Doty's Clothes Washer and Wringer I purchased from you, will do all that is recommended if the direction for washing is strictly observed, especially for heavy clothing, one person can wash as much in an hour with ease as they would do in six hours by hand or common rubber. F. M. MCKEY,  
Mr. J. B. M. I can cheerfully recommend every person to go to J. B. M. Todd's, and get a Washer and Wringer as I am confident that you can save the price of the Machine in less than one year in the saving of the of the wearing of clothes as they are washed without rubbing.
