CIRCULAR. To the Friends of Progression and Reform :-We would respectfully announce that after many years of general city and country practice, during which time we have been a con-stant observer at the bedside of the sick and have treated successpresenting our claims for public parronage. Our system of practice may need some explanation, it being the ECLECTIC (1 Thess. 5: 21, 22). The remedies are principally vegetable (Gen. 1: 29. 1sa. 38: 21. Rom. 14: 2. Rev. 21: 2), discarding the internal use of Culosel, or Mercury, Turiur Enedic, Aracnic, and Antimosy entirely, because they are disease-creating agents of the worst description. We are opposed to the use of general blood-letting in any case; believing it to be injurious to the constitution and oftentimes dangerous to life. to be injurious to the constitution and oftentimes dangerous to life. We therefore solicit all those suffering with any form of diseases, and particularly CANCERS, OLD SORES, chronic and complicated ones, as also all those diseases peculiar to Frances and pertaining to Womes and children, to give us a fair trial. We wish it distinctly understood that this special invitation is given to those who have sufficiently tried the remedies of their family physician, and have failed to obtain relief at his hands. If others choose to apply, we will give them also our best attention, and will promise them relief in every case where a reasonable hope can be entertained. Believing, therefore, that you will properly appreciate the advantages we clum for our system over the bleeding, blistering, and calemet practice, we promise you, by the most careful investigation of every case and prompt attention to business, to fully merit your worthy personage.

Respectfully yours,
